Ian Carmichael in 2010 one of the last links was lost with the golden age of British cinema. Carmichael starred alongside Terry-Thomas and Peter Sellers in the Boulting brothers' classic satirical comedies I'm Alright, Jack! Private's Progress and School for Scoundrels. He summed up, on screen and in life, the kind of Englishman who was beginning

to emerge after the war - educated, not necessarily upper class, upwardly mobile and a study in good manners and a sense of fair play - and thus played the straight-man foil to the distracted ravings of his wilder co-stars.

Subsequently, he became Bertie Wooster in a highly successful television series based on P.G. Wodehouse's Jeeves stories. He also made the part of Lord Peter Wimsey his own in another long-running adaptation of Dorothy L. Sayers' famous detective novels, and was still acting on television well into his eighties alongside Susan Hampshire in ITV's drama series *The Royal*. *Indestructible Hulk* Mark Waid 2014 Spinning out of the events of Age of Ultron! unabashedly fun, and at times, skin-searing tour through some of the world's most amazing and outrageous sports. From the physically and mentally taxing sport of chess boxing to the psychological battlefield that is the rock-paper-scissors championship, to the underground world of illegal jart throwing, Rick Reilly subjected himself to both bodily danger and abject humiliation (or, in the case of ferret legging, both) in order to personally find the world's strangest sporting event. Chronicling his adventures as only he can, Rick enters a world of bizarre characters, fierce competition, and exotic locals--with stops in Australia, New Zealand, Finland, Denmark, England, and even a maximum security prison at Angola, Louisiana--and the result is a laugh-out-loud book perfect for any sport's fan. *London Eyes* Gail Cunningham 2007 "London Eyes provides paths through the city, chancing upon those stories that ultimately have the potential to change London, to

[The Numerati](#) Stephen Baker 2009-09-08 Learn how the crisis over digital privacy and manipulation evolved in this

“utterly fascinating” look at the growth of data mining and analysis (Seattle Post-Intelligencer). Award-winning journalist Stephen Baker traces the rise of the “global math elite”: computer scientists who invent ways to not only record our behavior, but also to predict and alter it. Nowadays, we don’t need to be online to create a digital trail; we do it simply by driving through an automated tollbooth or shopping with a credit card. As massive amounts of information are collected, sifted, and analyzed, we all become targets of those who want to influence everything from what we buy to how we vote. Clear and “highly readable,” *The Numerati* is a look at the origins of our present-day world, the possibilities of the future, and those who—whether with good or bad intentions—profile us as workers, consumers, citizens, or potential terrorists (The Wall Street Journal).

Michał Borodo 2020-02-22 This book investigates major linguistic transformations in the translation of children's literature, focusing on the English-language translations of Janusz Korczak, a Polish-Jewish children's writer known for his innovative pedagogical methods as the head of a Warsaw orphanage for Jewish children in pre-war Poland. The author outlines fourteen tendencies in translated children's literature, including mitigation, simplification, stylization, hyperbolization, cultural assimilation and fairytalization, in order to analyse various translations of King Matt the First, Big Business Billy and Kaytek the Wizard. The author then addresses the translators' treatment of racial issues based on the socio-cultural context. The book will be of use to students and researchers in the field of translation studies, and researchers interested in children's literature or Janusz Korczak.

\*\*\*Unmissable, hilarious and kind, this is the first novel from Kathryn Wallace, who blogs as I Know, I Need to Stop Talking\*\*\* "SAM! AVA! Get downstairs, NOW. Have you done your TEETH? HAIR? SHOES? Come on, come on, come on, we're going to be bastarding late again. No, I haven't seen Lego Optimus Prime, and nor do I give a shit about his whereabouts. Sam, will you stop winding your sister up and take this model of the Shard that I painstakingly sat up and created for you last night so that I wouldn't be in trouble with your teacher. I mean, so that you wouldn't be

in trouble with your teacher. No, it doesn't smell of 'dirty wine'. Well, maybe it does a little bit. Look, Sam, I haven't got time to argue. Just hold your nose and get in the car, okay? AVA! TEETH! HAIR! SHOES!" Gemma is only just holding it together - she's a single parent, she's turning 40 and her seven-year-old daughter has drawn a cruelly accurate picture which locates Gemma's boobs somewhere around her knees. So when her new next-door neighbour, Becky, suggests that Gemma should start dating again, it takes a lot of self-control not to laugh in her face. But Becky is very persuasive and before long Gemma finds herself juggling a full-time job, the increasingly insane demands of the school mums' Facebook group and the tricky etiquette of a new dating world. Not only that, but Gemma has to manage her attraction to her daughter's teacher, Tom, who has swapped his life in the City for teaching thirty six to seven year olds spelling, grammar, basic fractions - and why it's

He shows that the realist tradition of the late 50s and early 60s was anything but dreary and depressing, and gave birth to a clutch of films remarkable for their confidence and vitality: *Saturday Night and Sunday Morning*, *A Kind of Loving*, and

Sixties British Cinema revalues key genres of the period - horror, crime and comedy - and takes a fresh look at the 'swinging London' films, finding disturbing undertones that reflect the cultural changes of the decade. Now that our cinematic past is constantly recycled on television, Murphy's informative, engaging and perceptive review of these films and their cultural and industrial context offers an invaluable guide to this neglected era of British cinema.

Smash-Up captures—then transcends—our current polarized moment “An exhilarating ride . . . hilarious . . . a modern and energetic story about a marriage on the skids.”—The New York Times

Ethan has always been one of the good guys, and for years, nobody has appreciated this fact more than his wife, Zo. Until now. Jolted into activism by the 2016 election, Zo’s transformed their home into the headquarters for the local resistance, turning their comfortable decades-long marriage inside-out. Meanwhile, their boisterous daughter, Alex, grows wilder by the day. Ethan’s former business partner needs help saving the media company they’d co-founded. Financial disaster looms. Enter a breezy, blue-haired millennial making her way through the gig economy. Suddenly Ethan faces a choice unlike any he’s ever had to make. Unfolding over five turbulent days in 2018, *The Smash-Up* wrestles shrewdly with some of the biggest questions of our time:

What, exactly, does it mean to be a good guy? What will it take for men to break the “bro code”? How does the world respond when a woman demands more? Can we ever understand another’s experiences... and what are the consequences of failing to try? Moving, funny, and cathartic, this portrait of a marriage—and a nation—under strain is, ultimately, a magic trick of empathy, one that will make you laugh and squirm until its final, breathless pages.
