The Revolutionaries Max Hennessy 2020-07-22 One last mission, but this time it's personal... In the Spring of 1920 the Mexican revolution was almost over. Just across the border in Texas was Martin Falconer, barely out of his teens yet already a veteran airman. He had only just escaped from the Russian Civil War with his three friends, Slingsby, 'Puddy' Pudhovkin and 'Tommy' Tucker, and they were all looking forward to a little peace. Martin had cabled his girlfriend Charley, who was in Mexico with her father, to come and meet him. But his hopes are shattered when they arrive in the border town of Camarillo to collect Charley, and the four airmen are caught in the middle of a battle. When the dust settles, they discover that the retreating Mexican bandits had taken Charley as a hostage. Martin tries to enlist official aid, but without success. It was up to them - and all they had to use against a desperate band of rebels were two battered aeroplanes, a broken down Avro and a de Havilland with broken wings. This will be his most challenging flight. The absolutely thrilling finale to the Martin Falconer thrillers, a tour de force of wartime storytelling, perfect for fans of Alastair MacLean, Alexander Fullerton and David Black.

The Importances of the Past George Allan 1986-01-01 This book examines tradition, the authority of the past, by tracing the process through which emotion and imagination transform everyday experience into an awareness of one's dependence on the work of predecessors. The King Arthur legend serves as a case study, outlining how this authority of tradition creates and sustains meaningful structures of social order.

Eight Viewpoints: Western Poetry Clark Crouch 2009-06 Eight contemporary poets share their varied views about the Great American West. Poems reflect the realism of the Siege of Vicksburg, which prompted some to join the great westward movement, to cowboys and their horses, the raw Southwest, tall tales of magic boots, and a cowboy's view of history. It's all captured in western poetic style. Featured poets are: Kenneth Garcia, Debra Meyer, Del Gustafson, Steve Dickson, Virginia Cook, Stephen Foster, J. Wesley Taylor Sr., and Clark Crouch.

Harkin' Home Clark Crouch 2010-10 Clark Crouch, a prize-winning cowboy poet, returns with his eighth book, *Harkin' Home*, a collection of original poems and short stories. From the allegorical beauty of a "Red Prairie Rose" to such verses as the fantasy of "Dead Man's Gun," the brutality of "Massacre," the defense of "Chopin's Minute Waltz," and hemp tricks by "Ropin' Fool," he offers a generous view of the humor and the pathos of life in the Great American West. A two-time winner of the Will Rogers Medallion Award for Cowboy Poetry, his work reflects viewpoints and biases which grew out of life during the Great Depression, years of drought in the Sandhills of Nebraska, and six youthful years earning his own way as a cowboy from the age of twelve.

Edible Wild Plants of the Prairie Kelly Kindscher 1987-07-30 Long before sunflower seeds became a popular snack food, they were a foodstuff valued by Native Americans. For some 10,000 years, from the end of the Pleistocene to the 1800s, the indigenous peoples of the plains regarded edible native plants, like the sunflower, as an important source of food. Not only did plants provide sustenance during times of scarcity, but they also added variety to what otherwise would have been a monotonous diet of game. Nevertheless, the use of native plants as food sharply declined when white men settled the Great Plains and imposed their own culture with its differing notions of what was fit to eat. Those notions tended to exclude from the accepted diet such plants as soapweed, labquarter, ground cherry, prairie turnip, and prickly pear. Today it is strange to think of eating chokecherries, which were a key ingredient in that staple of the Indian diet, permmican. Based on plant lore documented by historical and archaeological evidence, *Edible Wild Plants of the Prairie* related how 122 plant species were once used as food by the native and immigrant residents on the prairie. Written for a broad audience of amateur naturalists, botanists, ethnologists, anthropologists, and agronomists, this guide is intended to educate the reader about wild plants as food sources, to synthesize information on the potential use of native flora as new food crops, and to encourage the conservation and cultivation of prairie plants. By writing about the edible flora of the American prairie Kelly Kindscher has provided us with the first edible plant book devoted to the region that Walt Whitman called "North America's characteristic landscape" and the Willa Cather called "the floor of the sky." In describing how plants were used for food, he has drawn upon information concerning tribes that inhabited the prairie bioregion. As a consequence, his book serves as a handy compendium for readers seeking to learn more about historical uses of plants by Native Americans. The book is organized into fifty-one chapters arranged alphabetically by scientific name. For those who are interested in finding and identifying the plants, the book provides line drawings, distribution maps, and botanical and habitat descriptions. The ethnobotanical accounts of food use form the major portion of the text, but the reader will also find information on the parts of the plants used, harvesting, propagation (for home gardeners), and the preparation and taste of wild food plants.

Slogum House Mari Sandoz 1981-01-01 Slogum House "lay on the winter flat of Oxbow like the remains of some great, hulking animal that had foraged the region long ago, leaving its old gray carcass to dry and bleach at the foot of the hogback." Ruled by Gulla Slogum, the house was headquarters for a clan that terrorized what it couldn't seduce or steal. Using her daughter as poisoned bait and her sons as predators, Gulla plotted to put a whole county under her control. She had been insulted too often and worked too hard; now she sought power, land, and revenge.

Views from the Saddle Clark Crouch 2009-06 An award-winning author's fourth book of western and cowboy poetry contains 65 original poems which capture the viewpoints, biases, and philosophies that were shaped by the Great Depression and years of drought in the sand hills of Nebraska.

Sun, Sand & Soapweed Clark Crouch 2005-08 Western and cowboy poetry capturing glimpses of both serious and humorous aspects of life in the west...from "Crouchmas" to "Calving Season" and from "Four-Letter Words" to "Western Sunset." While the poems are reality-based, the author has not hesitated to exercise the cowboy's propensity to embellish the truth.

Sandoz Studies, Volume 1 Renée M. Laegreid 2019-07 Mari Sandoz, born on Mirage Flats, south of Hay Springs, Nebraska, on May 11, 1896, was the eldest daughter of Swiss immigrants. She experienced firsthand the difficulties and pleasures of the family's remote plains existence and early on developed a strong desire to write. Her keen eye for detail combined with meticulous research enabled her to become one of the most valued authorities of her time on the history of the plains and the culture of Native Americans. *Women in the Writings of Mari Sandoz* is the first volume of the Sandoz Studies series, a collection of thematically grouped essays that feature writing by and about Mari Sandoz and her work. When Sandoz wrote about the women she knew and studied, she did not shy away from drawing attention to the sacrifices, hardships, and disappointments they endured to forge a life in the harsh plains environment. But she also wrote about moments of joy, friendship, and—for some—a connection to the land that encouraged them to carry on. The scholarly essays and writings of Sandoz contained in this book help place her work into broader contexts, enriching our understanding of her as an author and as a woman deeply connected to the Sandhills of Nebraska.

Shifting Sands Ramona Maher 1968 Discusses various aspects of sand dunes including how and where they grow, how they influence plant and animal life, and how towns, forests, and farms have been reclaimed from them.

Ridin' and Writin' Clark Crouch 2014-12-15 Clark Crouch offers a dual volume of western and cowboy poetry containing the poems published in his first two books, *Where Horses Reign* and *Sun, Sand & Soapweed*. Raised during the Great Depression, he was on his own from the time he was twelve working as a cowboy until he was nearly eighteen. He brings the reality of that experience to poetic tales reflecting rural life...the places, the people, the pleasures, and the pathos...in the Sandhills of Nebraska.

The Tie That Binds Kent Haruf 2010-05-12 From the bestselling author of *Eventide*, *The Tie That Binds* is a powerfully eloquent tribute to the arduous demands of rural America, and of the tenacity of the human spirit. Colorado, January 1977. Eighty-year-old Edith Goodnough lies in a hospital bed, IV taped to the back of her hand, police officer at her door. She is charged with murder. The clues: a sack of chicken feed slit with a knife, a milky-eyed dog tied outdoors one cold afternoon. The motives: the brutal business of farming and a family code of ethics as unforgiving as the winter prairie itself. Here, Kent Haruf delivers the sweeping tale of a woman of the American High Plains, as told by her neighbor, Sanders Roscoe. As Roscoe shares what he knows, Edith's tragedies unfold: a childhood of pre-dawn chores, a mother's death, a violence that leaves a father dependent on his children, forever enraged. Here is the story of a woman who sacrifices her happiness in the name of family—and then, in one gesture, reclaims her freedom.

Garden Myths Robert Pavlis 2017-01-26 *Garden Myths* examines over 120 horticultural urban legends. Turning wisdom on its head, Robert Pavlis dives deep into traditional garden advice and debunks the myths and misconceptions that abound. He asks critical questions and uses science-based information to understand plants and their environment. "*Garden Myths* is a must-read for anyone who wants to use environmentally sound practices. This fascinating and informative book will help you understand

plants better, reduce unnecessary work, convince you to buy fewer products and help you enjoy gardening more."

Western Images Clark Crouch 2007-06 The author, a prize-winning cowboy poet, delivers the reality of the West through this, his third collection of original western and cowboy poetry. His work is pointed toward remembering, preserving, sharing, and celebrating our western and cowboy heritage and traditions. The poems are drawn, primarily, from his experience as a young cowboy in the Sandhills of Nebraska in the 1930's and 1940's. They are also influenced by his pre-teen acquaintance with Badger Clark, the classic cowboy poet, who was then Poet Laureate of South Dakota.
