The Earth and Its Peoples, Brief Volume I: To 1550: A Global History Richard Bulliet
2014-01-01 Readable and concise, this Brief Edition of THE EARTH AND ITS PEOPLES: A GLOBAL HISTORY provides the essential narrative of world history in an abbreviated format. This global text employs the fundamental themes of “environment and technology” and “diversity and dominance” to explore patterns of humans' interactions with their surroundings and with each other. The authors' approach shifts the focus away from political centers and power, revealing how humanity continues to shape and be shaped by our environments, and how dominant structures and traditions are balanced and challenged by alternate beliefs. Special emphasis is given to technological development and how it underlies all human activity. Available in the following split options: THE EARTH AND ITS PEOPLES, Brief Sixth Edition (Chapters 1-30), ISBN: 978-1-285-44551-9; Volume I: To 1550 (Chapters

1-15), ISBN: 978-1-285-44552-6; Volume II: Since 1500 (Chapters 15-29), ISBN: 978-1-285-44553-3. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

A People's Curriculum for the Earth Bill Bigelow
2014-11-14 *A People's Curriculum for the Earth* is a collection of articles, role plays, simulations, stories, poems, and graphics to help breathe life into teaching about the environmental crisis. The book features some of the best articles from *Rethinking Schools* magazine alongside classroom-friendly readings on climate change, energy, water, food, and pollution—as well as on people who are working to make things better. *A People's Curriculum for the Earth* has the breadth and depth of *Rethinking Globalization: Teaching for Justice in an Unjust World*, one of the most popular books we've published. At a time when it's becoming increasingly obvious that life on Earth is at risk, here is a resource that helps students see what's wrong and imagine solutions. Praise for *A People's Curriculum for the Earth* "To really confront the climate crisis, we need to think differently, build differently, and teach differently. *A People's Curriculum for the Earth* is an educator's toolkit

for our times." — Naomi Klein, author of *The Shock Doctrine* and *This Changes Everything: Capitalism vs. the Climate* "This volume is a marvelous example of justice in ALL facets of our lives—civil, social, educational, economic, and yes, environmental. Bravo to the *Rethinking Schools* team for pulling this collection together and making us think more holistically about what we mean when we talk about justice." — Gloria Ladson-Billings, Kellner Family Chair in Urban Education, University of Wisconsin-Madison "Bigelow and Swinehart have created a critical resource for today's young people about humanity's responsibility for the Earth. This book can engender the shift in perspective so needed at this point on the clock of the universe." — Gregory Smith, Professor of Education, Lewis & Clark College, co-author with David Sobel of *Place- and Community-based Education in Schools*

Planet Earth Activity Book Lizzie Cope 2021-08-03 Fascinating activity book for children to explore the wonders of our planet. The puzzles and activities in this book will take you to the furthest corners of the Earth. You'll spot wildlife in the Amazon Rainforest and find a wonderful array of corals in the Great Barrier Reef to colour in. You'll discover the highest mountains on all the world's continents and identify volcanoes around the Pacific Ocean in the Ring of Fire. And when you come to reunite a herd of elephants on the African savanna, you'll learn why these amazing creatures are rather like gardeners.

The Earth and Its Peoples Richard Bulliet 2018 Featuring a beautiful new design, THE EARTH AND ITS PEOPLES, 7th Edition, presents world history in a balanced, global framework, shifting the focus away from political centers of power and toward the living conditions and activities of ordinary people. This truly global world history book employs a fundamental theme -- the interaction of human beings and the environment -- to compare different times, places, and societies. Special emphasis is given to technology (in its broadest sense) and how technological development underlies all human activity.

The Earthist Challenge to Economism J. Cobb
1998-10-30 Western society moved from a period in which Christianity was the dominant spiritual force to one of nationalism and then to making the economy the object of public devotion. Today this is challenged by those seeking the health of the Earth including all its inhabitants. The World Bank is the economic institution most open to Earthist concerns. The book evaluates the Bank's potential for leadership in broadening public goals from narrowly economic goods to inclusive ones.

The Earth Only Endures Jules Pretty 2012-05-04

For most of human history, we have lived our daily lives in a close relationship with the land. Yet now, for the first time, more people are living in urban rather than rural areas, bringing about an estrangement. This book, by acclaimed author Jules Pretty, is fundamentally about our

relationship with nature, animals and places. A series of interlinked essays leads readers on a voyage that weaves through the themes of connection and estrangement between humans and nature. The journey shows how our modern lifestyles and economies would need six or eight Earths if the entire world's population adopted our profligate ways. Pretty shows that we are rendering our own world inhospitable and so risk losing what it means to be human: unless we make substantial changes, Gaia threatens to become Grendel. Ultimately, however, the book offers glimpses of an optimistic future for humanity, in the very face of climate change and pending global environmental catastrophe.

The EARTH Book (Illustrated Edition) Todd Parr 2011-02-21 "I take care of the earth because I know I can do little things every day to make a BIG difference..." With his signature blend of playfulness and sensitivity, Todd Parr explores the important, timely subject of environmental protection and conservation in this eco-friendly picture book. Featuring a circular die-cut Earth on the cover, and printed entirely with recycled materials and nontoxic soy inks, this book includes lots of easy, smart ideas on how we can all work together to make the Earth feel good - from planting a tree and using both sides of the paper, to saving energy and reusing old things in new ways. Best of all, the book includes an interior gatefold with a poster with tips/reminders on how kids can "go green" everyday. Equally whimsical and heartfelt, this sweet homage to our beautiful planet is sure to

inspire readers of all ages to do their part in keeping the Earth happy and healthy.

Global Environmental Constitutionalism in the Anthropocene Louis J Kotzé 2016-09-22 There is persuasive evidence suggesting we are on the brink of human-induced ecological disaster that could change life on Earth as we know it. There is also a general consensus among scientists about the pace and extent of global ecological decay, including a realisation that humans are central to causing the global socio-ecological crisis. This new epoch has been called the Anthropocene. Considering the many benefits that constitutional environmental protection holds out in domestic legal orders, it is likely that a constitutionalised form of global environmental law and governance would be better able to counter the myriad exigencies of the Anthropocene. This book seeks to answer this central question: from the perspective of the Anthropocene, what is environmental constitutionalism and how could it be

around the world use electric energy to do all kinds of things--adults do, too! From cleaning the clothes we play in, to lighting up our dinner tables, to keeping us warm and toasty when the weather is cold, electricity is a huge part of our lives. Unfortunately, it can also have a big impact on our planet. Earth Hour--a worldwide movement in support of energy conservation and sustainability--takes place each March and is sponsored by the World Wildlife Fund for Nature (WWF). During Earth Hour, individuals, communities, and businesses in more than 7,000 cities turn off nonessential electric lights for one hour. Across each continent--from the Eiffel Tower to the Great Wall of China to the Statue of Liberty--one small act reminds all of us of our enormous impact on planet Earth.
