Combat Leader to Corporate Leader Chad Storlie 2010-04-09 A business professional who is a 19-year U.S. Army combat veteran offers

this one-of-a-kind book showing fellow veterans how to leverage their military experience and training to produce superior business and career results. Military training and experience provide a superb foundation for excelling in business. The executive search firm Korn Ferry discovered in a 2006 study that CEOs with military experience out-performed their civilian peers.

Combat Leader to Corporate Leader: 20 Lessons to Advance Your Civilian Career outlines 20 lessons describing how veterans can apply their universal military training to succeed and excel in the business world. Combat Leader to Corporate Leader teaches Army, Navy, Marine, and Air Force veterans and non-military professionals how to apply successfully the skills that have made the U.S. military successful. The book is divided into four sections and aligned with military combat planning tools: (1) understanding the company and business environment, (2) planning a robust solution, (3) rigorous execution to meet the plan's goals, and (4) improving people and process for better results. Each section offers specific examples, advice, and formats that directly address the challenge of translating military experience into business skill sets. Among other issues, the book will teach vets how to showcase military experience and value to get hired, how to apply combat experience to a career in business, how

to avoid the mistakes veterans commonly make in the workplace, and how to customize and translate their own unique military experiences to their business. At the conclusion of the book, veterans and non-veterans alike will have the skills to understand, plan, execute, and improve their careers and business ventures.

The Making of Strategy Williamson Murray 1996-05-31 Most writing about strategy has focused on individual strategic theorists or great military leaders. This book focuses instead on the messy processes by which rulers and states have framed strategy in the past - a subject of vital practical importance to strategists, and of great interest to students of strategy and statecraft. It consists of 17 case studies that range from fifth-century Athens and Ming China to Hitler's Germany, Israel, and the post-1945 United States. The studies analyse, within a common interpretive framework, precisely how rulers and states have made strategy. The introduction emphasises the constants in the

Naval and Overseas War, 1916-1918 Trevor Nevitt Dupuy, Grace Person Hayes 1967

Is the Army Developing Strategic Leaders? Case Studies of General George Marshall,

William Westmoreland, and Eric Shinseki, World-Class Warriors, Army Doctrine, Laws and Officer Grade Limitation Act U. S. Military 2017-01-24 Given today's strategic environment and the demand put on the officer corps at every level, is the Army currently developing strategic leaders? The US Army doctrine and the Strategic Studies Institute (SSI) provide a definition and list of competencies that outlines what a strategic leader should possess. With that definition and list of competencies, the researcher will examine three military leaders, showing linkage to doctrine, which will illustrate examples of this doctrinal definition. Once this is established the research will illustrate the evolution over the last 70 years of the Officer Personnel Management System, through laws passed by Congress that set policy for the Army to arrive at its current system. The research showed that the current Officer Personnel Management System prepares officers to be strategic leaders. CHAPTER 1 - INTRODUCTION

pushes for tactical assignments and if time allows, an officer can have a broadening assignment. Because of the fixed timeline an officer must complete certain assignments before their promotion board to be considered for the next rank. Without completing the required 24 month key development time (tactical assignment prescribed in DA Pam 600-3 his or her branch, an officer would not be considered for the next rank. For example, a Major leaving the Command and General Staff College (CGSC) generally has five years before his or her Lieutenant Colonel board. The time constraint before this board can limit the opportunity for an officer to broaden themselves outside the normal tactical assignments. Majors must have successful evaluations in their key development (KD) jobs and others to be competitive to be promoted to the next rank.

Leaders and Generals Craig E. Blohm 2001-06 This book tells of General John J. Pershing; Germany's tactician, General Erich Ludendorff;

General Philippe Petain; Marshal Ferdinand Foch; and President Woodrow Wilson. *Military History Of World War I, Bd. 12* Trevor N. Dupuy 1967

Leadership Christopher Kolenda 2021-09-20 The late Lt. General Harold Moore (USA, Ret.) said it's the "absolute best book on military leadership in peace and war." This book is for military leaders who want to inspire their teams to achieve their best in combat and peacetime. This wide-ranging anthology brings together noted military minds as they examine the crucial role of leadership in combat, relate the lessons learned, and apply the principles to the stressful world of business. The book covers classic and modern concepts of leadership and uses case studies from Alexander the Great through post-9/11 wars to illustrate the principles of leadership in concrete historical contexts. The most important, most penetrating analysis of military leadership to emerge in a generation, this seminal work features leaders of the armed

forces as they learn from the past and present and look toward the future. This edition is fully updated with inclusive language and chapters that speak to leading in a diverse world and organized with summary points for each chapter for a quick overview of essentials.

Summary: Leading the Charge BusinessNews Publishing, 2014-10-28 The must-read summary of Tony Zinni and Tony Koltz's book: "Leading the Charge: Leadership Lessons from the Battlefield to the Boardroom". This complete summary of the ideas from Tony Zinni and Tony Koltz's book "Leading the Charge" shows that, at one time, leadership was mostly about character, but character alone won't be enough anymore. Today's world involves a challenging worldwide economy, the collapse of iconic companies which have been in business for decades and the ever increasing threat of global terrorism. Tomorrow's most successful leaders will have to negotiate a far more fluid world. In their book, the authors explain eleven qualities

the most successful leaders in recent times have cultivated, making this summary a must-read for all leaders who want to learn the techniques used by the best and find out how to survive the changes in today's world. Added-value of this summary: • Save time • Understand key concepts • Expand your knowledge To learn more, read "Leading the Charge" and discover the key traits of the world's greatest leaders and how you can adopt them.

Summary: Duty, Honor, Company BusinessNews Publishing, 2013-02-15 The must-read summary of Gil Dorland and John Dorland's book: "Duty, Honor, Company: West Point Fundamentals for Business Success". This complete summary of the ideas from Gil Dorland and John Dorland's book "Duty, Honor, Company" shows how most people agree that business is war, with the primary goal of winning market share and making money. In their book, the authors explain how you can study the strategies that succeed in military battles in order to gain an insight into what is likely to succeed in the business arena. By reading this summary, you will learn how you can apply the three essential

military pillars of West Point to your business and guarantee victory over the competition. Added-value of this summary: • Save time • Understand key concepts • Expand your business knowledge To learn more, read "Duty, Honor, Company" and find out how you can study the military field to form the best competitive strategy.

The First 90 Days Michael Watkins 2003 Whether challenged with taking on a startup, turning a business around, or inheriting a high-performing unit, a new leader's success or failure is determined within the first 90 days on the job. In this hands-on guide, Michael Watkins, a noted expert on leadership transitions, offers proven strategies for moving successfully into a new role at any point in one's career. The First 90 Days provides a framework for transition acceleration that will help leaders diagnose their situations, craft winning transition strategies, and take charge quickly. Practical examples illustrate how to learn about new organizations,

build teams, create coalitions, secure early wins, and lay the foundation for longer-term success. In addition, Watkins provides strategies for avoiding the most common pitfalls new leaders encounter, and shows how individuals can protect themselves-emotionally as well as professionally-during what is often an intense and vulnerable period. Concise and actionable, this is the survival guide no new leader should be without. "Few companies develop a systematic 'on-boarding' process for their new leaders, even though this is a critical function with major organizational implications. Michael Watkins's *The First 90 Days* provides a powerful framework and strategies that will enable new leaders to take charge quickly. It is an invaluable tool for that most vulnerable time-the transition." -Goli Darabi, Senior Vice President, Corporate Leadership & Succession Management, Fidelity Investments "Every job-private- or public-sector, civilian or military-has its breakeven point, and everyone can accelerate

their learning. Read this book at least twice: once before your next transition-before getting caught up in the whirl and blur of new faces, names, acronyms, and issues; then read it again after you've settled in, and consider how to accelerate transitions for your next new boss and for those who come to work for you." - Colonel Eli Alford, U.S. Army "Watkins provides an excellent road map, telling us what all new leaders need to know and do to accelerate their learning and success in a new role. The First 90 Days should be incorporated into every company's leadership development strategy, so that anyone making a transition in an organization can get up to speed quicker and smarter." -Suzanne M. Danielle, Director of Global Leadership Development, Aventis "Michael Watkins has nailed a huge corporate problem and provided the solution in one fell swoop. The pressure on new leaders to hit the ground running has never been greater, and the likelihood and cost of failure is escalating.

Watkins's timing with The First 90 Days is impeccable." -Gordon Curtis, Principal, Curtis Consulting "The First 90 Days is a must-read for entrepreneurs. Anyone who's been the CEO of a start-up or early-stage company knows that you go through many 90-day leadership transitions in the course of a company's formative years. In this groundbreaking book, Michael Watkins provides crucial insights, as well as a toolkit of techniques, to enable you to accelerate through these transitions successfully." -Mike Kinhead, President and CEO, timeBLASTER Corporation, serial entrepreneur, and Cofounder and Trustee, Massachusetts Software Council

Leadership Strategy and Tactics Jocko Willink

2020-01-14 The ultimate guide on leadership from the #1 New York Times bestselling co-author of Extreme Ownership. In the military, a field manual provides instructions in simple, clear, step-by-step language to help soldiers complete their mission. In the civilian sector, books offer information on everything from fixing a leaky faucet to developing an effective workout program to cooking a good steak. But what if you are promoted into a new position leading your former peers? What if you don't get

selected for the leadership position you wanted? How do you overcome imposter syndrome, when you aren't sure you should be leading? As a leader, how do you judiciously dole out punishment? What about reward? How do you build trust with your both your superiors and your subordinates? How do you deliver truthful criticism up and down the chain of command in a tactful and positive way? These are all questions about leadership—the most complex of all human endeavors. And while there are books out there that provide solid leadership principles, books like *Extreme Ownership* and *The Dichotomy of Leadership*, there is no leadership field manual that provides a direct, situational, pragmatic how-to guide that anyone can instantly put to use. Until now. *Leadership Strategy and Tactics* explains how to take leadership theory, quickly translate that theory into applicable strategy, and then put leadership into action at a tactical level. This book is the solution that leaders at every level need—not

just to understand the leadership game, but also how to play the leadership game, and win it. *SUMMARY - Leadership Strategy And Tactics: Field Manual By Jocko Willink* Shortcut Edition 2021-06-26 * Our summary is short, simple and pragmatic. It allows you to have the essential ideas of a big book in less than 30 minutes. As you read this summary, you will discover the tools and strategies to put into practice to become a good leader. You will also discover : the six fighting laws to apply to leadership; how to maintain good relations with your team; that leadership is innate but also develops with experience; how to set up a participative management; why it is necessary to adapt missions to the personalities of your team members. The Navy SEALs, an acronym for Sea, Air and Land, are an elite corps of the U.S. Navy. According to them, leadership is learned in the field. The key is to have a superior who is a good leader. Above all, he or she must know how to motivate you to do what is necessary to support

Clausewitz on Strategy Tiha von Ghyczy
2001-05-07 Think about strategy and sharpen judgment in an unpredictable environment Carl von Clausewitz is widely acknowledged as one of the most important of the major strategic theorists; he's been read by Eisenhower, Kissinger, Patton, Chairman Mao, and numerous other leaders. In *Clausewitz on Strategy*, the Boston Consulting Group's Strategy Institute has excerpted those passages most relevant to business strategy from Clausewitz's classic text *On War*, the most general, applicable, and enduring work of strategy in the modern West

and a source of insight into the nature of conflict, whether on the battlefield or in the boardroom. This book offers Clausewitz's framework for self-education--a way to train the reader's thinking. Clausewitz speaks the mind of the executive, revealing logic that those interested in strategic thinking and practice will find invaluable. He presents unique ideas, such as the idea that friction--unexpected interference--is an intrinsic part of strategy. The Boston Consulting Group is one of the world's leading management consulting firms whose clients include many of the world's industry leaders. Tiha von Ghyczy (Charlottesville, VA) has been a faculty member and Director of Business Projects at the Darden School of Business since 1996. While with The Boston Consulting Group, he assumed responsibility for the practice groups in manufacturing/time-based competition and high technology. He has published numerous articles and books on vision and strategy. Bolko von Oetinger (Munich,

Strategic Theory for the 21st Century: The Little Book on Big Strategy

Positioning: The Battle for Your Mind Al

Ries 2001-01-03 The first book to deal with the problems of communicating to a skeptical, media-blitzed public, Positioning describes a revolutionary approach to creating a "position" in a prospective customer's mind-one that reflects a company's own strengths and weaknesses as well as those of its competitors. Writing in their trademark witty, fast-paced style, advertising gurus Ries and Trout explain how to: • Make and position an industry leader so that its name and message wheedles its way into the collective subconscious of your market-and stays there • Position a follower so that it can occupy a niche not claimed by the leader • Avoid letting a second product ride on the coattails of an established one. Positioning also

shows you how to: • Use leading ad agency techniques to capture the biggest market share and become a household name • Build your strategy around your competition's weaknesses • Reposition a strong competitor and create a weak spot • Use your present position to its best advantage • Choose the best name for your product • Determine when-and why-less is more • Analyze recent trends that affect your positioning. Ries and Trout provide many valuable case histories and penetrating analyses of some of the most phenomenal successes and failures in advertising history. Revised to reflect significant developments in the five years since its original publication, Positioning is required reading for anyone in business today.
