Learn Spanish Garcia Ammons 2016-12-28 Are you ready to learn 1000+ spanish words in the next 60 minutes? You've probably been wasting time studying. If you've been using traditional language learning tools like classes or software to teach you Spanish - I can almost guarantee it. These classes focus on memorization, basic vocabulary, routine phrases and conversations. And, naturally, these are all important. But, here's the thing - Most traditional Spanish classes are missing critical information that could save you hours of time and effort. It's what these courses DON'T teach you that leads to hours of unnecessary time wasted studying. They don't teach you the critical principles that allow you to master the knowledge in minutes - NOT hours. (by the way, if you've had difficulty learning, it's probably because you didn't have the right methods to make it easy). You might not believe this, but: You can significantly improve your Spanish vocabulary, right now. Instead of wasting time studying using traditional methods, you could be using effective techniques to increase your vocabulary TODAY. These methods will show you how you can learn hundreds of new Spanish words in less time than it takes you to eat lunch, AND know them forever, not just for a few minutes or long enough to take the test. How is this possible? Let me explain. I've found proven strategies for increasing your learning speed - habits, techniques, and tactics that will put the jet fuel in your language learning. These strategies were not easy to find. And guess what? I'm a native bilingual speaker! I personally use these to make connections between large sets of words, and learn new ones without hours of memorization (even in other languages like French and Italian). I can promise you that these high-leverage techniques will save you time and put you on the fast-track towards fluency in Spanish. But know this - This is not a 'How to Learn Spanish from Scratch' book. Not even close. What it is: a condensed guide that shows you the best practices for rapidly increasing your vocabulary and becoming fluent in Spanish. I've kept the book short and easy to understand, so that you can get started using these as soon as possible! (I'm trying to save you time after all, not make you read another 300+ page book). So, I've laid out the overlooked principles, common pitfalls, and language shortcuts in a way that anyone can understand and start using immediately. What's inside Introduction Tip # 1: Latin Is Your Friend Tip # 2: The Dialect Dilemma Tip # 3: The Components of Language Learning Tip # 4: Ditch the Dictionary! Tip # 5: Avoid Programmed Conversations Tip # 6: Practice Conversing with a Conversation Swap Tip # 7: Invest in an App Tip # 8: Word Endings Are Your Friend The 7 simple Language Shortcuts to learn 1000+ words quickly Language Shortcuts The core of this book is the list of what I call "language shortcuts" that are consequences of the similarities between English and Spanish. For example: English words that end in -ant stem from a certain group of words that also exist in most other romance languages. In particular, these words also exist in Spanish, but the suffix of the words in Spanish is -ante instead of -ant. So the English word "arrogant" translates to "arrogante" in Spanish. The word "brilliant" translates to "brillante," and so on. So, don't waste anymore time. Change your strategy, and take yourself to the next level - get yourself a copy of this book right now.

[Learn Spanish The Gringa Way](#) Erin Ashley Sieber 2014-09-25 Step into a new world of learning, in which the journey itself is actually fun and exciting! The Gringa has taken a somewhat "non traditional" approach toward teaching the Spanish language to English speakers. In doing so, she pioneered a system, The Gringa Way, which allows learners to translate their English thoughts into Spanish thoughts and sentences. This total "new approach" not only makes the language much easier to learn and understand but it transforms what many thought was "impossible" and makes it completely achievable. Many people have been totally overwhelmed by the "strict rules" and vast grammatical differences they discovered when trying the "old" and "traditional" methods of learning usable Spanish - so they quit - saying it is simply way too hard and frustrating. With The Gringa Way method and the help of this book, you will be speaking Spanish easier than you ever thought possible.

Why not treat your brain and go about it the natural way? That's right, your brain has a natural way of learning language, and you simply aren't taking advantage of it. Our brains are hardwired to act on a complex system of concepts and context clues in order to figure out language. This is why most polyglots in the world will tell you that the absolute best way to learn a language is by simply immersing yourself in it. With this book, you'll be going through different short stories, all of which following the story of a girl named Maria and her kind family from El Salvador. Throughout the short stories, you'll be challenged and pushed to your limits - that's how you know the method is working. You'll never be left in the dust, but you will most certainly be immersed in the beautiful Spanish language. After every short story, there's an English version, in case you got totally lost, and a section with grammar tips and vocabulary to help you round out every short story with a proper lesson. Learn Languages Do you need to learn a language? This is the place to do it, no questions asked. This book uses a combination of orthodox immersion methods in order to make you go in one end a complete newbie to a language and come out the other a fluent speaker. Through encouragement, motivation, rational observation, and careful breaking down of key concepts into malleable bite-sized chunks, this book makes

learning language easier than it's ever been before. What makes this book better than other language books which tell you how to do something similar? The fact that this is the same exact method I've used to study several languages. I know that anecdotal evidence doesn't mean much, but there's genuine merit to the methods contained in this book, and if you give it a chance, then you'll see for yourself that there's no method to language learning out there that is as effective as this one proves itself to be.
