Sunrunner's Fire Melanie Rawn 2005-08-02 Third in the bestselling Dragon Prince series returns to a lush epic fantasy world replete with winged beasts, power games of magical treachery, and a realm of prinedoms hovering on the brink of war • "Marvelous!"—Anne McCaffrey It began with the discovery of the star scroll—the last repository of forgotten spells of sorcery, the only surviving record of the ancient foe who in times past had nearly destroyed the Sunrunners and their magic. Now, as Andry, the new Sunrunner Lord of Goddess Keep, begins to master this potentially deadly knowledge, while Pol, son of High Prince Rohan, seeks to touch the minds of dragons, the long-vanquished enemy is mobilizing to strike again, drawing on forbidden lore to play an ever-shifting game of treachery and betrayal—and secretly infiltrating even the most strongly protected of citadels. And soon, Pol, Andry, Rohan, his Sunrunner wife Sioned, and all whom they hold dear will find it hard to tell friend from foe as spell wars threaten the devastate the land—and dragons soar the skies, inexorably lured by magic's fiery call....

Shadow Valley Steven Barnes 2009-05-05 Steven Barnes's Great Sky Woman unveiled the world of a prehistoric people in the shadow of modern-day Mount Kilimanjaro. Now, in Shadow Valley, the astounding sequel, we follow the Ibandi people's odyssey through a land where everything has changed—a land from whose ashes will grow the roots of civilization and the enduring truths of love, family, forgiveness, and faith. After the catastrophic eruption of Father Mountain, the Ibandi are divided, desperate, and afraid. Most have followed the only person in whom they still believe: young Sky Woman, who was on the great mountain when it exploded and who, along with Frog Hopping, returned to tell the tale. Nurtured by an elder whose searing visions have left her blind, Sky Woman nonetheless doubts her own visionary powers as she follows a path she can hardly discern—across savannah and parched plains—to find a valley of plenty for a people on the brink of collapse. But in fact, Sky Woman and Frog were not the only survivors of the mountain's explosion. Another man has emerged from the destruction, vengeance pulsing in his veins, to lead a separate group of Ibandi into a vicious and reckless act of war. Soon these two strands of survivors will meet, through chance, desperation, and sheer willpower. In a world in which every moment is lived on the edge between life and death, where animal and human predators can strike in an instant, where the gods themselves seem lost, and dreams entwine with reality, a people's destiny rushes toward them. The Ibandi must make a last, violent stand against complete destruction. In this hypnotic, thrilling, and beautiful novel, Steven Barnes explores relationships between friends and lovers, leaders and followers, strangers and allies. At once visceral and soaringly insightful, *Shadow Valley* is about who we are as human beings today as seen through the wondrous prism of our distant past.

Tunguska, or the End of Nature Michael Hampe 2015-06-04 On June 30, 1908, a mysterious explosion erupted in the skies over a vast woodland area of Siberia. Known as the Tunguska Event, it has been a source of wild conjecture over the past century, attributed to causes ranging from meteors to a small black hole to antimatter. In this imaginative book, Michael Hampe sets four fictional men based on real-life scholars—a physicist (Günter Hasinger and Steven Weinberg), a philosopher (Paul Feyerabend), a biologist (Adolf Portmann), and a mathematician (Alfred North Whitehead)—adrift on the open ocean, in a dense fog, to discuss what they think happened. The result is a playful and highly illuminating exploration of the definition of nature, mankind's role within it, and what its end might be. *Tunguska, Or the End of Nature* uses its four-man setup to tackle some of today's burning issues—such as climate change, environmental destruction, and resource management—from a diverse range of perspectives. With a kind of foreboding, it asks what the world was like, and will be like, without us,

whether we are negligible and the universe random, whether nature can truly be explained, whether it is good or evil, or whether nature is simply a thought we think. This is a profoundly unique work, a thrillingly interdisciplinary piece of scholarly literature that probes the mysteries of nature and humans alike.

Born to Run Christopher McDougall 2010-12-09 A New York Times bestseller 'A sensation ... a rollicking tale well told' - The Times At the heart of *Born to Run* lies a mysterious tribe of Mexican Indians, the Tarahumara, who live quietly in canyons and are reputed to be the best distance runners in the world; in 1993, one of them, aged 57, came first in a prestigious 100-mile race wearing a toga and sandals. A small group of the world's top ultra-runners (and the awe-inspiring author) make the treacherous journey into the canyons to try to learn the tribe's secrets and then take them on over a course 50 miles long. With incredible energy and smart observation, McDougall tells this story while asking what the secrets are to being an incredible runner. Travelling to labs at Harvard, Nike, and elsewhere, he comes across an incredible cast of characters, including the woman who recently broke the world record for 100 miles and for her encore ran a 2:50 marathon in a bikini, pausing to down a beer at the 20 mile mark.

More Fire Toby Tanser 2008 An Essential Book for Runners of All Abilities All of the Author's Proceeds Go to Shoes4Africa to Support the Construction of Children's Hospitals in Kenya Kenya has produced the greatest concentration of world-class runners, and fellow athletes have long been intrigued by their remarkable success. Toby Tanser has devoted much of his professional career living and training among Kenyan runners in order to better understand the unique status of East African athletes. In *More Fire: How to Run the Kenyan Way*, the author builds upon the success of his acclaimed *Train Hard, Win Easy*, the first book to provide insights into the Kenyan "magic" that so many runners and coaches had sought. Instead of special foods or secret techniques, Tanser found that Kenyan runners simply trained incredibly hard, much harder than anyone had realized. By adapting their training regime—which includes three workouts a day—and following their example, runners, whether novices or champions, are able to improve both their performance and enjoyment in running. For those training for a marathon or any other distance race, this book is both practical and inspirational. Divided into four parts, the book begins with a description of running in Kenya, the landscape, the physical conditions, and the people; the second part concentrates on details of Kenyan training camps, training methods, and their typical training diet; the third profiles individual runners and coaches from the past and present, with each explaining their approach to running so that readers can gain further insight into their methods. The book ends with a discussion on how the reader can adapt Kenyan training practices for their own running requirements. *More Fire: How to Run the Kenyan Way* is essential reading for runners of all levels and experience.

The Incomplete Book of Running Peter Sagal 2019-09-10 Peter Sagal, the host of NPR's Wait Wait...Don't Tell Me! and a popular columnist for Runner's World, shares "commentary and reflection about running with a deeply felt personal story, this book is winning, smart, honest, and affecting. Whether you are a runner or not, it will move you" (Susan Orlean). On the verge of turning forty, Peter Sagal—brilliant Harvard grad, short bald Jew with a disposition towards heft, and a sedentary star of public radio—started running seriously. And much to his own surprise, he kept going, faster and further, running fourteen marathons and logging tens of thousands of miles on roads, sidewalks, paths, and trails all over the United States and the world, including the 2013 Boston Marathon, where he crossed the finish line moments before the bombings. In *The Incomplete Book of Running*, Sagal reflects on the trails, tracks, and routes he's traveled, from the humorous absurdity of running charity races in his underwear—in St. Louis, in February—or attempting to "quiet his colon" on runs around his neighborhood—to the experience of running as a guide to visually impaired runners, and the triumphant post-bombing running of the Boston Marathon in 2014. With humor and humanity, Sagal also writes about the emotional experience of running, body image, the similarities between endurance sports and sadomasochism, the legacy of running as passed down from parent to child, and the odd but extraordinary bonds created between strangers and friends. The result is "a brilliant book about running...What Peter runs toward is strength, understanding, endurance, acceptance, faith, hope, and charity" (P.J. O'Rourke).

The Fifteenth Month John F. Schwaller 2019-05-02 The Mexica (Aztecs) used a solar calendar made up of eighteen months, with each month dedicated to a specific god in their pantheon and celebrated with a different set of rituals. Panquetzalitzli, the fifteenth month, dedicated to the national god Huitzilopochtli (Hummingbird on the Left), was significant for its proximity to the winter solstice, and for the fact that it marked the beginning of the season of warfare. In *The Fifteenth Month*, John F. Schwaller offers a detailed look at how the celebrations of Panquetzalitzli changed over time and what these changes reveal about the history of the Aztecs. Drawing on a variety of sources, Schwaller deduces that prior to the rise of the Mexica in 1427, an earlier version of the month was dedicated to the god Tezcatlipoca (Smoking Mirror), a war and trickster god. The Mexica shifted the dedication to their god, developed a series of ceremonies—including long-distance running and human sacrifice—that would associate him with the sun, and changed the emphasis of the celebration from warfare alone to a combination of trade and warfare, since merchants played a significant role in Mexica statecraft. Further investigation shows how the resulting festival commemorated several important moments in Mexica history, how it

came to include ceremonies associated with the winter solstice, and how it reflected a calendar reform implemented shortly before the arrival of the Spanish. Focused on one of the most important months in the Mexica year, Schwaller's work marks a new methodology in which traditional sources for Mexica culture, rather than being interrogated for their specific content, are read for their insights into the historical development of the people. Just as Christmas re-creates the historic act of the birth of Jesus for Christians, so, *The Fifteenth Month* suggests, Panquetzalitzli was a symbolic re-creation of events from Mexica myths and history.

Shadow Crosser, The (Volume 3) J.C. Cervantes 2020-09-01 Best-selling author Rick Riordan presents J.C. Cervantes' epic finale to the Storm Runner trilogy, a tale of mystery, magic, and mayhem featuring gods from both Maya and Aztec mythology. Zane Obispo has been looking forward to his training at the Shaman Institute for Higher Order Magic, and not only because it means he'll be reunited with his best friend, Brooks. Anything would be better than how he has spent the last three months: searching for the remaining godborns with a nasty demon who can sniff them out (literally). But when Zane tracks down the last kid on his list, he's in for a surprise: the "one" is actually a pair of twins, and they're trying to prevent a mysterious object from falling into the wrong hands. After a shocking betrayal, Zane finds himself at SHIHOM sooner than expected. Even more shocking is the news that the Maya gods have gone missing. The bat god, Camazotz, and Ixkik' (aka Blood Moon) have taken them out of commission . . . and the godborns are their next target. The only thing the villains need now? The object that the twins possess. Zane knows the godborns aren't strong enough yet to stand up to Zotz, Ixkik', and their army. There might be a way to save the gods, but it involves locating a magical calendar that can see across time and space . . . not to mention traveling more than thirty years into the past. In *The Shadow Crosser*, Zane and his friends embark on their most treacherous mission yet--a mission that, with one blunder, could change history as we know it, and worse, destroy the universe.

Duel in the Sun John Brant 2007-03-06 The 1982 Boston Marathon was great theater: Two American runners, Alberto Salazar, a celebrated champion, and Dick Beardsley, a gutsy underdog, going at each other for just under 2 hours and 9 minutes. Neither man broke. The race merely came to a thrilling, shattering end, exacting such an enormous toll that neither man ever ran as well again. Beardsley, the most innocent of men, descended into felony drug addiction, and Salazar, the toughest of men, fell prey to depression. Exquisitely written and rich with human drama, John Brant's *Duel in the Sun* brilliantly captures the mythic character of the most thrilling American marathon ever run—and the powerful forces of fate that drove these two athletes in the years afterward.

Catching Fire Richard Wrangham 2010-08-06 In this stunningly original book, Richard Wrangham argues that it was cooking that caused the extraordinary transformation of our ancestors from apelike beings to Homo erectus. At the heart of *Catching Fire* lies an explosive new idea: the habit of eating cooked rather than raw food permitted the digestive tract to shrink and the human brain to grow, helped structure human society, and created the male-female division of labour. As our ancestors adapted to using fire, humans emerged as "the cooking apes". Covering everything from food-labelling and overweight pets to raw-food faddists, *Catching Fire* offers a startlingly original argument about how we came to be the social, intelligent, and sexual species we are today. "This notion is surprising, fresh and, in the hands of Richard Wrangham, utterly

persuasive ... Big, new ideas do not come along often in evolution these days, but this is one." -Matt Ridley, author of *Genome*

The Labyrinth of Love Michael Cantwell 2009-12 The Labyrinth of Love is a love story set amid the social and political upheavals of contemporary Mexico. The legend of the plumed serpent runs through the book, illuminating the theme of love and sacrifice and guiding the protagonist, Thomas Ryan, an aging American photographer, in his quest for love and artistic success. The hero's struggle takes place in the context of his relationship with Maria Lopez, a beautiful young Mexican woman. A central theme of the novel turns on the intrusiveness of the photographer in pursuit of his art. In two critical scenes, Ryan is forced to realize that he has exploited both his Mexican lover and a community of Mayan Indians for the sake of his career in the United States. The choice he ultimately makes transcends his ambition for fame and brings him to a surprisingly altered relationship with Maria.
