**Sun Dog** Deborah Kerbel 2018-05-25 Juno and her boy live in a red house at the top of the world. One day Juno will be big and strong enough to help pull a sled across the tundra, but for now she is just a small puppy with a big-dog heart. Small puppies have to go to bed when their boys do, but Juno can't sleep with the midnight sun shining out across the town. She slips outside to play. Returning to see a hungry polar bear sniffing around the open door, Juno has no time to be afraid. It's time to summon the big dog inside her and save her beloved boy. With Deborah Kerbel's warm, expressive text, *Sun Dog* is a love letter to life in the Arctic Circle from the perspective of a sled dog pup. Suzanne Del Rizzo's dimensional art in polymer clay and acrylic wash offers both an intimate romp with a young puppy and a sweeping celebration of the vast and beautiful tundra.

**Sun Dogs** Robert Olen Butler 1982 Wilson Hand, haunted by memories of his ex-wife's suicide and his captivity with the Viet Cong, leaves his urban industrial investigation business to become a troubleshooter for an Alaskan oil company

*The Sun-Dog Trail* Jack London 2013-03-01 We had struck this deserted cabin after a hard day on trail. The dogs had been fed, the supper dishes washed, the beds made, and we were now enjoying that most delicious hour that comes each day, and but once each day, on the Alaskan trail, the hour when nothing intervenes between the tired body and bed save the smoking of the evening pipe. Some former denizen of the cabin had decorated its walls with illustrations torn from magazines and newspapers, and it was these illustrations that had held Sitka Charley's attention from the moment of our arrival two hours before. He had studied them intently, ranging from one to another and back again, and I could see that there was uncertainty in his mind, and bewilderment.

**Snow Dog, Go Dog** Deborah Heiligman 2013 Snow doesn't stop the Golden Retriever, Tinka. She runs and plays and sleds with her boy. But when her friend Millie the beagle shows up, off races Tinka. And she gets lost--till her boy finally rescues her. A companion to *Fun Dog*, *Sun Dog* and *Cool Dog*, *School Dog*.

her sister. But Sonja would rather eat cake than meditate. Her driving instructor won't let her change gear. And her sister won't return her calls. *Dear Prudence* Prudence Bruns 2015-06-26 Lines from John Lennon's ballad, "Dear Prudence," are easily recognizable by anyone who enjoys the Beatles' music. But who was Prudence? **Simply Seagrove** Robert O. Reynolds 2018-06-20 *Simply Seagrove* tells the story of one family's discovery of a very special beach community and how Seagrove Beach became their second home. This informative but fun volume explores every facet of the Seagrove experience, reviewing the background of the area, the history that made it what it is today, and the things that make it unique. From the ancient ancestors, to the people who developed the community, to the generations of attractions, to the hurricanes, to the amazing natural environment, *Simply Seagrove* explores the people and events that have shaped Seagrove Beach. Robert O. Reynolds tells you how Seagrove got its name and how the area was developed starting in the 1920s, and later in the 1950s. He describes the many bodies of water that help make the area such a fun place to visit, from the Gulf to Choctawhatchee Bay, the coastal dune lakes to the bayous. Reynolds and his family and friends did lots of exploring over the years, and he takes you everywhere from navigating small canals in a Boston Whaler, to digging up Native American pottery in the dunes, to photographing a comet from the bluff. From the plants and animals like Spanish moss and Portuguese Men Of War, to the squeaking sand, to the origin of phrases like "Redneck Riviera," to filming a movie at Eden Gardens, he covers it all.

*Sun Dog Days* Slim Randles 2007-03 I feel this will be Randles' signature work. That is very, very good indeed.--Max Evans, author of *Madam Millie* (UNM Press) and *The Rounders*

*Sinking the Rising Sun* Jonathan Winters, William E. Davis Awarded the Navy Cross, Lieutenant William Davis, III, of the United States Naval Reserve was cited for "extraordinary heroism" while serving as pilot of a carrier based fighter aircraft on 25 October 1944. "Flying through intense anti-aircraft fire," the citation read, "he made an aggressive attack on a Japanese carrier, first strafing and then delivering a well placed bomb from low altitude. After this attack the carrier was left burning and subsequently sank." The burning carrier was the *Zuikaku*, the last Japanese carrier afloat that had taken part in the Pearl Harbor attack. In this gripping memoir, Davis gives us a fighter pilot's view of World War II. Recreating the life-and-death drama of dog fighting and dive bombing over the Pacific, Davis recounts how his squadron shot down 155 enemy planes while losing only 2 of their own in aerial combat. No torpedo bomber or dive bomber they escorted was ever downed by an enemy aircraft. His is a story of "courage and skill . . . in keeping with the highest traditions of the United States Naval service," as his citation noted. It is also a rare true-life account of what such heroics feel like behind a cockpit, in the face of a deadly enemy.

**As Birds Bring Forth the Sun and Other Stories** Alistair MacLeod

2010-12-10 The superbly crafted stories collected in Alistair MacLeod's *As Birds Bring Forth the Sun and Other Stories* depict men and women acting out their "own peculiar mortality" against the haunting landscape of Cape Breton Island. In a voice at once elegiac and life-affirming, MacLeod describes a vital present inhabited by the unquiet spirits of a Highland past, invoking memory and myth to celebrate the continuity of the generations even in the midst of unremitting change. His second collection, *As Birds Bring Forth the Sun and Other Stories* confirms MacLeod's international reputation as a storyteller of rare talent and inspiration.

**Underwater Dogs** Seth Casteel 2012-10-23 The exuberant, exhilarating photographs of dogs underwater that have become a sensation From the water's surface, it's a simple exercise: a dog's leap, a splash, and then a wet head surfacing with a ball, triumphant. But beneath the water is a chaotic ballet of bared teeth and bubbles, paddling paws, fur and ears billowing in the currents. From leaping Lab to diving Dachshund, the water is where a dog's distinct personality shines through; some lounge in the current, paddling slowly, but others arch their bodies to cut through the water with the focus and determination of a shark. In more than eighty portraits, award-winning pet photographer and animal rights activist Seth Casteel captures new sides of our old friends with vibrant underwater photography that makes it impossible to look away. Each image bubbles with exuberance and life, a striking reminder that even in the most loveable and domesticated dog, there are more primal forces at work. In *Underwater Dogs*, Seth Casteel gives playful and energetic testament to the rough-and-tumble joy that our dogs bring into our lives.

**My Beautiful Birds** Suzanne Del Rizzo 2017-03-01 Behind Sami, the Syrian skyline is full of smoke. The boy follows his family and all his neighbours in a long line, as they trudge through the sands and hills to escape the bombs that have destroyed their homes. But all Sami can think of is his pet pigeons - will they escape too? When they reach a refugee camp and are safe at last, everyone settles into the tent city. But though the children start to play and go to school again, Sami can't join in. When he is given paper and paint, all he can do is smear his painting with black. He can't forget his birds and what his family has left behind. One day a canary, a dove, and a rose finch fly into the camp. They flutter around Sami and settle on his outstretched arms. For Sami it is one step in a long healing process at last. A gentle yet moving story of refugees of the Syrian civil war, *My Beautiful Birds* illuminates the ongoing crisis as it affects its children. It shows the reality of the refugee camps, where people attempt to pick up their lives and carry on. And it reveals the hope of generations of people as they struggle to redefine home.

**Where They Wait** Scott Carson 2021-10-26 "Where They Wait is so readable, you'll be a couple of hundred pages in before you realize you're terrified...and then you can't put it down. Mesmerizing." —Stephen King "Tense and twisty." —Charlaine Harris, #1 New York Times bestselling author of *The Southern Vampire Mysteries* "A taut, creepy techno-chiller that will leave you hearing ghosts." —Paul Tremblay, author of *A Head Full of Ghosts* and *Survivor Song* A new supernatural novel about a sinister mindfulness app with fatal consequences from the New York Times bestselling author of *The Chill*. Recently laid-off from his newspaper and desperate for work, war correspondent Nick Bishop takes a humbling job: writing a profile of a new mindfulness app called Clarity. It's easy money, and a chance to return to his hometown for the first time in years. The app itself seems like a retread of old ideas—relaxing white noise and guided meditations. But then there are the "Sleep Songs." A woman's hauntingly beautiful voice sings a ballad that is anything but soothing—it's disturbing, and more of a warning than a relaxation—but it works. Deep, refreshing sleep follows. So do the nightmares. Vivid and chilling, they feature a dead woman who calls Nick by name and whispers guidance—or are they threats? And her voice follows him long after the song is done. As the effects of the nightmares begin to permeate his waking life, Nick makes a terrifying discovery: no one involved with Clarity has any interest in his article. Their interest is in him.

**Win Me Something** Kyle Lucia Wu 2021-11-02 A Washington Post,

LitHub, *The Millions*, and *Books Are Magic* Most Anticipated Book of 2021 and a Good Housekeeping, Shondaland, and Alma Best Book of Fall A perceptive and powerful debut of identity and belonging—of a young woman determined to be seen. Willa Chen has never quite fit in. Growing up as a biracial Chinese American girl in New Jersey, Willa felt both hypervisible and unseen, too Asian to fit in at her mostly white school, and too white to speak to the few Asian kids around. After her parents' early divorce, they both remarried and started new families, and Willa grew up feeling outside of their new lives, too. For years, Willa does her best to stifle her feelings of loneliness, drifting through high school and then college as she tries to quiet the unease inside her. But when she begins working for the Adriens—a wealthy white family in Tribeca—as a nanny for their daughter, Bijou, Willa is confronted with all of the things she never had. As she draws closer to the family and eventually moves in with them, Willa finds herself questioning who she is, and revisiting a childhood where she never felt fully at home. Self-examining and fraught with the emotions of a family who fails and loves in equal measure, *Win Me Something* is a nuanced coming-of-age debut about the irreparable fissures between people, and a young woman who asks what it really means to belong, and how she might begin to define her own life.

**Sundog** Jim Harrison 2016-05-03 A "feisty, passionate novel" (Newsday) from a writer whose "storytelling instincts are nearly flawless" (The New York Times). The New York Times–bestselling author of thirty-nine books of fiction, non-fiction, and poetry including *Legends of the Fall*, *Dalva*, and *Returning to Earth*, Jim Harrison was one of our most beloved and acclaimed writers, adored by both readers and critics. *Sundog* is a powerful novel about the life and loves of a foreman named Robert Corvus Strang, who worked on giant dam projects around the world until he was crippled in a fall down a three-hundred-foot dam. Now as he tries to regain use of his legs, he has a chance to reassess his life, and a blasé journalist who has heard of Strang's reputation in the field arrives to draw him out about his various incarnations. Strang, who has the violently heightened sensibilities of a man who has gone to the limits and back, recounts his monumental life moving from Michigan to Africa and the Amazon, including his several marriages and children, and dozens of lovers. *Sundog* is a story as true and gripping as real life, and ultimately as victorious.

**Fun Dog, Sun Dog** Deborah Heiligman 2005 Although Tinka the dog can be described in many ways, she is always the right kind of canine for her owner.

**Warlock** Jim Harrison 2019-03-19 This "sort of detective story" by the New York Times bestselling novelist offers "farcical, reflective, luscious, gritty [and] stylish entertainment" (The New York Times). As a Boy Scout, Johnny Lundgren was given the nickname Warlock. Now, at forty-two years of age, Johnny has decided to take up that moniker again. It might be an odd name for an unemployed business executive living in Traverse City, Michigan. But perhaps it fits his new job working for an eccentric doctor as a personal trouble-shooter and private investigator. Warlock suddenly finds himself on a range of bizarre assignments—everything from battling poachers in the haunted wilderness of northern Michigan to investigating his employer's wife and son in the seamy underside of Key West. A comedy with one foot in the abyss, Warlock is "a rich and sparkling novel" by one of America's most critically acclaimed authors. "Contemporary macho in a funhouse mirror . . . a hybrid born out of Faulkner's dark hero of Satoris and all the Buster Keaton comedy that we love."—Los Angeles Herald Examiner

The Sun Dog Trail Jack London 2014-08-22 Sitka Charley smoked his pipe and gazed thoughtfully at the Police Gazette illustration on the wall. For half an hour he had been steadily regarding it, and for half an hour I had been slyly watching him. Something was going on in that mind of his, and, whatever it was, I knew it was well worth knowing. He had lived life, and seen things, and performed that prodigy of prodigies, namely, the turning of his back upon his own people, and, in so far as it was possible for an Indian, becoming a white man even in his mental processes. As he phrased it himself, he had come into the warm, sat among us, by our fires, and become one of us. He had never learned to read nor write, but his vocabulary was remarkable, and more remarkable still was the completeness with which he had assumed the white man's point of view, the white man's attitude toward things.

*MANNER OF THE SUNDG* Ted Cabana 2013-11-06 Nearing the end of the 21st century, the world has been devastated by catastrophic climate change, war, disease and overpopulation. Now the most sought after of all continents to live, Antarctica, has developed into a vastly inhabited and civilized oasis with its own cities, communities, cultures and native population known as the Annortics. Still under the control of the United Nations Consultative Parties, this utopian society established in the exclusive city of Ellsworth is governed by an international coalition of scientists known as ICS, more simply referred to as ICE. The governing laws have been set in accordance with the Antarctic treaty, which has continued to ban any exploitation of its prized resources for over a century. But the tyrannical global corporation known as GRANT, has begun to manipulate, extort and even assassinate key party members in order to take control of the most magnificent frontier on the planet for their own self-indulgence. With the recent discovery of an ancient and highly elusive Nazi military installment, members of GRANT's abducted science team have learned to develop and exceed the technology that would have allowed the Third Reich to conquer the world during WWII. Together with their covert elite force known as the Lynx, they will use this technology of an unknown origin to once again continue the pursuit of absolute power. In its capital city of Ellsworth, young physics prodigy Bane Elrick is drawn into conflict between Antarctica's own governing body, the International Coalition of Science and GRANT, a powerful global organization that has seized control of the world's economy, and now desires to take control of the planet's last frontier...Antarctica. After inadvertently learning of its profound history and dark secrets, Bane is forced to make decisions that will impact his future, while struggling to save his loved ones from losing the only home they have ever known to GRANT. Bane is guided by his mentor, Dr. Pierce Gödel, president of the Coalition and a renowned geneticist who lives confined to his self-made endodermic suit, which allows his paralyzed body to continue functioning as normal while preparing his revenge on GRANT for their failed assassination attempt which claimed the lives of his beloved wife and daughters. Under his preceptor, world renowned physicist, Professor Sergei Isen, Bane learns of an intangible and extremely valuable isotope that can be used dynamically for inter-stellar travel, anti-gravity propulsion, or as a powerful weapon against all civilization. Throughout his adventure, Bane learns the uglier side of politics, science and life from his friends, mentors and his father, Marlin Elrick, an architectural engineer who tries to guide him toward a more prosperous future. The ghostly memoirs of his deceased mother, a paleo-geologist, lead him as he recalls her cryptic cyphers from his childhood to unravel the secrets of Antarctica's history, and his own destiny. Markus Blackmore, a former UN Special Forces agent and commander of the Antarctic Regional Guard, shows Bane the darker side of humanity and how to fight for what

he believes in. His nomadic neighbor, Donnar McKinley, a wise but eccentric old man, advises him through troubled times with what at first seems to be equivocal nonsense. All the while being driven by his passion for science, his native land and his love for an esteemed politician's daughter. Bane relates his tale to a new denizen of Ellsworth, sharing his accounts of early life and adventures as a scientist, where he was born and raised and his rise to leadership of the world's most intriguing continent, and sovereign nation of its own...Antarctica.

When Katy's mother dies, she is left reeling. Carol wasn't just Katy's mom, but her best friend and first phone call. She had all the answers and now, when Katy needs her the most, she is gone. To make matters worse, their planned mother-daughter trip of a lifetime looms: to Positano, the magical town where Carol spent the summer right before she met Katy's father. Katy has been waiting years for Carol to take her, and now she is faced with embarking on the adventure alone. But as soon as she steps foot on the Amalfi Coast, Katy begins to feel her mother's spirit. Buoyed by the stunning waters, beautiful cliffside, delightful residents, and, of course, delectable food, Katy feels herself coming back to life. And then Carol appears—in the flesh, healthy, sun-tanned, and thirty years old. Katy doesn't understand what is happening, or how—all she can focus on is that she has somehow, impossibly, gotten her mother back. Over the course of one Italian summer, Katy gets to know Carol, not as her mother, but as the young woman before her. She is not exactly who Katy imagined she might be, however, and soon Katy must reconcile the mother who knew everything with the young woman who does not yet have a clue. "Rebecca Serle is known for her powerful stories that tug at the heartstrings—and her latest is just as unforgettable" (Woman's World) as it effortlessly shows us how to move on after loss, and how the people we love never truly leave us.
