Follow the Rabbit-Proof Fence Doris Pilkington 2013-05-01 This extraordinary story of courage and faith is based on the actual experiences of three girls who fled from the repressive life of Moore River Native Settlement, following along the rabbit-proof fence back to their homelands. Assimilationist policy dictated that these girls be taken from their kin and their homes in order to be made white. Settlement life was

unbearable with its chains and padlocks, barred windows, hard cold beds, and horrible food. Solitary confinement was doled out as regular punishment. The girls were not even allowed to speak their language. Of all the journeys made since white people set foot on Australian soil, the journey made by these girls born of Aboriginal mothers and white fathers speaks something to everyone.

"Rabbit-Proof Fence" as an example of how Australian Aborigines were treated by the British colonial power Benjamin Roßkopf 2014-10-22 Pre-University Paper from the year 2009 in the subject English - Miscellaneous, grade: 13 Punkte, , language: English, abstract: During the years 1910 and 1970 up to 100,000 Aboriginal children were taken forcibly from their families by police or welfare officers, because of a Federal and State Government edict. The main motive was to 'assimilate' Aboriginal children into European society over one or two generations by denying and destroying their Aboriginality. This issue is also discussed in the novel "Rabbit-Proof Fence" by Doris Pilkington, which tells a story about three girls who were also uprooted from their community and taken to a state settlement about 1,500 miles away from their home. In this reality-based story the girls escaped from their internment camp and tried to run back home by following the rabbit-proof fence. My term paper is divided into four chapters. In the first one a short outline of British colonisation in Australia and its impacts on the Aborigines will be given. The second chapter is about the mentioned book and its author and the third part of this term paper analyses some extracts from Doris Pilkington's novel and proves their verity with historical documents until it finally comes to its conclusion in the last chapter which tells us something about the current situation of the Aborigines and the reactions of the Australian government.

The Language of Emotions Maia Ponsonnet 2014-12-15 The Language of Emotions: The case of Dalabon (Australia) is the first extensive study of the linguistic encoding of emotions in an Australian language, and further, in an endangered, non-European language. Based on first-hand data collected using innovative methods, the monograph describes and analyzes how Dalabon speakers express emotions (using interjections, prosody, evaluative morphology) and the words they use to describe and discuss emotions. Like many languages, Dalabon makes broad use of body-part words in descriptions of emotions. The volume analyzes the figurative functions of these body-part words, as well as their non-figurative functions. Correlations between linguistic features and cultural patterns are systematically questioned. Beyond Australianists and linguists working on emotions, the book will be of interest to anthropological linguists, cognitive linguists, or linguists working on discourse and communication for instance. It is accessible also to non-linguists with an interest in language, in particular anthropologists and psychologists.
