**Suicide of the West** Jonah Goldberg 2020-01-14 NEW YORK TIMES BESTSELLER • An urgent argument that America and other democracies are in peril because they have lost the will to defend the values and institutions that sustain freedom and prosperity. Now updated with a new preface! “Epic and debate-shifting.”—David Brooks, New York Times Only once in the last 250,000 years have humans stumbled upon a way to lift ourselves out of the endless cycle of poverty, hunger, and war that defines most of history. If democracy, individualism, and the free market were humankind’s destiny, they should have appeared and taken hold a bit earlier in the evolutionary record. The emergence of freedom and prosperity was nothing short of a miracle. As Americans we are doubly blessed, because the radical ideas that made the miracle possible were written not just into the Constitution but in our hearts, laying the groundwork for our uniquely prosperous society. Those ideas are: • Our rights come from God, not from the government. • The

government belongs to us; we do not belong to it. • The individual is sovereign. We are all captains of our own souls, not bound by the circumstances of our birth. • The fruits of our labors belong to us. In the last few decades, these political virtues have been turned into vices. As we are increasingly taught to view our traditions as a system of oppression, exploitation, and privilege, the principles of liberty and the rule of law are under attack from left and right. For the West to survive, we must renew our sense of gratitude for what our civilization has given us and rediscover the ideals and habits of the heart that led us out of the bloody muck of the past—or back to the muck we will go.

**Kate Chopin: The Awakening - Edna's suicide: The Awakening to inner freedom** Nicola Dürr 2004-04-18 Seminar paper from the year 2003 in the subject English Language and Literature Studies - Literature, grade: 1,7 (A-), University of Freiburg (English Seminar), course: Seminar, language: English, abstract: In this research paper I will analyse the main character of Kate Chopin's The Awakening, Edna Pontellier, and discuss reasons for her suicide. Edna step by step relieves herself from the obligations of her surrounding and undergoes a development that leads to new strength and independence. However, Edna never succeeds in reaching full individuality and goes the only possible way: she commits suicide. The novel gives several hints that lead to the conclusion that Edna's suicide is an act of liberalization. Edna is surrounded by a society she cannot identify with and does not want to be part of. The role of the woman in the 19th century was clearly limited to being a mother and wife. Edna does not feel satisfied with this life, as she desires to make her own rules and decisions. During her awakening, she breaks free from the social conventions and tries to lead an independent life. Yet although Edna begins to be independent, the only way she can complete her intention is to commit suicide.

**On Suicide** Jean Amery 1999-07-22 On Suicide is neither a defense of suicide nor an invitation to assisted suicide, but an analysis of the state of mind of those who are suicidal and who actually do commit suicide. It is also a strident defense of the freedom of the individual and a plea for the recognition of the fact that we belong to ourselves before belonging to another person, or an institution, nation, or religion, and that our right to choose to end our life can have priority over social entanglements and biological destiny. Book jacket.

**A Date to Die** Rion Mary Gabriel 2014-10-15 The news of my brother's suicide "rubbed me raw like sandpaper." Joey and I were born on the same day, eleven years apart, and for me, we would die on the same day eleven years apart—destiny and "my promise." I waited nine years to grieve. I kept "my promise" to myself for ten long years. The grief from suicide is more traumatic than a "normal" grief. My other promise was to stay sober in Joey's honor. I failed sobriety quickly, drinking to numb my life and no longer for fun and relaxation. I wish I could say my brother's suicide and our alcoholism are the end of this memoir, but my sobriety revealed I had mental health problems. Unfortunately, a correct diagnosis took years. After sobriety, I tried multiple self-harm behaviors to bring about a sudden rush of adrenaline. This contributed to my 9 year "career" of at least 30 trips to mental health hospitals. Thank God I stumbled upon something to bring the miracle of life to me. "With suicide being more than double that of homicide in the United States, answers are challenging to find. The reader will learn how to work with someone who is standing on that ledge of life and leaning toward death as their solution. Most often when those who have lost someone to suicide inform our clinical work it is by sharing their story in hopes of sparing others the torment that they experienced ..." -Dr. Michael Arch, PhD, LCSW, CT

**Destiny & Death** Dale M Chatwin 2019-06-28 Dalton Chetwynd is woken by a phone call from a voice from the past. His best friend has committed suicide. The news summons him from his ten-year exile out of the small coastal town of Southsea back to his hometown, Sedgley, where he must face the life he left behind. In Sedgley there are memories. Some are memories of leaving school and facing the wide world, of camping and sitting around the fire talking about the future, of music and poetry, of swearing and joking, of smoking and partaking in drugs, of friendship and love. Memories of a youthful life lived in a small town in the post-industrial wastelands of the Black Country. But there are memories of darkness, of a cosmic horror that stalked the residents of Sedgley one fateful summer. Memories that drove Dalton into exile, of Lurkers in the shadows carrying his friends off into the celestial underbelly of the cosmos to be experimented on for

some eerie purpose. Ten years later Dalton has returned, so have the memories, and so have the Lurkers.

**Suicide Risk #21** Mike Carey 2015-01-14 Faced with either protecting the false family he's come to love, or the real, violent one he left behind the F.A.U.L.T.Line, the rift between Leo's past and present begins to violently pull apart. **Suicide of the West** James Burnham 1985 James Burnham's 1964 classic, *Suicide of the West*, remains a startling account on the nature of the modern era. It offers a profound, in depth analysis of what is happening in the world today by putting into focus the intangible, often vague doctrine of American liberalism. It parallels the loosely defined liberal ideology rampant in American government and institutions, with the flow, ebb, growth, climax and the eventual decline and death of both ancient and modern civilizations. Its author maintains that western suicidal tendencies lie not so much in the lack of resources or military power, but through an erosion of intellectual, moral, and spiritual factors abundant in modern western society and the mainstay of liberal psychology. Devastating in its relentless dissection of the liberal syndrome, this book will lead many liberals to painful self-examination, buttress the thinking conservative's viewpoint, and incite others, no doubt, to infuriation. None can ignore it.

**Harvesting Hope in the Suicide Zone** Radheshyam Jadhav 2018-11-18 As the flames danced all around her small hut, Vidya More had to make a hard choice. She could follow her husband into the fire along with her children. Or she could save herself and her little children from a terrible death. Acclaimed journalist Radheshyam Jadhav brings to readers true inspiring stories of women farmers and farm widows, like Vidya and many more, from the 'farmer suicide zone' of Maharashtra. These women have battled the tremendous odds-of poverty, misogyny and inequity-stacked against them to herald a silent revolution to overcome agrarian crisis. These feisty women wake up every morning and battle for survival. Suicide, unlike their husbands, is a luxury they can't afford. Extensively researched along with personal interviews, the book captures the women's stories and constructive struggle and how they discovered in themselves endless reserves of strength. While the men are driven to despair and death by debts, the women have fought their battles and found answers to the crisis. These simple, and often uneducated, women have developed their own methodology and science to manage and tackle drought and are experimenting with every possible option to give themselves and their families a life of dignity. They have taken up tough challenges and are sowing determination and hard work to achieve their dreams. The book captures their belief that dreams often come true. And hope is what keeps life going.
