Yearbook Commercial Arbitration Vol XXXIII 2008

Albert Jan Van Der Berg
2009-01-01 The Yearbook
Commercial Arbitration
continues its longstanding
commitment to serving as a
primary resource for the
international arbitration
community with reporting on
arbitral awards and court
decisions applying the leading

arbitration conventions, as well
as arbitration legislation and
rules. Volume XXXIII includes
excerpts of arbitral awards
made under the auspices of,
inter alia, the International
Chamber of Commerce (ICC); a
biennial update of the Digest of
Investment Treaty Decisions
and Awards first published in
2006; notes on new and
amended arbitration rules,
including references to their

online publication; notes on recent developments in arbitration law and practice in the Dubai International Financial Centre, Rwanda, Slovenia, Syria and Ukraine, as well as on the opinion of the Advocate General of the European Court of Justice in the West Tankers case; excerpts of 109 court decisions applying the 1958 New York Convention from 23 countries - including an update of Russian and Greek jurisprudence and, for the first time, decisions from Argentina, Belize, the British Virgin Islands, Chile and Peru - all indexed by subject matter and linked to the General Editor's published commentaries on the New York Convention; an extensive Bibliography of recent books and journals on arbitration. The Yearbook is edited by the International Council for Commercial Arbitration (ICCA), the world's leading organization representing practitioners and academics in the field, with the assistance of the Permanent Court of Arbitration, The Hague. It is an

essential tool for lawyers, business people and scholars involved in the practice and study of international arbitration.

George R. R. Martin Presents Wild Cards: Pairing Up George R. R. Martin 2023-07-11

Superheroes and villains do battle over the human heart in this delightful anthology featuring all-new stories from a wide range of contributors, all set in the Wild Cards universe, where an alien virus mutates some and grants superpowers to others, created by the #1 New York Times bestselling author of *A Game of Thrones*. An alien virus ravages the world, its results as random as a hand of cards. Those infected either draw the black queen and die, draw an ace and receive superpowers, or draw the joker and are bizarrely mutated. Nevertheless, human nature reigns supreme. And one of the most enduring human drives is the search for love. Aces and jokers alike both want to find it, or have lost it . . . or perhaps just want to use it for personal gain. Crazy,

unconventional, touching, strange, and oh-so-familiar, this is love, Wild Cards-style. Within these stories: • A jewel thief seduces a popular actor just so she can track down a long-lost treasure. • A teenager trapped in the body of a giant snail attempts to win his love à la Cyrano de Bergerac. • A man discovers his purpose in life after meeting a beautiful butterfly woman. • A young hero who has been awarded the hideous name of Hero McHeroface finds some solace in the arms of an astrologer hiding her own unique powers. Pairing Up is the Wild Cards take on love—finding it, seeking it, losing it, or achieving it—as aces and jokers enter into the highest stake game of all: gambling on their heart's desire. Featuring stories from: Kevin Andrew Murphy • Christopher Rowe • Marko Kloos • Melinda M. Snodgrass • Bradley Denton • Walton Simons • Peter Newman • Gwenda Bond • David Anthony Durham • Edited by George R. R. Martin

accidents with serious consequences. One of the reasons that encouraged me to write this book is to draw attention to these serious shortcomings which someday may cause society to pay a high price. My main focus in this book has been on telling about the shiphandling behaviours of electrically-driven azimuthing propulsors rather than the mechanically-driven azimuthing propulsors. Despite the fact that the shiphandling principles of both systems are quite similar, I chose not to mention much about the mechanically driven azimuthing propulsors as they are mostly related with tugboats. Tugboat handling is another speciality, which I believe should be explained only by seasoned tugboat captains themselves. I am a professional maritime pilot but an amateur author and this book is solely intended to share my humble experience and knowledge with my colleagues, ship captains, students and all other interested parties of the maritime industry. Dear

Reader, I had actually started writing this book in order to keep my experience on the subject in writing and bring together all the data I have collected from various resources at different times. To improve my knowledge and experience, I have also joined a special manned model course for “Pod Handling and Emergencies” at Port Revel Shiphandling Centre which is located at Grenoble, France in May 2010. Vessels fitted with azimuthing podded propulsors have much better manoeuvring capabilities, such as reduced turning diameters and significantly shorter stopping distances compared to the conventional systems with a fixed propeller and conventional rudder. They are also environmentally friendly with much reduced exhaust emissions. With these unique features, they offer significant economic, safety and environmental advantages to society, but unfortunately, the routines and the emergency procedures of the azimuthing podded propulsion system were

not clearly defined and incorporated into onboard ISM systems. Even class surveyors and Port State surveyors don't seem to have enough knowledge about this technology. Masters, Chief Engineers and Pilots should receive a specialist training before they lay their hands on the controls, but instead most of them still have to try learning on the job, which sometimes lead to serious incidents, near misses and accidents with serious consequences. One of the reasons that encouraged me to write this book is to draw attention to these serious shortcomings which someday may cause society to pay a high price.

Queen Mary 2 John Maxtone-Graham 2004-04-28 This book documents the creation, from keel laying to christening, of one of the most ambitious passenger vessels of all time, Cunard Line's new flagship, the Queen Mary 2. The story of the Queen Mary 2 is told by noted maritime historian John Maxtone-Graham, whose engaging text takes us through the building of the ship and details its world-class amenities.

Performing the Matrix Meike Wagner 2008 *Performing the Matrix. Mediating Cultural Performances* presents a collection of case studies and analyses dealing with performances of the matrix that take up questions of identities and social thinking,

visualization and perception, the discursive power of texts and historiographic paradigms, and artistic strategies of political intervention. Since 1999 The Matrix has become a popular catchword through the homonymous Wachowski brothers' movie. As both a traditional concept and a popular phenomenon, <matrix> can take on a new value when reconsidered in the light of performance studies. A behind-the-scenes look at theatre, performance, political activism and events may reveal a productive mediating structure that can metaphorically be described as a matrix. This mediating structure and its materializations are fundamentally reshaping modern culture. Accordingly <politics of visibility>, <media networking>, <telepresence> and <liveness> are considered to be understood as performances of the matrix. If so, how does this understanding of cultural performances <as always already mediatized> influence contemporary concepts of performance and media?

The Cruise Ship Phenomenon in North

America Brian J. Cudahy 2001 Cudahy (an independent scholar with a PhD in philosophy and a passion for transportation) looks at the early days of the cruise ship industry and discusses contemporary cruise ship design, cruise markets, and the evolution of the burgeoning, recreation-oriented business. Coverage also includes the challenges of managing cruise lines and regulations governing the industry. A detailed appendix presents an instant history of the major cruise line ships, including notes on specifications, builders, registry, and passenger capacity. The Mermaid that Came Between Them Carol Ann Sima 2001 A spritely novel about a father, his son, and the mermaid that captures their hearts.

Everett Fishermen RaeJean Hasenoehrl 2008-06 In the late

1890s, the migration of Croatian and Norwegian fishermen to Washington State launched an era of worldwide exportation of salmon from the Puget Sound and surrounding waters. Specific to Everett came a group of fishermen proficient in the art of purse seining. With dauntless energy, they set about the task of conquering the open waters to survive in their newfound home. Often their journey was successful, but at times the battle turned disastrous. Ships were sunk, lives were lost, and dreams were flung into the sea. On the home front, wives, mothers, sisters, and daughters shared in the quest, often working long hours at processing plants and other local industries. All the while, the women and their children kept their eyes on the horizon, anticipating the safe return of loved ones.

elegant prose,” the Costa Prize-winning author “creates an indelible portrait of a mysterious woman” and her quest for total independence (Kirkus Reviews, starred review). Maud enters Tim’s life as no one else could: by falling straight past him, seemingly to her death, then standing up and walking away. From that moment on, Tim is desperate to love her, rescue her, reach her. Yet there is nothing to suggest Maud has any need of him. She is already complete. A woman with a talent for survival, she works long hours and loves to sail—preferably on her own. When Maud finds her unfulfilling marriage tested by unspeakable tragedy, she attempts to escape from her husband and society’s hypocrisy. In her quest, she encounters the impossible and pushes her mind and body to their limits. A wise and thrilling portrait of an irreducible heroine who asks no permission and begs no pardon, *The Crossing* explores a truth that’s absent from most contemporary literature. “An

extraordinary portrait of an enigmatic woman.” —The Guardian

Promise Bound Anne

Greenwood Brown 2014-01-07
Calder and Lily never imagined falling in love would mean breaking apart. But ever since Lily started wearing a glass pendant that once belonged to Nadia, Calder's adoptive mother, she's been having vivid dreams of what life was like for the mermaid matriarch. In fact, she's been dreaming as if she were Nadia! And Nadia, it seems, made a promise before her death. A promise to reunite Calder's biological mother with her son. Lily knows merfolk are bound to keep their promises. Calder's not buying into it, though. He chalks up the dreams to stress. He wants Lily to focus on the future—their future, not the past. Which forces Lily to send Calder away. Calder goes, feeling rejected and more than a little tempted to revert to his hunting ways. What both of them overlook is the present: Calder's sisters, Maris and Pavati, are fighting for control

of the mermaid clan, and now that Lily and her dad have transformed into mer-creatures, both mermaids vie for daughter and father as allies. Which of the two mermaids can be trusted? Will Lily make costly mistakes, forcing her to descend to the depths of Lake Superior? And if Calder returns, will he be the same merman Lily grew to love? The stakes are high, with many lives at risk, but Calder and Lily must confront the past as well as their darkest impulses if they want a chance at being together.

The Winding Road Laura McElroy 2019-01-29 Present Day Julianna MacKenzie has everything in life she thinks that she wants at twenty-five—an interesting job, a loving family, and a fiancé. With only weeks until her wedding, however, her world begins to crumble. Upon finding her fiancé in bed with her best friend, Julianna calls off the engagement and runs

home to her family in Atlanta. On the advice of her parents, she takes an overnight flight to London, hoping some time away with her brother will help her heal and put things back into perspective. Tragedy strikes when her plane is brought down in the middle of the Atlantic during a storm and she is swept away from the other passengers in the life raft by the waves. Being forced to face her worst fears, she prays for a miracle. 1780 Alec Fraser was born the illegitimate son of a highland laird. Growing up in the aftermath of the Jacobite rising of 1745, he has done everything in his power to help his family survive financially and to restore the honor to their family name that his father and his grandfather so selfishly disregarded. Dedicating his life to the achievement of his goals, Alec's relationship with his family in Scotland has deteriorated, caused by years of anger and unforgiveness. With no thought to having a wife and children of his own, he is surprised when the

Voison'S Boomerang R.
RexDeNemo 2017-04-18 In a futuristic world, a nurse practitioner and a doctor are encouraged to begin dating by Voison Noteau, the elderly author of a book that accurately foretold of Boomerangthe moment in 2036 when an asteroid hit Earth and caused a disaster of epic proportions. Unfortunately now some fifty years after Voison penned the prophetic story that was eventually optioned into a Hollywood movie, the original manuscript is missing. When Carol Applegate and Dr. Razguptra finally go on their first date, she is drugged. As Dr. Razguptra attempts to discover who slipped her the drugs, he has no idea that there are those who want Carol silenced because of her knowledge about Voisons book. As a detective and his partner

are pulled in to investigate the strange events, Voison reveals a surprising connection between the Malthusian Cartel and Boomerang and the location where he hopes the flash drive containing the manuscript is stored. But little do they know that in their quest to find it, they have all opened themselves up to an evil force determined to keep the truth hidden. In this science fiction adventure, several people become intertwined in a murderous plot after it is discovered they possess knowledge about a book that foretold of a catastrophic event fifty years earlier.

The Drydock and the Mermaid Thomas F. Kistner
2001-01-12 Jack Starling, a young American, has been in Copenhagen for four months and washes dishes at Divan I, an upscale restaurant in Tivoli Gardens. He has no work permit and his job is technically illegal but no one seems to care that much and he needs the work since he has moved in with his girl friend, Tove Svensen, with whom he is in love, and has no intention of leaving the city. They are a

loving couple and incredibly happy. They make no plans for the future but neither wants this wonderful time together to end. Along the way Jack strikes up a friendship with the most interesting, urbane, articulate, sophisticated, intellectual person he has ever met. Pete Sorensen is a drunk and part time psychotic but at one time was a biblical scholar of repute, a full professor of Asian Studies at Copenhagen University and during the war, now 16 years past, the leader of the most feared anti Nazi resistance group in all of Denmark, The Vipers. Jacks military background as an intelligence operative in the Far East becomes known to Inspector Magnus Johansen, Director of the Copenhagen office of the International Police. He has Jack picked up by the local police for washing dishes without a permit and brought to his office across the street from Tivoli Gardens. Jack has no idea Magnus was a young member of the Vipers and at that time a devout follower of Pete Sorensen. In

return for maintaining and even intensifying his relationship with Sorensen, who manages to hold down a customer service job at a prestigious international bank in Copenhagen, between stays at the asylum, Magnus offers our hero a real job at a nearby shipyard as a ships rigger in the biggest drydock in Northern Europe. You mean you want me to spy on him, says Jack, not too happy with the proposition. Something like that, smiles Johansen. Jack takes the job, after all it will double his income, and goes to work for Aksel Holmgren who manages the drydock and crew of ten very experienced riggers. He assimilates very well and quickly learns the art of rigging from, as his mates were fond of saying, the very best scaffold hangers on the face of the earth. He is happy and likes the work a great deal. It is not long before he finds out that Aksel was also a member of the Vipers working under their leader Pete Sorensen. He learns that a raid on a Nazi munitions plant in

June, 1944 went very badly and all the Vipers, save three, were mowed down by well placed German machine guns. They were obviously betrayed. Pete, Aksel and Magnus escaped miraculously by swimming across the harbor and vanishing into the city. It has always been obvious, to anyone knowing the entire story, that one of these three is a Quisling, a rat, an informer. But which one? Sixteen years have gone by and they have each led productive lives, discounting Sorensens stays in the asylum, of course. No signs of regret or remorse....that were visible in any event. Magnus is hoping Pete will reveal something to Jack during one of their drinking sessions at Johns bar. Aksel wonders why Magnus prevailed on him to hire the inexperienced American who knows nothing about rigging and speaks no Danish. Pete questions Jacks judgement in shacking up with a shop clerk with a small farming background. You can certainly do better, my boy! As the story unfolds Jack is drawn deeper

Swift Pride Alec Merrill 2014-12 Summer 1746. Louisbourg has fallen. HMS

Mermaid, a forty gun ship of the line, escorts a convoy containing surrendered Frenchmen across the Atlantic to Brest, France. Pressed sailor, Jon Swift, struggles with personal demons. Torn from his family by the press gang, their welfare still haunts him. The inequities and injustices onboard a Royal Navy ship of the line add fuel to the fire. Swift seriously contemplates desertion. Events on the Mermaid continually place Swift in harm's way further swaying him. On the other side of the coin, Swift is proud of his achievements, and with no other skills except sailing, a sea life beckons. Will his pride and fortitude see him through this dilemma, or will punishment and arrogance tip the scales the other way?

Ashore and Afloat Julian Gwyn 2004 To help sustain its expanding empire in the eighteenth and nineteenth centuries, Britain and the Royal Navy needed overseas naval bases to support the burden placed on its home yards.

When their ambitions in North America accelerated in the 1740s and 1750s and proved enduring, the home yard of Portsmouth could no longer adequately support the North American squadron, established in 1745. The building of a careening yard at Halifax - a decision made in 1758, nine years after the town was first settled - became imperative. Julian Gwyn's *Ashore and Afloat* is a history of the Halifax Naval Yard. While first used to offset French power in North America, it was subsequently used against rebel Americans and their French allies in the American War of Independence, during the wars of the French Revolution and Napoleon, and against the United States in the War of 1812. For much of its early history, it was the largest industrial site in British North America, employing up to 300 officers and men. It was reduced to a small depot at the end of 1819, when a new base was constructed in Bermuda. From the building of the yard

and its expansion, to the people involved in the enterprise, to the nuts and bolts of buying the masts and paying the bills, Gwyn's history of the Halifax Naval Yard leaves no stone unturned. Illustrations, tables, and copious appendices, including a biographical directory and glossary, round out the historical picture. Gwyn's impressive evocation of people and events, and the scholarship and erudition he brings to the ideas and historical forces involved, combine to make *Ashore and Afloat* uniquely authoritative.
