Peripheral Visions / Global Sounds José Colmeiro 2017-06-23 Galician audio/visual culture has experienced an unprecedented period of growth following the process of political and cultural devolution in post-Franco Spain. This creative explosion has occurred in a productive dialogue with global currents and with considerable projection beyond the geopolitical boundaries of the nation and the state, but these seismic changes are only beginning to be the subject of attention of cultural and media studies. This book examines contemporary audio/visual production in Galicia as privileged channels through which modern Galician cultural identities have been imagined, constructed and consumed, both at home and abroad. The cultural redefinition of Galicia in the global age is explored through different media texts (popular music, cinema, video) which cross established boundaries and deterritorialise new border zones where tradition and modernity dissolve, generating creative tensions between the urban and the rural, the local and the global, the real and the imagined. The book aims for the deperipheralization and deterritorialization of the Galician cultural map by overcoming long-established hegemonic exclusions, whether based on language, discipline, genre, gender, origins, or territorial demarcation, while

aiming to disjoint the center/periphery dichotomy that has relegated Galician culture to the margins. In essence, it is an attempt to resituate Galicia and Galician studies out of the periphery and open them to the world.

The Muslim Brotherhood Barbara Zollner 2009-01-13 The Muslim Brotherhood is one of the most influential Islamist organisations today. Based in Egypt, its network includes branches in many countries of the Near and Middle East. Although the organisation has been linked to political violence in the past, it now proposes a politically moderate ideology. The book provides an in-depth analysis of the Muslim Brotherhood during the years of al-Hudaybi's leadership, and how he sought to steer the organization away from the radical wing, inspired by Sayyid Qutb, into the more moderate Islamist organization it is today. It is his legacy which eventually fostered the development of non-violent political ideas. During the years of persecution, 1954 to 1971, radical and moderate Islamist ideas emerged within the Brotherhood's midst. Inspired by Sayyid Qutb's ideas, a radical wing evolved which subsequently fed into radical Islamist networks as we know them today.

Yet, it was during the same period that al-Hudaybi and his followers proposed a moderate political interpretation, which was adopted by the Brotherhood and which forms its ideological basis today.

Strategy: Key Thinkers Tom Kane 2013-11-15 Over twenty two centuries ago, the Greek general Pyrrhus questioned the real gains of military victory. Today we might reflect on the recent wars in Iraq and Afghanistan in much the same way. War is not only cruel but capricious; its outcomes are often bitter and frustrating, even for the winning side. Strategy: Key Thinkers expertly introduces the ideas of major strategic thinkers whose work explores the complex challenges associated with the use of military force. Early chapters deal with the foundational work of Sun Tzu (Sunzi), Thucydides, Vegetius, Machiavelli and Carl von Clausewitz and their relevance to problems facing Western militaries today. The book then considers broader issues, such as the distinctive importance of air and maritime operations, the difficulty of waging offensive land warfare in the face of modern firepower, the implications of nuclear weapons, and the potential of irregular warfare. It concludes by highlighting key themes which connect - and distinguish - the works under consideration, noting how these similarities and differences can inform the strategic debates of the early twenty-first century.

Rethinking Tradition in Modern Islamic Thought Daniel W. Brown 1999-03-04 Questions about the authenticity and authority of sunna have long been of central importance to the study of Islam, especially to those concerned with Islamic law. In this fascinating study, Daniel Brown traces the emergence of modern debates over sunna, focusing in particular on Egypt and Pakistan where these controversies have raged most fiercely, and assesses the implications of new approaches to the law on contemporary movements of Islamic revival. Using the case of modern Islam as a starting-point, the author considers how adherents of any great tradition deal with change.

Africa's Social and Religious Quest Randee Ijatuyi-Morphé 2014-01-30 This well-crafted book probes the key dimensions of Africa's existential predicament. It constitutes an intellectual response to a gnawing "African situation"—the starting point for grasping Africa's

social and religious quest. Beyond split explanations of external versus internal factors (e.g., colonization/slavery vs. leadership/cultural values), this study accounts more comprehensively for emergent issues shaping this situation. The situation reflects a gamut of problems in traditional African religion and material culture, which hitherto defines African communality, politics, and destinies vis-à-vis the cosmos and nature. Thus, African religion and communities, each with its own attendant values, do not operate by critical engagement with larger issues of society and civilization, especially those shaped by the advent of (post-) modernity. Rather, they operate via adaptation. The communal drive for natural and social harmony inevitably produces a preservationist view of culture ("leaving things as they are"). This study takes an integrative approach to religion, society, and civilization; eschews dichotomies; and broadly defines and re-signifies life and wholeness as a true end of Africans' quest today.

American Democracy: 21 Historic Answers to 5 Urgent Questions

Nicholas Lemann 2020-10-06 From *The Federalist to Citizens United*, a bestselling historian presents key writings on five crucial questions confronting American democracy today. Amid the frenzied overload of 24-hour cable news and incessant social media, at a time when many of us fear for the future of our democracy, it is becoming harder and harder to think clearly about politics. *American Democracy: 21 Historic Answers to 5 Urgent Questions* provides an alternative for those who want to step back and look to the past for inspiration and guidance. Edited with perceptive and provocative commentary by bestselling historian and journalist Nicholas Lemann (*The Promised Land*, *Transaction Man*), the book presents key writings from the American past that speak to five contemporary flashpoints in our political landscape: race, gender, immigration, and citizenship; opportunity and inequality; the purpose and powers of the federal government; money, special privilege, and corruption; and protest and civil disobedience. Some of the selections are well-known—George Washington’s letter to the Hebrew Congregation at Newport, Frederick Douglass’s “What to the Slave is the 4th of July,” Martin Luther King Jr.’s letter from Birmingham Jail—while others will be new to many readers—Horace Mann’s argument for public schools as a means of fighting inequality, Jane Addams’s perceptive analysis of gender and social class in charity work, Randolph Bourne envisioning a “Trans-National America.” *American Democracy* presents a remarkable range of insightful and eloquent American political writing, while serving as an invaluable resource for concerned citizens who wish to become better-informed participants in the ongoing drama of our democracy.

Writing Galicia into the World Kirsty Hooper 2011-04-27 *Writing Galicia* explores a part of Europe’s cultural and social landscape that has until now remained largely unmapped: the exciting body of creative work emerging since the 1970s from contact between the small Atlantic country of Galicia, in the far north-west of the Iberian peninsula, and the Anglophone world. Unlike the millions who participated in the mass migrations to Latin America during the 19th century, those who left

Galicia for Northern Europe in their hundreds of thousands during the 1960s and 1970s have remained mostly invisible both in Galicia and in their host countries. This study traces the innovative mappings of Galician cultural history found in literary works by and about Galicians in the Anglophone world, paying particular attention to the community of 'London Galicians' and their descendants, in works by artists (Isaac Díaz Pardo), novelists (Carlos Durán, Manuel Rivas, Xesús Fraga, Xelís de Toro, Almudena Solana) and poets (Ramiro Fonte, Xavier Queipo, Erin Moure). The central argument of *Writing Galicia* is that the imperative to rethink Galician discourse on emigration cannot be separated from the equally urgent project to re-examine the foundations of Galician cultural nationalism, and that both projects are key to Galicia's ability to participate effectively in a 21st-century world. Its key theoretical contribution is to model a relational approach to Galician cultural history, which allows us to reframe this small Atlantic culture, so often dismissed as peripheral or minor, as an active participant in a network of relation that connects the local, national and global.
