**Utopia and Terror in Contemporary American Fiction** Judie Newman 2014-07-17 This book examines the quest for/failure of Utopia across a range of contemporary American/transnational fictions in relation to terror and globalization through authors such as Susan Choi, André Dubus, Dalia Sofer, and John Updike. While recent critical thinkers have reengaged with Utopia, the possibility of terror — whether state or non-state, external or homegrown — shadows Utopian imaginings. Terror and Utopia are linked in fiction through the exploration of the commodification of affect, a phenomenon of a globalized world in which feelings are managed, homogenized across cultures, exaggerated, or expunged according to a dominant model. Narrative approaches to the terrorist offer a means to investigate the ways in which fiction can resist commodification of affect, and maintain a reasoned but imaginative vision of possibilities for human community. Newman explores topics such as the first American bestseller with a Muslim protagonist, the links between writer and terrorist, the work of Iranian-Jewish Americans, and the relation of race and religion to Utopian thought.

**Hearts that Burn** Susan Liberty 2022-08-01 James Raintree Hunter, aka Flame, and Corinne Genevieve Michaels, aka Princess, grew up in Sinners Motorcycle Club. Best friends at two, boyfriend/girlfriend at thirteen, lovers at fourteen, and engaged at eighteen-together forever. It was their destiny until mainstream norms infiltrated their lives. Flame: It isn't a revelation the Afghanistan War screwed with my mind. Joey's and my father's death sent me over the edge. It's no excuse for what I had done to the woman I love. Sinners love and protect our females. I broke the bikers' golden rule, so it's no wonder my dreams have been haunted by Corrie. I made it my mission to make her life a living, breathing hell. She left me. Two-and-a-half years ago, I got my shot at redemption. I made love to Corrie. What I said and did after will be a permanent black mark on my soul. Today I saw Corrie for the first time in two-and-a-half years. The circumstances for our reunion weren't ideal. What I learned shook me to my core. The brotherhood betrayed me. Corrie has secrets that the Sinners are keeping from me. Will Flame uncover Corrie's secrets? A second chance at love? Princess: There wasn't any notice? No time for me to prepare for the crushing blow Jamie landed on me six-and-a-half years ago. Two weeks before our wedding, he threw down a ridiculous ultimatum. I responded as any self-respecting woman would: I ended us. Then I did what I always had done when Jamie was in Afghanistan. I devoted myself to my career. I became the most sought-after attorney in Helena, Montana. I set my sites on Landen Logging Company. I was determined to make Leon Landen pay for the deaths of my people—the Native Americans. Landen Logging Company had its own ugly secrets. I uncovered every single one. It quickly became a deadly game of cat and mouse. A one-night stand with Jamie changed my life forever. Game over—Leon Landen won. I need to protect the people I love to my own detriment. Will Corrie tell her secrets to Flame? Will she give Flame a second chance?

*Caste* Isabel Wilkerson 2020-08-04 #1 NEW YORK TIMES BESTSELLER • OPRAH'S BOOK CLUB PICK • "An instant American classic and almost certainly the keynote nonfiction book of the American century thus far."—Dwight Garner, *The New York Times* The Pulitzer Prize-winning,

bestselling author of *The Warmth of Other Suns* examines the unspoken caste system that has shaped America and shows how our lives today are still defined by a hierarchy of human divisions. #1 NONFICTION BOOK OF THE YEAR: Time ONE OF THE BEST BOOKS OF THE YEAR: The Washington Post, The New York Times, Los Angeles Times, The Boston Globe, O: The Oprah Magazine, NPR, Bloomberg, The Christian Science Monitor, New York Post, The New York Public Library, Fortune, Smithsonian Magazine, Marie Claire, Slate, Library Journal, Kirkus Reviews Winner of the Carl Sandberg Literary Award • Winner of the Los Angeles Times Book Prize • National Book Award Longlist • National Book Critics Circle Award Finalist • Dayton Literary Peace Prize Finalist • PEN/John Kenneth Galbraith Award for Nonfiction Finalist • PEN/Jean Stein Book Award Longlist • Kirkus Prize Finalist “As we go about our daily lives, caste is the wordless usher in a darkened theater, flashlight cast down in the aisles, guiding us to our assigned seats for a performance. The hierarchy of caste is not about feelings or morality. It is about power—which groups have it and which do not.” In this brilliant book, Isabel Wilkerson gives us a masterful portrait of an unseen phenomenon in America as she explores, through an immersive, deeply researched, and beautifully written narrative and stories about real people, how America today and throughout its history has been shaped by a hidden caste system, a rigid hierarchy of human rankings. Beyond race, class, or other factors, there is a powerful caste system that influences people’s lives and behavior and the nation’s fate. Linking the caste systems of America, India, and Nazi Germany, Wilkerson explores eight pillars that underlie caste systems across civilizations, including divine will, bloodlines, stigma, and more. Using riveting stories about people—including Martin Luther King, Jr., baseball’s Satchel Paige, a single father and his toddler son, Wilkerson herself, and many others—she shows the ways that the insidious undertow of caste is experienced every day. She documents how the Nazis studied the racial systems in America to plan their outcasting of the Jews; she discusses why the cruel logic of caste requires that there be a bottom rung for those in the middle to measure themselves against; she writes about the surprising health costs of caste, in depression and life expectancy, and the effects of this hierarchy on our culture and politics. Finally, she points forward to ways America can move beyond the artificial and destructive separations of human divisions, toward hope in our common humanity. Original and revealing, *Caste: The Origins of Our Discontents* is an eye-opening story of people and history, and a reexamination of what lies under the surface of ordinary lives and of American life today.

**A Smile as Big as the Moon** Mike Kersjes 2007-04-01 Besides being a football coach at his Michigan High School, Mike Kersjes taught special education classes, dealing with children whose disabilities included Tourette syndrome, Downs Syndrome, dyslexia, eating disorders and a variety of emotional problems. One autumn Kersjes got the outlandish idea that his students would benefit from going to Space Camp, where, in conjunction with NASA, high school students compete in a variety of activities similar to those experienced by astronauts in training for space shuttle missions. There was only one problem: this program had been specifically designed for gifted and talented students, the best and the brightest from America's most privileged high schools. Kersjes believed that, given a chance, his kids could do as well as anybody, and with remarkable persistence broke down one barrier after another, from his own principal's office to the inner sanctum of NASA, until Space Camp opened its doors, on an experimental basis, to special ed students. After nine months of rigorous preparation, during which the class molded itself into a working team, they arrived at Space Camp, where they turned in a performance so startling, so surprising, that it will leave the reader breathless. A truly triumphant story of the power of the human spirit. *That St. Louis Thing, Vol. 2: An American Story of Roots, Rhythm and Race* Bruce R. Olson 2016-09-23 That St. Louis Thing is an American story of music, race relations and baseball. Here is over 100 years of the city’s famed musical development -- blues, jazz and rock -- placed in the context of its civil rights movement and its political and economic power. Here, too, are the city’s people brought alive from its foundation to the racial conflicts in Ferguson in 2014. The panorama of the city presents an often overlooked gem, music that goes far beyond famed artists such as Scott Joplin, Miles Davis and Tina Turner. The city is also the scene of a historic civil rights movement that remained important from its early beginnings into the twenty-first century. And here, too, are the sounds of the crack of the bat during a century-long love affair with baseball.

*The Particular Charm of Miss Jane Austen* Ada Bright 2019-09-12 When a time traveling Jane Austen gets stuck in modern-day England, it’s up to an avid fan to save her in this charmingly funny fantasy novel. As a Jane Austen superfan, Rose Wallace can’t wait for Bath’s annual Austen festival, especially when this year’s VIP is the dishy archaeologist Dr. Aiden Trevelyan! But could there be another VIP in town already? When Rose first sees her building’s newest resident, she can’t deny the mysterious woman’s striking resemblance to her favorite author. And when she realizes that her neighbor is indeed the Jane Austen, Rose’s wildest dreams come true—and her world turns upside down. Jane’s time traveling adventure has been sabotaged by a mischievous dog, trapping her in the twenty-first century. And only Rose seems to have noticed. Now she will have to do whatever it takes to help Jane get back home—or else her favorite novels will never be written!

*A Muslim in Victorian America* Umar F. Abd-Allah 2006-09-21 Conflicts and controversies at home and abroad have led Americans to focus on Islam more than ever before. In addition, more and more of their neighbors, colleagues, and friends are Muslims. While much has been written about contemporary American Islam and pioneering studies have appeared on Muslim slaves in the antebellum period, comparatively little is known about Islam in Victorian America. This biography of Alexander Russell Webb, one of the earliest American Muslims to achieve public renown, seeks to fill this gap. Webb was a central figure of American Islam during the late nineteenth and early twentieth centuries. A native of the Hudson Valley, he was a journalist, editor, and civil servant. Raised a Presbyterian, Webb early on began to cultivate an interest in other religions and became particularly fascinated by Islam. While serving as U.S. consul to the Philippines in 1887, he took a greater interest in the faith and embraced it in 1888, one of the first Americans known to have done so. Within a few years, he began corresponding with important Muslims in India. Webb became an enthusiastic propagator of the faith, founding the first Islamic institution in the United States: the American Mission. He wrote numerous books intended to introduce Islam to Americans, started the first Islamic press in the United States, published a journal entitled *The Moslem World*, and served as the representative of Islam at the 1893 World's Parliament of Religions in Chicago. In 1901, he was appointed Honorary Turkish Consul General in New York and was invited to Turkey, where he received two Ottoman medals of merits. In this first-ever biography of Webb, Umar F. Abd-Allah examines Webb's life and uses it as a window through which to explore the early history of Islam in America. Except for his adopted faith, every aspect of Webb's life was, as Abd-Allah shows, quintessentially characteristic of his place and time. It was because he was so typically American that he was able to serve as Islam's ambassador to America (and vice versa). As America's Muslim community grows and becomes more visible, Webb's life and the virtues he championed - pluralism, liberalism, universal humanity, and a sense of civic and political responsibility - exemplify what it means to be an American Muslim.

**The Once and Future Worker** Oren Cass 2018-11-13 “[Cass’s] core principle—a culture of respect for work of all kinds—can help close the gap dividing the two Americas....” - William A. Galston, *The Brookings Institution* The American worker is in crisis. Wages have stagnated for more than a generation. Reliance on welfare programs has surged. Life expectancy is falling as substance abuse and obesity rates climb. These woes are not the inevitable result of irresistible global and technological forces. They are the direct consequence of a decades-long economic consensus that prioritized increasing consumption—regardless of the costs to American workers, their families, and their communities. Donald

Trump's rise to the presidency focused attention on the depth of the nation's challenges, yet while everyone agrees something must change, the Left's insistence on still more government spending and the Right's faith in still more economic growth are recipes for repeating the mistakes of the past. In this groundbreaking re-evaluation of American society, economics, and public policy, Oren Cass challenges our basic assumptions about what prosperity means and where it comes from to reveal how we lost our way. The good news is that we can still turn things around—if the nation's proverbial elites are willing to put the American worker's interests first. Which is more important, pristine air quality, or well-paying jobs that support families? Unfettered access to the cheapest labor in the world, or renewed investment in the employment of Americans? Smoothing the path through college for the best students, or ensuring that every student acquires the skills to succeed in the modern economy? Cutting taxes, expanding the safety net, or adding money to low-wage paychecks? The renewal of work in America demands new answers to these questions. If we reinforce their vital role, workers supporting strong families and communities can provide the foundation for a thriving, self-sufficient society that offers opportunity to all.

*The European Revolutions of 1848 and the Americas* Guy P. C. Thomson 2002 Very little has been written on the impact of the European revolutions of 1848 on the Americas. Nevertheless, their influence, particularly in the case of France, as palpable. The revolutions of 1848 renewed and extended democratic vocabulary and republican symbolism from Canada to Chile. This collection looks at the catalytic effect of Europe's 'springtime of the peoples' in the Americas, prompting the disenfranchised to demand representative institutions and to conceive of themselves as sovereign people, and giving rise to radical and progressive liberal parties - the Free Soil Movement/Free Democrats in the United States, the Reform Liberals in Mexico, the 'progresista' liberal parties in Colombia and Peru, the 'Society of Equality' and the Radical Party in Chile - that challenged the political groupings that had served since Independence.
