Music on the Move Danielle
Fosler-Lussier 2020-06-10
Music is a mobile art. When
people move to faraway places,
whether by choice or by force,
they bring their music along.
Music creates a meaningful

point of contact for individuals and for groups; it can encourage curiosity and foster understanding; and it can preserve a sense of identity and comfort in an unfamiliar or hostile environment. As music crosses cultural, linguistic, and political boundaries, it continually changes. While human mobility and mediation have always shaped music-making, our current era of digital connectedness introduces new creative opportunities and inspiration even as it extends concerns about issues such as copyright infringement and cultural appropriation. With its innovative multimodal approach, *Music on the Move* invites readers to listen and engage with many different types of music as they read. The text introduces a variety of concepts related to music's travels—with or without its makers—including colonialism, migration, diaspora, mediation, propaganda, copyright, and hybridity. The case studies represent a variety of musical genres and styles, Western and

non-Western, concert music, traditional music, and popular music. Highly accessible, jargon-free, and media-rich, *Music on the Move* is suitable for students as well as general-interest readers.

Crescendo of the Virtuoso

Paul Metzner 2018-05-28

During the Age of Revolution, Paris came alive with wildly popular virtuoso performances. Whether the performers were musicians or chefs, chess players or detectives, these virtuosos transformed their technical skills into dramatic spectacles, presenting the marvelous and the outré for spellbound audiences. Who these characters were, how they attained their fame, and why Paris became the focal point of their activities is the subject of Paul Metzner's absorbing study. Covering the years 1775 to 1850, Metzner describes the careers of a handful of virtuosos: chess masters who played several games at once; a chef who sculpted hundreds of four-foot-tall architectural fantasies in sugar; the first police

detective, whose memoirs inspired the invention of the detective story; a violinist who played whole pieces on a single string. He examines these virtuosos as a group in the context of the society that was then the capital of Western civilization. This title is part of UC Press's Voices Revived program, which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice, reach, and impact. Drawing on a backlist dating to 1893, Voices Revived makes high-quality, peer-reviewed scholarship accessible once again using print-on-demand technology. This title was originally published in 1999.

How I Became a Quant Richard R. Lindsey 2011-01-11 Praise

for How I Became a Quant "Led by two top-notch quants, Richard R. Lindsey and Barry Schachter, How I Became a Quant details the quirky world of quantitative analysis through stories told by some of today's most successful quants. For anyone who might have thought otherwise, there are engaging personalities behind all that number crunching!" -- Ira Kawaller, Kawaller & Co. and the Kawaller Fund "A fun and fascinating read. This book tells the story of how academics, physicists, mathematicians, and other scientists became professional investors managing billions." -- David A. Krell, President and CEO, International Securities Exchange "How I Became a Quant should be must reading for all students with a quantitative aptitude. It provides fascinating examples of the dynamic career opportunities potentially open to anyone with the skills and passion for quantitative analysis." --Roy D. Henriksson, Chief Investment Officer, Advanced Portfolio

Management "Quants"--those who design and implement mathematical models for the pricing of derivatives, assessment of risk, or prediction of market movements--are the backbone of today's investment industry. As the greater volatility of current financial markets has driven investors to seek shelter from increasing uncertainty, the quant revolution has given people the opportunity to avoid unwanted financial risk by literally trading it away, or more specifically, paying someone else to take on the unwanted risk. How I Became a Quant reveals the faces behind the quant revolution, offering you the chance to learn firsthand what it's like to be a quant today. In this fascinating collection of Wall Street war stories, more than two dozen quants detail their roots, roles, and contributions, explaining what they do and how they do it, as well as outlining the sometimes unexpected paths they have followed from the halls of academia to the front lines of

an investment revolution.

Brian Eno Eric Enno Tamm
1995-08-22 Musician,
composer, producer: Brian Eno is unique in contemporary music. Best known in recent years for producing U2's sensational albums, Eno began his career as a synthesizer player for Roxy Music. He has since released many solo albums, both rock and ambient, written music for film and television soundtracks, and collaborated with David Bowie, David Byrne, Robert Fripp, and classical and experimental composers. His pioneering ambient sound has been enormously influential, and without him today's rock would have a decidedly different sound. Drawing on Eno's own words to examine his influences and ideas, this book—featuring a new afterword and an updated discography and bibliography—will long remain provocative and definitive.

Trouble Boys Bob Mehr

2016-03-01 Trouble Boys is the first definitive, no-holds-barred biography of one of the last

great bands of the twentieth century: The Replacements. With full participation from reclusive singer and chief songwriter Paul Westerberg, bassist Tommy Stinson, guitarist Slim Dunlap, and the family of late band co-founder Bob Stinson, author Bob Mehr is able to tell the real story of this highly influential group, capturing their chaotic, tragic journey from the basements of Minneapolis to rock legend. Drawing on years of research and access to the band's archives at Twin/Tone Records and Warner Bros. Mehr also discovers previously unrevealed details from those in the group's inner circle, including family, managers, musical friends and collaborators.

Narrative and Discursive Approaches in Entrepreneurship Chris Steyaert 2005-01-01 . . . the four books comprising the series would certainly be a valuable addition to any entrepreneurship library. However, each book also stands alone as an individual

purchase. Lorraine Warren, International Journal of Entrepreneurial Behaviour and Research The book delivers what it promises: a map of the uses of narrative methods in entrepreneurship studies. It is both an interesting contribution to the field and an important methodological handbook for all entrepreneurship researchers who are thinking of adopting qualitative methods in their inquiries. However, it may also be read with advantage by other researchers using ethnography as their main methodological approach to social studies. . . The aim of the book is to show how narratives can enrich entrepreneurship studies, a goal that in my opinion is aptly fulfilled. Monika Kostera, Scandinavian Journal of Management . . . the contributors in this text breathe fresh and imaginative linguistic resources and narrative/discursive frames of reference into the inquiry of entrepreneurial activities. The anecdote, the narrative, the metaphorical, the discursive

and the dramaturgical are significant therefore, not only because they bring to the surface voices, emotions, processes and the relationality of (everyday) entrepreneurial activity that have possibly been previously silenced. But also, to paraphrase Steyaert, these approaches highlight the controversial and interactive aspects of the research process. . . The text is welcome because it treats narrative in a serious and scholarly way. Denise Fletcher, International Small Business Journal In their edited book Narrative and Discursive Approaches in Entrepreneurship, Daniel Hjorth and Chris Steyaert provide a fascinating glimpse into a perspective on entrepreneurship that will be enlightening for many readers. Entrepreneurship authors typically talk about theory, methods, and data as if a straight-forward linear process united them all, and making sense of entrepreneurship was simply a matter of knowing how to interpret one s findings . By contrast, the authors in

this volume propose narrative and discursive approaches in which the contributing authors emphasize rich description, reflexive conceptualization, and interpretations offered as part of the story itself. They draw upon an international set of cases, including Russia, Sweden, Denmark, Norway, Venezuela, and North America. The cases themselves make for fascinating reading, quite apart from what we learn about the difficulties of imposing a particular interpretation on a given story. For example, taxi drivers in Caracas, management consultants in Denmark, and women entrepreneurs in northern Norway all make for fascinating narratives from which to understand the entrepreneurial process. Unlike many edited books which have no plot , the editors have included opening and closing sections that link the chapters, offer alternative readings of them, and propose new and expansive ways of thinking about entrepreneurship. Howard

Aldrich, University of North Carolina at Chapel Hill, US Daniel Hjorth and Chris Steyaert set out to advance the study of entrepreneurship by refocusing the lens of discovery from economics, management and marketing to other paradigmatic stances in social sciences and humanities like anthropology and literary studies. The result is a provocative collection of chapters that inspire the reader to consider and explore new ideas and research practice that incorporate both the context and place of entrepreneurship. From the perceptive insights of the editors to the rigorous and provocative discourse of the chapters and thoughtful responses in the conclusion emerges a story, in the best of storytelling tradition, about how a linguistic turn can rouse new insights. The editors ask, how do these texts move you? they entice, provoke, challenge, stimulate and guide. Their implications should be far reaching and required reading for any student of t

The Tuning of the World R. Murray Schafer 1980
The Renewal of Pagan Antiquity Aby Warburg 1999 A collection of essays by the art historian Aby Warburg, these essays look beyond iconography to more psychological aspects of artistic creation: the conditions under which art was practised; its social and cultural contexts; and its conceivable historical meaning.
An Introduction to Language and Linguistics Ralph Fasold 2006-03-06 This accessible textbook is the only introduction to linguistics in which each chapter is written by an expert who teaches courses on that topic, ensuring balanced and uniformly excellent coverage of the full range of modern linguistics. Assuming no prior knowledge the text offers a clear introduction to the traditional topics of structural linguistics (theories of sound, form, meaning, and language change), and in addition provides full coverage of contextual linguistics,

including separate chapters on discourse, dialect variation, language and culture, and the politics of language. There are also up-to-date separate chapters on language and the brain, computational linguistics, writing, child language acquisition, and second-language learning. The breadth of the textbook makes it ideal for introductory courses on language and linguistics offered by departments of English, sociology, anthropology, and communications, as well as by linguistics departments.

The Signal Corps George Raynor Thompson 1966

The Golden Age of Automatic Musical Instruments Arthur A. Reblitz 2001 Image from the collections of Henry Ford Museum & Greenfield Village used on p. 14; neg. no. P.833.95043.2 Acc 1660.

Silent Film Sound Rick Altman 2004 Silent films were, of course, never silent at all. However, the sound that used to accompany the screen picture in the early days of cinema has been neglected as

an area of study. Altman explores the various musical, narrative, and even synchronized sound systems that enriched cinema before Jolson spoke.

The Cambridge History of Fifteenth-Century Music

Anna Maria Busse Berger 2015-07-16 Through forty-five creative and concise essays by an international team of authors, this Cambridge History brings the fifteenth century to life for both specialists and general readers. Combining the best qualities of survey texts and scholarly literature, the book offers authoritative overviews of central composers, genres, and musical institutions as well as new and provocative reassessments of the work concept, the boundaries between improvisation and composition, the practice of listening, humanism, musical borrowing, and other topics. Multidisciplinary studies of music and architecture, feasting, poetry, politics, liturgy, and religious devotion rub shoulders with studies of

compositional techniques, musical notation, music manuscripts, and reception history. Generously illustrated with figures and examples, this volume paints a vibrant picture of musical life in a period characterized by extraordinary innovation and artistic achievement.

Silence John Cage 1961-06

John Cage is the outstanding composer of avant-garde music today. The Saturday Review said of him: "Cage possesses one of the rarest qualities of the true creator- that of an original mind- and whether that originality pleases, irritates, amuses or outrages is irrelevant." "He refuses to sermonize or pontificate. What John Cage offers is more refreshing, more spirited, much more fun-a kind of carefree skinny-dipping in the infinite. It's what's happening now." -The American Record Guide "There is no such thing as an empty space or an empty time. There is always something to see, something to hear. In fact, try as we may to make a silence, we cannot. Sounds

occur whether intended or not; the psychological turning in direction of those not intended seems at first to be a giving up of everything that belongs to humanity. But one must see that humanity and nature, not separate, are in this world together, that nothing was lost when everything was given away."

The Buddha of Suburbia

Hanif Kureishi 2009-01-08

Winner of the Whitbread First Novel Award 'A wonderful novel. I doubt I will read a funnier one, or one with more heart, this year, possibly this decade.' Angela Carter, Guardian The hero of Hanif Kureishi's first novel is Karim, a dreamy teenager, desperate to escape suburban South London and experience the forbidden fruits which the 1970s seem to offer. When the unlikely opportunity of a life in the theatre announces itself, Karim starts to win the sort of attention he has been craving - albeit with some rude and raucous results. 'One of the best comic novels of growing up, and one of the sharpest

satires on race relations in this country that I've ever read.'

Independent on Sunday
'Brilliantly funny. A fresh, anarchic and deliciously unrestrained novel.' Sunday Times 'A distinctive and talented voice, blithe, savvy, alive and kicking.' Hermione Lee, Independent

Conquest of the Useless

Werner Herzog 2009-06-30

One of the most revered filmmakers of our time, Werner Herzog wrote this diary during the making of *Fitzcarraldo*, the lavish 1982 film that tells the story of a would-be rubber baron who pulls a steamship over a hill in order to access a rich rubber territory. Later, Herzog spoke of his difficulties when making the film, including casting problems, reshoots, language barriers, epic clashes with the star, and the logistics of moving a 320-ton steamship over a hill without the use of special effects. Hailed by critics around the globe, the film went on to win Herzog the 1982 Outstanding Director Prize at Cannes. Conquest of the

Useless, Werner Herzog's diary on his fever dream in the Amazon jungle, is an extraordinary glimpse into the mind of a genius during the making of one of his greatest achievements.

Strange Sweet Song Adi Rule 2014-03-11 Enrolling in a prestigious music academy where she ignores local myths about a monster in the nearby forest, Sing da Navelli struggles with doubts about her musical talent and trains under a mysterious young vocal coach who harbors dark secrets.

The Sound Reinforcement Handbook Gary Davis 1989 (Yamaha Products). Sound reinforcement is the use of audio amplification systems. This book is the first and only book of its kind to cover all aspects of designing and using such systems for public address and musical performance. The book features information on both the audio theory involved and the practical applications of that theory, explaining everything from microphones

to loudspeakers. This revised edition features almost 40 new pages and is even easier to follow with the addition of an index and a simplified page and chapter numbering system. New topics covered include: MIDI, Synchronization, and an Appendix on Logarithms. 416 Pages.

L, etcetera Susan Sontag 2013-10-01 In eight stories, this singular collection of short fiction written over the course of ten years explores the terrain of modern urban life. In reflective, telegraphic prose, Susan Sontag confronts the reader with exposed workings of an impassioned intellect in narratives seamed with many of the themes of her essays—the nature of knowing, our relationship with the past, and the future in an alienated present.

The American Community College Arthur M. Cohen 1982 This book is about American community colleges, during the period from 1965-1980, and presents a comprehensive study useful for everyone concerned with higher

education. It includes data summaries on students, faculty, curriculum, and many other quantifiable dimensions of the institutions. The data, descriptions, and analyses can be used by administrators--to learn about practices that have proved effective; curriculum planners--who anticipated program revision; faculty members--seeking ideas to modify their classes; and trustees and policy makers--for interesting financial and administrative guidelines.

Just the Way You Are Sheet Music Bruno Mars 2010-09-01 (Piano Vocal). This sheet music features an arrangement for piano and voice with guitar chord frames, with the melody presented in the right hand of the piano part, as well as in the vocal line.

Jane Eyre Charlotte Bronte 2021-01-07 Primarily of the bildungsroman genre, Jane Eyre follows the emotions and experiences of its title character, including her growth to adulthood, and her love for Mr. Rochester, the byronic master of fictitious

Thornfield Hall. In its internalisation of the action--the focus is on the gradual unfolding of Jane's moral and spiritual sensibility, and all the events are coloured by a heightened intensity that was previously the domain of poetry--Jane Eyre revolutionised the art of fiction. Charlotte Brontë has been called the 'first historian of the private consciousness' and the literary ancestor of writers like Joyce and Proust. The novel contains elements of social criticism, with a strong sense of morality at its core, but is nonetheless a novel many consider ahead of its time given the individualistic character of Jane and the novel's exploration of classism, sexuality, religion, and proto-feminism.

Quiet Susan Cain 2013-01-29
#1 NEW YORK TIMES
BESTSELLER • Experience the book that started the Quiet Movement and revolutionized how the world sees introverts—and how introverts see themselves—by offering validation, inclusion, and

inspiration “Superbly researched, deeply insightful, and a fascinating read, *Quiet* is an indispensable resource for anyone who wants to understand the gifts of the introverted half of the population.”—Gretchen Rubin, author of *The Happiness Project* NAMED ONE OF THE BEST BOOKS OF THE YEAR BY People • O: The Oprah Magazine • Christian Science Monitor • Inc. • Library Journal • Kirkus Reviews At least one-third of the people we know are introverts. They are the ones who prefer listening to speaking; who innovate and create but dislike self-promotion; who favor working on their own over working in teams. It is to introverts—Rosa Parks, Chopin, Dr. Seuss, Steve Wozniak—that we owe many of the great contributions to society. In *Quiet*, Susan Cain argues that we dramatically undervalue introverts and shows how much we lose in doing so. She charts the rise of the Extrovert Ideal throughout the twentieth century and explores how deeply it has

come to permeate our culture. She also introduces us to successful introverts—from a witty, high-octane public speaker who recharges in solitude after his talks, to a record-breaking salesman who quietly taps into the power of questions. Passionately argued, impeccably researched, and filled with indelible stories of real people, *Quiet* has the power to permanently change how we see introverts and, equally important, how they see themselves. Now with Extra Libris material, including a reader's guide and bonus content

També s'hi discuteixen qüestions d'ètica, maneres de recopilar i organitzar corpus plurilingües i multimodals, i d'escriure textos de recerca. Este manual es una guía para la investigación en educación plurilingüe. Se introducen conceptos de investigación colaborativa, investigación-acción, etnografía, análisis de la conversación y análisis del discurso mediado. También se discuten cuestiones de ética,

maneras de recopilar y organizar corpus plurilingües y multimodales, y de redactar textos de investigación.

Athenaeum and Literary Chronicle 1870

Corcoran Gallery of Art

Corcoran Gallery of Art 2011

This authoritative catalogue of the Corcoran Gallery of Art's renowned collection of pre-1945 American paintings will greatly enhance scholarly and public understanding of one of the finest and most important collections of historic American art in the world. Composed of more than 600 objects dating from 1740 to 1945.

Luxury Arts of the Renaissance Marina

Belozerskaya 2005-10-01

Today we associate the Renaissance with painting, sculpture, and architecture—the “major” arts. Yet contemporaries often held the “minor” arts—gem-studded goldwork, richly embellished armor, splendid tapestries and embroideries, music, and ephemeral multi-media spectacles—in much higher

esteem. Isabella d’Este, Marchesa of Mantua, was typical of the Italian nobility: she bequeathed to her children precious stone vases mounted in gold, engraved gems, ivories, and antique bronzes and marbles; her favorite ladies-in-waiting, by contrast, received mere paintings. Renaissance patrons and observers extolled finely wrought luxury artifacts for their exquisite craftsmanship and the symbolic capital of their components; paintings and sculptures in modest materials, although discussed by some literati, were of lesser consequence. This book endeavors to return to the mainstream material long marginalized as a result of historical and ideological biases of the intervening centuries. The author analyzes how luxury arts went from being lofty markers of ascendancy and discernment in the Renaissance to being dismissed as “decorative” or “minor” arts—extravagant trinkets of the rich unworthy of the status of Art. Then, by re-

examining the objects themselves and their uses in their day, she shows how sumptuous creations constructed the world and taste of Renaissance women and men.
