[The Legacy of 9/11](#) Andrea Charron 2023-07-15

While 9/11 was understood at the time as a world-changing event in international relations, its uneven aftermath and the long-term effects for North America could not have been predicted. Twenty years later, *The Legacy of 9/11* explores the political, economic, security and defence, and trade and border implications of the event. Written by a team of North American experts across many fields, the book foregrounds the fallout of 9/11 in Mexico and Canada as opposed to the more commonly discussed impact on the United States. Looking at the event and its aftermath through four lenses - ideas about North America; border, trade, and economics; security and society; and defence - contributors analyze the complex legacy of 9/11. Rather than serving as a catalyst to create an integrated, trilateral continent, 9/11 entrenched the North America we have today: three separate states with emphasis on two very different borders. From a reconsideration of internationalism, a rise in populism, and a shift in migration patterns to the interventions in Afghanistan and Iraq, *The Legacy of 9/11* uncovers how successive North American governments reacted in surprising ways to the world-altering attack.

Tijuana Straits Kem Nunn 2013-09-17 From Kem Nunn, the National Book Award-nominated

author of *Tapping the Source* and *The Dogs of Winter*, comes an exquisitely written tale of loss and redemption. Nunn renders the dangerous beaches and waters of California's borderland as only the critically acclaimed poet laureate of surf noir can, and Tijuana Straits confirms his reputation as a master of suspense and a novelist of the first rank. When Fahey, once a great surfer, now a reclusive ex-con, meets Magdalena, she is running from a pack of wild dogs along the ragged wasteland where California and Mexico meet the Pacific Ocean -- a spot once known to the men who rode its giant waves as the Tijuana Straits. Magdalena has barely survived an attack that forced her to flee Tijuana, and Fahey takes her in. That he is willing to do so runs contrary to his every instinct, for Fahey is done with the world, seeking little more than solitude from this all-but-forgotten corner of the Golden State. Nor is Fahey a stranger to the lawless ways of the border. He worries that in sheltering this woman he may not only be inviting further entanglements but may be placing them both at risk. In this, he is not wrong. An environmental activist, Magdalena has become engaged in the struggle for the health and rights of the thousands of peasants streaming from Mexico's enervated heartland to work in the maquiladoras -- the foreign-owned factories that line her country's border, polluting its air and fouling its rivers. It is a risky contest. Danger can come from many directions, from government officials paid to preserve the status quo to thugs hired to intimidate reformers. As

Magdalena and Fahey become closer, Magdalena tries to discover who is out to get her, attempting to reconstruct the events that delivered her, battered and confused, into Fahey's strange yet oddly seductive world. She examines every lead, never guessing the truth. For into this no-man's-land between two countries comes a trio of killers led by Armando Santoya, a man beset by personal tragedy, an aberration born of the very conditions Magdalena has dedicated her life to fight against, yet who in the throes of his own drug-fueled confusions has marked her for death. And so will Fahey be put to the test, in a final duel on the beaches of his Tijuana Straits.

San Diego's Hybrid Urban Borderlands

Albert Rossmeier 2023-08-29 This study aims for a wider understanding of the redevelopment processes that emerged several decades ago in downtown San Diego and now gradually spread over the downtown edges into the inner ring. Perspectively situated in the fields of urban landscape and urban border studies, the research project outlines how the eastward 'redevelopment wave' in San Diego contests socialized neighborhood (boundary) perceptions by transforming the former first-tier suburbs from disinvested communities into 'urban villages' and trendy places to be. The study shows how the redevelopment perforates, dissolves, and shifts socialized, linear neighborhood boundaries into areas that are simultaneously part of the one and the other neighborhood. In the present work, the resulting, rather undefined or stretched border areas have been referred to as hybrid urban

borderlands. This notion is a novel conceptual approach that can be deemed a promising lens for future studies on neighborhood change, urban redevelopment, and socio-spatial re-interpretation beyond the context of San Diego.

Dolores at Fort Hood, Tijuana and Detroit John Jellinek 2010-09-17 An unsung American heroine, Dolores a nurse in surgery is betrayed by her own kind: doctors! The first one, a gynecologist, keeps her waiting for 3 months before he does a D & C, and by way of a biopsy, finds out she has cervical cancer. At first he is going to do a radical hysterectomy, changes his mind, and dumps her on a radiologist with a non-existent Stage IC diagnosis report. The radiologist, not knowing his Merck Manual too well, convinces her that radiology is as effective as a hysterectomy operation for any Stage I cervical cancer. A year later, the cancer had

metastasized. She receives chemotherapy and becomes very religious. The tumors disappear and she believes she is healed. However, three months later her health deteriorates, again. The husband and Dolores meet a lady cured of lung cancer by a strict metabolic diet and Laetrile pills. This happens while he is on a 3 month tour of duty assignment at Fort Hood, Texas as a civilian engineer for the US Army Tank-Automotive Command. On her advice and a talk with the doctor in Mexico they take a chance to cure Dolores with a trip to Clinica Cydel in Tijuana. After a few days of Laetrile treatment, but inability to hold down food, Dolores collapses and she is hospitalized at Dr. Contreras Hospital del Mar. She is put on a plane from San Diego to Detroit 3 weeks later, but rapidly breaks down in health. Her last day out, she attends a faithful Christian service conducted by evangelist Nora Lam. Dolores expires 4 months later.

Homeland Security [3 volumes] James J. F. Forest 2006-06-30 America is a target; the homeland is under threat. While Americans have been targets of terrorist attacks for quite some time, September 11, 2001, awoke the nation to the reality that we are vulnerable in our homes, our places of work and worship, and our means of public transportation. And yet, we must continue to function as best we can as the world's most vibrant economic and political community. The current threat environment requires greater engagement with the public, as the necessary eyes and ears of the nation's homeland security infrastructure. However, to be effective, the public must be equipped with the knowledge of where and why specific locations and activities may be a terrorist target, what is being done to protect those targets, and how they can help. This three-volume set answers that need. The chapters of each volume of Homeland Security revolve around a core of central questions. Are we safer today than we were pre-9/11? What steps have been taken in all these areas to protect ourselves? What are the threats we face, and what new threats have

developed since 9/11? Are we staying one step ahead of those who wish to do us harm? In 2002, more than 400 million people, 122 million cars, 11 million trucks, 2.4 million freight cars, and 8 million containers entered the United States. Nearly 60,000 vessels entered the United States at its 301 ports of entry. Clearly the amount of activity this represents will require a long-term commitment to innovation, organizational learning, and public vigilance to complement an already overstretched network of government agencies and security professionals.

Unequal Neighbors Kristen Hill Maher 2021 San Diego and Tijuana are the site of a national border enforcement spectacle, but they are also neighboring cities with deeply intertwined histories, cultures, and economies. In *Unequal Neighbors*, Kristen Hill Maher and David Carruthers shift attention from the national border to a local one, examining the role of place stigma in reinforcing actual and imagined inequalities between these cities. While the details of the book are particular to this corner of the world, the kinds of processes it documents offer a window into the making of unequal neighbors more broadly. The dynamics at the Tijuana border present a framework for understanding how inequalities that manifest in cultural practices produce asymmetric borders between places.
