Blood and Earth Kevin Bales 2016-01-19 For readers of such crusading works of nonfiction as Katherine Boo's *Beyond the Beautiful Forevers*

and Tracy Kidder's *Mountains Beyond Mountains* comes a powerful and captivating examination of two entwined global crises: environmental destruction and human

trafficking—and an inspiring, bold plan for how we can solve them. A leading expert on modern-day slavery, Kevin Bales has traveled to some of the world’s most dangerous places documenting and battling human trafficking. In the course of his reporting, Bales began to notice a pattern emerging: Where slavery existed, so did massive, unchecked environmental destruction. But why? Bales set off to find the answer in a fascinating and moving journey that took him into the lives of modern-day slaves and along a supply chain that leads directly to the cellphones in our pockets. What he discovered is that even as it destroys individuals, families, and communities, new forms of slavery that proliferate in the world’s lawless zones also pose a grave threat to the environment. Simply put, modern-day slavery is destroying the planet. The product of seven years of travel and research, *Blood and Earth* brings us dramatic stories from the world’s most beautiful and tragic places, the environmental and human-rights hotspots where

this crisis is concentrated. But it also tells the stories of some of the most common products we all consume—from computers to shrimp to jewelry—whose origins are found in these same places. *Blood and Earth* calls on us to recognize the grievous harm we have done to one another, put an end to it, and recommit to repairing the world. This is a clear-eyed and inspiring book that suggests how we can begin the work of healing humanity and the planet we share. Praise for *Blood and Earth* “A heart-wrenching narrative . . . Weaving together interviews, history, and statistics, the author shines a light on how the poverty, chaos, wars, and government corruption create the perfect storm where slavery flourishes and environmental destruction follows. . . . A clear-eyed account of man’s inhumanity to man and Earth. Read it to get informed, and then take action.”—Kirkus Reviews (starred review) “[An] exposé of the global economy’s ‘deadly dance’ between slavery and environmental disaster . . . Based on

extensive travels through eastern Congo's mineral mines, Bangladeshi fisheries, Ghanaian gold mines, and Brazilian forests, Bales reveals the appalling truth in graphic detail. . . . Readers will be deeply disturbed to learn how the links connecting slavery, environmental issues, and modern convenience are forged."—Publishers Weekly "This well-researched and vivid book studies the connection between slavery and environmental destruction, and what it will take to end both."—Shelf Awareness (starred review) "This is a remarkable book, demonstrating once more the deep links between the ongoing degradation of the planet and the ongoing degradation of its most vulnerable people. It's a bracing reminder that a mentality that allows throwaway people also allows a throwaway earth."—Bill McKibben, author of *Eaarth: Making a Life on a Tough New Planet*

Shadow Frost Coco Ma 2019-10-01 In the kingdom of Axaria, a darkness rises. Some call it a monster, laying waste to the villagers and their

homes. Some say it is an invulnerable demon summoned from the deepest abysses of the Immortal Realm. Many soldiers from the royal guard are sent out to hunt it down. Not one has ever returned. When Asterin Faelenhart, Princess of Axaria and heir to the throne, discovers that she may hold the key to defeating the mysterious demon terrorizing her kingdom, she vows not to rest until the beast is slain. With the help of her friends and the powers she wields—though has yet to fully understand—Asterin sets out to complete a single task. The task that countless trained soldiers have failed. To kill it. But as they hunt for the demon, they unearth a plot to assassinate the princess herself instead. Asterin and her companions begin to wonder how much of their lives have been lies, especially when they realize that the center of the web of deceit might very well be themselves. With no one else to turn to, they are forced to decide just how much they are willing to sacrifice to protect the only world they

The Ill-Made Mute Cecilia Dart-Thornton
2015-08-25 In a dark and perilous realm, a nameless outcast seeks a voice, a past, and a future: "A dazzling debut" (Jennifer Roberson). In all of Erith, there is perhaps no one as wretched as the nameless mute foundling confined to the lowest depths of Isse Tower. Abused by many and despised by all, the pathetic creature lives without memories in the shadows. The amnesiac longs to escape—to

roam the wild landscape in search of a past, a name, a destiny—but dangers surround the tower. Only flying ships and majestic winged horses carrying important visitors can reach the castle safely, landing high above the ground on its battlements. The local servants whisper about malevolent creatures that roam the forests and bear no love for humankind. Escape seems impossible in this treacherous world of wights and monsters. Praised as Australia’s J. R. R. Tolkien, Cecilia Dart-Thornton has set a towering new standard for fantasy fiction, earning the respect and acclaim of readers, reviewers, and some of the world’s most renowned fantasists. With roots firmly embedded in the ancient folklore of the British Isles, *The Ill-Made Mute*—the opening volume of Dart-Thornton’s magnificent *Bitterbynde Trilogy*—introduces fantasy lovers to an unforgettable character whose remarkable adventures rival the epic trials of the Bagginses and the tales of *The Silmarillion*.

Legacy of Luna Julia Hill 2010-11-16 On December 18, 1999, Julia Butterfly Hill's feet touched the ground for the first time in over two years, as she descended from "Luna," a thousand-year-old redwood in Humboldt County, California. Hill had climbed 180 feet up into the tree high on a mountain on December 10, 1997, for what she thought would be a two- to three-week-long "tree-sit." The action was intended to stop Pacific Lumber, a division of the Maxxam Corporation, from the environmentally destructive process of clear-cutting the ancient redwood and the trees around it. The area immediately next to Luna had already been stripped and, because, as many believed,

nothing was left to hold the soil to the mountain, a huge part of the hill had slid into the town of Stafford, wiping out many homes. Over the course of what turned into an historic civil action, Hill endured El Nino storms, helicopter harassment, a ten-day siege by company security guards, and the tremendous sorrow brought about by an old-growth forest's destruction. This story--written while she lived on a tiny platform eighteen stories off the ground--is one that only she can tell. Twenty-five-year-old Julia Butterfly Hill never planned to become what some have called her--the Rosa Parks of the environmental movement. She never expected to be honored as one of Good Housekeeping's "Most Admired Women of 1998" and George magazine's "20 Most Interesting Women in Politics," to be featured in People magazine's "25 Most Intriguing People of the Year" issue, or to receive hundreds of letters weekly from young people around the world. Indeed, when she first climbed into Luna, she had no way of knowing

the harrowing weather conditions and the attacks on her and her cause. She had no idea of the loneliness she would face or that her feet wouldn't touch ground for more than two years. She couldn't predict the pain of being an eyewitness to the attempted destruction of one of the last ancient redwood forests in the world, nor could she anticipate the immeasurable strength she would gain or the life lessons she would learn from Luna. Although her brave vigil and indomitable spirit have made her a heroine in the eyes of many, Julia's story is a simple, heartening tale of love, conviction, and the profound courage she has summoned to fight for our earth's legacy.

The Art of Contemplation Mary Angelon Young
2021-04-01 This book was written during the global pandemic of 2020, when the gravity of our situation called us, as individuals, to sanity and inner strength. "Sheltering in place," or "in confinement" as some prefer, we entered into a fierce and strange new world. If we had not

actively developed our contemplative side before this, the insistent, benevolent voice of that inner world, so famously avoided in today's society, now sounded a clarion call. The Art of Contemplation is intended to inspire your own reflections, as I explore the timeless treasure house of contemplation, the reasons we actually need it, and how to work with the blocks that most of us encounter on the way. For contemplation is a journey within, with no beginning and no end, taken from anywhere and everywhere that we find ourselves in life. For the theists among us, our contemplations will organically lead to prayer, just as bud goes to flower and flower goes to seed, which drops to the ground to begin another round of creation. For the nontheists, the inner state of contemplative prayer might be called inner stillness, meditation on truth, or the practice of pure awareness—or even "inner yoga," as yoga is anything that links us to the Divine. It does not matter what we call it. What does matter is that

we, as human beings, evolve in a mutual love affair with the Universe from which we are created. What matters is praise. There is a time to beg for grace to intervene in the sufferings we endure as human beings. As we contemplate our own awareness within the mystery of life, we begin to expand our generosity as vessels of awareness, of awakened consciousness, for our own personal transformation and for the benefit of all beings. Then our inner yoga takes flight. Resting in receptive inner space enables us to rejuvenate and restore, to tap intrinsic healing, intuitive and creative energies, at the level of source water where the river of life flows pristine and we touch the ineffable. The Taoists have a beautiful way of expressing it. Lao Tzu said, "Muddy water, let stand, becomes clear." Clarity is one of the many gifts of contemplation, and as we build a capacity for the inner journey, a sacred world is revealed in the mirror of the soul.

Enhancing Cognitive Fitness in Adults PAULA HARTMAN-STEIN 2011-08-02 Late life is characterized by great diversity in memory and other cognitive functions. Although a substantial proportion of older adults suffer from Alzheimer's disease or another form of dementia, a majority retain a high level of cognitive skills throughout the life span. Identifying factors that sustain and enhance cognitive well-being is a growing area of original and translational research. In 2009, there are as many as 5.2 million Americans living with Alzheimer's disease, and that figure is expected to grow to as many as 16 million by 2050. One in six women and one in 10 men who live to be at least age 55 will develop Alzheimer's disease in their remaining lifetime. Approximately 10 million of the 78 million baby boomers who were alive in 2008 can expect to develop Alzheimer's disease. Seventy percent of people with Alzheimer's disease live at home, cared for by family and friends. In 2008, 9.8 million family

members, friends, and neighbors provided unpaid care for someone with Alzheimer's disease or another form of dementia. The direct costs to Medicare and Medicaid for care of people with Alzheimer's disease amount to more than \$148 billion annually (from Alzheimer's Association, 2008 Alzheimer's Disease Facts and Figures). This book will highlight the research foundations behind brain fitness interventions as well as showcase innovative community-based programs to maintain and promote mental fitness and intervene with adults with cognitive impairment. The emphasis is on illustrating the nuts and bolts of setting up and utilizing cognitive health programs in the community, not just the laboratory.
