I Will Survive Gloria Gaynor 2014-03-11 *I Will Survive* is the story of Gloria Gaynor, America's "Queen of Disco." It is the story of riches and fame, despair, and finally salvation. Her meteoric rise to stardom in the mid-1970s was nothing short of phenomenal, and hits poured forth that pushed her to the top of the charts, including "Honey Bee," "I Got You Under My Skin," "Never Can Say Goodbye," and the song

that has immortalized her, "I Will Survive," which became a #1 international gold seller. With that song, Gloria heralded the international rise of disco that became synonymous with a way of life in the fast lane - the sweaty bodies at Studio 54, the lines of cocaine, the indescribable feeling that you could always be at the top of your game and never come down. But down she came after her early stardom, and problems followed in the wake, including the death of her mother, whose love had anchored the young singer, as well as constant battles with weight, drugs, and alcohol. While her fans always imagined her to be rich, her personal finances collapsed due to poor management; and while many envied her, she felt completely empty inside. In the early 1980s, sustained by her marriage to music publisher Linwood Simon, Gloria took three years off and reflected upon her life. She visited churches and revisited her mother's old Bible. Discovering the world of gospel, she made a commitment to Christ that

sustains her to this day.

20 Myths about Religion and Politics in America

Ryan P. Burge 2022-03-01 The way most people think about religion and politics is only loosely linked to empirical reality, argues Ryan P. Burge in 20 Myths about Religion and Politics in America. Instead, our thinking is based on anecdotes, a quick scan of news headlines, or worse, flat-out lies told by voices trying to push a religious or political agenda on a distracted public. Burge sees this fundamentally flawed understanding of the world around us and our misperceptions about where we fit into the larger fabric of society as caustic for the future of American politics and religion. Without an accurate picture of our society, when we subscribe to only caricatures of what our country looks like, we never really address the problems facing us. Striving to be an impartial referee, Burge describes with accessible and engaging prose--and illustrates with dozens of clear, helpful graphs--what the

data says. Step by step, he debunks twenty myths, using rigorous data analysis and straightforward explanations. He gives readers the resources to adopt an empirical view of the world that can help all of us, religious and nonreligious alike, get past at least some of the unsupported beliefs that divide us.

[A Vision of Change for America](#) United States. President (1993-2001 : Clinton) 1993 This report was prepared to accompany President Clinton's first address to a Joint Session of Congress. It describes in detail the comprehensive economic plan being proposed by the new administration for the nation. The plan has three key elements: economic stimulus to create jobs now while laying the foundation for long-term economic growth; long term public investments to increase the productivity of people and businesses; and a balanced deficit-reduction plan to prevent the drain of private investments that generate jobs and increase incomes. The text is organized into four sections: (1) "A New Direction" (a brief 3-

page preamble); (2) "A Legacy of Failure" (a 16-page statement of the problem, under subheadings such as "Skyrocketing Health Care Costs"); (3) "What We Must Now Do" (a 92-page statement of the solution, under subheadings such as "Investing in the Future: Reducing the Deficit To Increase Private Investment" and "Restoring Fairness"); and (4) "The Task Remaining" (a brief 6-page wrap-up). A closing Appendix contains 25 pages of statistical tables outlining various discretionary program savings, proposed changes to mandatory programs, stimulus proposals, investment proposals, and revenue and receipts proposals. Most tables provide figures for each year for the 6-year period 1993-1998. The field of education is touched upon in the report at six locations: (1) "Relative Earnings by Education for 25-34 Year Olds" (Chart 2-9, p. 18); (2) Chapter 1 Compensatory Education (p.31); (3) Pell Grants (p. 32); (4) "Lifelong Learning," covering full funding of Head Start and related child care

funding and Medicaid, National Service, Dislocated Workers Program, Job Corps Expansion, Summer Youth Employment and Training Program, Youth Apprenticeship, and various Department of Education reforms and initiatives (p. 57-59); (5) Impact Aid "b" Projects (p. 87); and (6) Reform of Student Loan Programs (p. 92). A Question of Character Thomas C. Reeves 1994-03-01 No issue is more hotly debated than how, or even if, a politician's private life affects his public competence. between JFK's public persona, which has reached mythic proportions, and his scandalous private behavior. Most illuminating is the constant theme of Joe Kennedy's almost total control of JFK's behavior and politics throughout most of his son's career. "The John Kennedy who emerges from these pages was not a man of good moral character. He was reared not to be good but to win." -- "Los Angeles Times Reeves has provided the most truthful and balanced assessment of John F. Kennedy to date. Written more in sorrow than in anger, "A Question of Character explores the sensitive and difficult question of how people, and history itself, ought to judge the relationship between personal character and national leadership. Wives of Fame Edna Healey 2011-12-01 Here are portraits of three very different Victorian women, all of whom married men of exceptional

talent, energy and genius. To be the wife of such frenetic, explosive characters as David Livingstone, Karl Marx or Charles Darwin, especially at this period in history, demanded rare qualities. Yet the late twentieth-century view of these women is perhaps best summed up in the frequently heard comment: 'I didn't know he had a wife.' The mid-nineteenth century was a time of unprecedented movement and upheaval. The revolutions of 1848 set Europe ablaze and sent swarms of political dissidents to seek freedom outside their homelands. Britain and her Empire were ruled by a young Queen Victoria, inspired by her enterprising, vigorous consort, Albert; it was a climate in which invention and discovery were encouraged. Men were creating new frontiers, both geographically and intellectually, and where they went their wives and families accompanied them.
