Social and Interpersonal Dynamics in Pain Tine

Vervoort 2018-07-18 This
groundbreaking analysis moves
our knowledge of pain and its
effects from the biomedical
model to one accounting for its
complex psychosocial
dimensions. Starting with its
facial and physical display,

pain is shown in its manifold social contexts—in the lifespan, in a family unit, expressed by a member of a gender and/or race—and as observed by others. These observations by caregivers and family are shown as vital to the social dynamic of pain—as observers react to sufferers' pain, and as these reactions affect those suffering. The book's findings should enhance practitioners' understanding of pain to develop more effective individualized treatments for clients' pain experience, and inspire researchers as well. Among the topics covered: Why do we care? Evolutionary mechanisms in the social dimension of pain. When, how, and why do we express pain? On the overlap between physical and social pain. Facing others in pain: why context matters. Caregiving impact upon sufferers' cognitive functioning. Targeting individual and interpersonal processes in therapeutic interventions for chronic pain. Social and Interpersonal Dynamics in Pain

will be a valuable resource for clinicians who deal in pain practice and management, as well as for students and researchers interested in the social, interpersonal, and emotional variables that contribute to pain, the processes with which pain is associated, and the psychology of pain in general.

Children's Literature in the Elementary School Charlotte S. Huck 1979

In "Children's Literature in the Elementary School" Charlotte S. Huck

advances the view that exposing children to good quality children's literature is a vital element of successful school reading programs.

Books for children should be 1) works of high literary quality, 2) useful in the curriculum, and 3) appeal to the young reader.

Volumes that address this subject have traditionally been tasked with meeting a wide

variety of objectives in higher education: if adopted by education departments methodological matters are stressed; under the school of library science bibliography is the object; and under the English department textual analysis is emphasized. This text is sufficiently broad as to adapt itself to any one of these approaches, and should serve as a valuable guide for teachers, librarians, and elementary educators in any capacity.

Social Movements Savyasaachi 2017-09-19 This volume attempts to show the emerging contours of 'transformative action' in social movements across South Asia. It argues that these contours have been shaped by contestations over questions of equity, justice and well-being on the one hand, and the nature and scope of new and classical social movements on the other. This is manifest in diverse modes through people's struggles, protest and dissent. The authors examine a variety of themes that have determined

the course of the politics of transformative struggles. They critique neoliberalism, 'primitive' accumulation, money, class inequalities, as well as aspects of capital-labour conflict. They highlight the contributions of movements by women, dalit and marginalized communities; peace movements; and environmental and agrarian struggles. The volume also appraises the role of internet in grassroots mobilizations and that of civil society networks in the making of participatory democracy. It further argues that the predicaments of cultural, ethnic, national, regional, and linguistic identities are not divorced from capital-labour conflicts. The book will serve as essential reading for students and scholars of sociology, social movements, politics, gender and feminist studies, labour studies, and the informed general reader.

Making Deep Games Doris C. Rusch 2017-01-12 Like movies, television, and other preceding forms of media, video games are undergoing a dynamic shift in its content and perception. While the medium can still be considered in its infancy, the mark of true artistry and conceptual depth is detectable in the evolving styles, various genres and game themes. Doris C. Rusch's, Making Deep Games, combines this insight

along with the discussion of the expressive nature of games, various case studies, and hands-on design exercises. This book offers a perspective into how to make games that tackle the whole bandwidth of the human experience; games that teach us something about ourselves, enable thought-provoking, emotionally rich experiences and promote personal and social change. Grounded in cognitive linguistics, game studies and the reflective practice of game design, *Making Deep Games* explores systematic approaches for how to approach complex abstract concepts, inner processes, and emotions through the specific means of the medium. It aims to shed light on how to make the multifaceted aspects of the human condition tangible through gameplay experiences.

Why Did Ancient Civilizations Fail? Scott A J Johnson 2016-09-19 Ideas abound as to why certain complex societies collapsed in the past, including environmental change,

subsistence failure, fluctuating social structure and lack of adaptability. *Why Did Ancient Civilizations Fail?* evaluates the current theories in this important topic and discusses why they offer only partial explanations of the failure of past civilizations. This engaging book offers a new theory of collapse, that of social hubris. Through an examination of Mesopotamian, Egyptian, Roman, Maya, Inca, and Aztec societies, Johnson persuasively argues that hubris blinded many ancient peoples to evidence that would have allowed them to adapt, and he further considers how this has implications for contemporary societies. Comprehensive and well-written, this volume serves as an ideal text for undergraduate courses on ancient complex societies, as well as appealing to the scholar interested in societal collapse.

2023-02-22 A young woman in 1884 doesn't have many options ... But Susannah did not expect to be tutoring an alien snail child while aboard a ship sailing in space ... Who will get the real education? Orphaned and penniless in Hong Kong in 1884 — what's a young gentlewoman to do? Impulsive, adventurous, and self-confident, Susannah accepts an offer to become the governess to a young foreigner on a ship. She does not expect the ship to be in space, or the foreign child to be an alien who looks like a giant snail. Nevertheless, she throws herself into the job of bringing Victorian decorum to the natives. But when she is accused of spying and put on trial in an alien court, Susannah has to challenge the law of the aliens to save herself — and her young and slimy student.

between the legacies of colonialism and the movement for fundamental change. The content addresses both experts and ordinary citizens alike, with a view to advancing discourse on where we are right now, and how we move on from here to achieve meaningful transformation. As scholars and public representatives with a deep understanding of the social, economic and political dynamics of modern history of South Africa, the contributors offer their unique perspectives and reflections on history, politics, economics, culture, education, ethics and the arts, as well as the links that bind these aspects into an ecology of ideas and attitudes.

in the pursuit of short-term profits. Creating a stable balance between financial returns and public benefits will allow social entrepreneurs to team up with impact investors that share their vision of a double bottom line. Brakman Reiser and Dean show how novel legal technologies can allow social enterprises to access capital markets, including unconventional sources such as crowdfunding. With its straightforward insights into complex areas of the law, the book shows how a social mission can even be shielded from the turbulence of an acquisition or bankruptcy. It also shows why, as the metrics available to measure the impact of social missions on individuals and communities become more sophisticated, such legal innovations will continue to become more robust. By providing a comprehensive survey of the U.S. laws and a bold vision for how legal institutions across the globe could be reformed, this book offers new insights and approaches to help social

enterprises raise the capital they need to flourish. It offers a rich guide for students, entrepreneurs, investors, and practitioners.

Creative Uses of Children's Literature Mary Ann Paulin 1982 A grim prognosis, brain cancer, leaves the speaker in Kirkpatrick's *Odessa* fighting for her life. The tumor presses against her amygdalae, the "emotional core of the self," and central to the process of memory. In poems endowed with this emotional charge but void of sentimentality, Kirkpatrick sets out to recreate what was lost by fashioning a dreamlike reality. *Odessa*, "roof of the underworld," a refuge at once real and imagined, resembles simultaneously the Midwestern prairie and a mythical god-inhabited city. In image-packed lines bearing shades of Classical heroism, Kirkpatrick delivers a personal narrative of stunning dimension.
