*The Big Book of the Continental Op* Dashiell Hammett 2017-11-28 Now for the first time ever in one volume, all twenty-eight stories and two serialized novels starring the Continental Op—one of the greatest characters in storied history of detective fiction. Dashiell Hammett is the father of modern hard-boiled detective stories. His legendary works have been lauded for almost one hundred years by fans, and his

novel *The Maltese Falcon* was adapted into a classic film starring Humphrey Bogart. One of Dashiell Hammett's most memorable characters, the Continental Op made his debut in *Black Mask* magazine on October 1, 1923, narrating the first of twenty-eight stories and two novels that would change forever the face of detective fiction. The Op is a tough, wry, unglamorous gumshoe who has inspired a following that is both global and enduring. He has been published in periodicals, paperback digests, and short story collections, but until now, he has never, in all his ninety-two years, had the whole of his exploits contained in one book. The book features all twenty-eight of the original standalone Continental Op stories, the original serialized versions of *Red Harvest* and *The Dain Curse*, and previously unpublished material. This anthology of Continental Op stories is the only complete, one-volume work of its kind.

Illuminations Walter Benjamin 1968-10-23

Essays and reflections from one of the twentieth century's most original cultural critics, with an introduction by Hannah Arendt. Walter Benjamin was an icon of criticism, renowned for his insight on art, literature, and philosophy. This volume includes his views on Kafka, with whom he felt a close personal affinity; his studies on Baudelaire and Proust; and his essays on Leskov and Brecht's epic theater. *Illuminations* also includes his penetrating study "The Work of Art in the Age of Mechanical Reproduction," an enlightening discussion of translation as a literary mode; and his theses on the philosophy of history. Hannah Arendt selected the essays

for this volume and introduces them with a classic essay about Benjamin's life in a dark historical era. Leon Wieseltier's preface explores Benjamin's continued relevance for our times. Walter Benjamin (1892-1940) was a German-Jewish Marxist literary critic, essayist, translator, and philosopher. He was at times associated with the Frankfurt School of critical theory and was also greatly inspired by the Marxism of Bertolt Brecht and Jewish mysticism as presented by Gershom Scholem.

**Red Harvest** Dashiell Hammett 2021-08-31 In the gritty world of Personville, corruption and violence run rampant. When the Continental Op is called to investigate the murder of newspaper publisher Donald Willsson, he plunges into a treacherous web of deceit. With rival gangs vying for control of the city, the Op strikes a deal with industrialist Elihu Willsson to clean up Personville. As he uncovers the truth behind the murder, alliances crumble and secrets are exposed. With danger at every turn, the Op must navigate a treacherous landscape of betrayal and double-crossing. In a city on the brink of chaos, can justice prevail?

Jelani Cobb 2021-07-27 Recognizing that an historic study of American racism and police violence should become part of today's canon, Jelani Cobb contextualizes it for a new generation. The Kerner Commission Report, released a month before Martin Luther King Jr.'s 1968 assassination, is among a handful of government reports that reads like an illuminating history book—a dramatic, often shocking, exploration of systemic racism that transcends its time. Yet Columbia University professor and New Yorker correspondent Jelani Cobb argues that this prescient report, which examined more than a dozen urban uprisings between 1964 and 1967, has been woefully neglected. In an enlightening new introduction, Cobb reveals how these uprisings were used as political fodder by Republicans and demonstrates that this condensed edition of the Report should be essential reading at a moment when protest movements are challenging us to uproot racial injustice. A detailed examination of

economic inequality, race, and policing, the Report has never been more relevant, and demonstrates to devastating effect that it is possible for us to be entirely cognizant of history and still tragically repeat it.

**Eichmann in Jerusalem** Hannah Arendt 1970  
**Foundations of the Nazi Police State** George C. Browder 2014-07-11 The abbreviation "Nazi," the acronym "Gestapo," and the initials "SS" have become resonant elements of our vocabulary. Less known is "SD," and hardly anyone recognizes the combination "Sipo and SD." Although Sipo and SD formed the heart of the National Socialist police state, the phrase carries none of the ominous impact that it should. Although no single organization carries full responsibility for the evils of the Third Reich, the SS-police system was the executor of terrorism and "population policy" in the same way the military carried out the Reich's imperialistic aggression. Within the police state, even the concentration camps could not rival the

impact of Sipo and SD. It was the source not only of the "desk murderers" who administered terror and genocide by assigning victims to the camps, but also of the police executives for identification and arrest, and of the command and staff for a major instrument of execution, the Einsatzgruppen. Foundations of the Nazi Police State offers the narrative and analysis of the external struggle that created Sipo and SD. This book is the author's preface to his discussion of the internal evolution of these organizations in Hitler's Enforcers: The Gestapo and the SS Security Service in the Nazi Revolution.

**Employing Bureaucracy** Sanford M. Jacoby 2004 The present revised edition is an attempt to understand how industrial labor was transformed and to identify the historical process by which good jobs were created. It is, therefore, an account of the bureaucratization of employment, since many of the features that define good jobs; stability, internal promotion, and rule-bound procedures are characteristic of bureaucratic organizations. The book also examines the upheaval in the labor markets of the 1980's and 1990's, which has caused a reduction in the number of good jobs. Chapter 9 in this revised edition carries the narrative forward from 1945 to the present time, examining both the high-point of the bureaucratic system in the 1950's and 1960's--

the golden years--and its erosion since then.

**Libidinal Economy** Jean-Francois Lyotard  
2004-01-01 Is regarded as the most important response to the philosophies of desire, as expounded by thinkers such as de Sade, Nietzsche, Bataille, Foucault and Deleuze and Guattari. It is a major work not only of philosophy, but of sexual politics, semiotics and literary theory, that signals the passage to postmodern philosophy.

The Lynching of Cleo Wright Dominic J. Capeci Jr. 2021-12-14 On January 20, 1942, black oil mill worker Cleo Wright assaulted a white woman in her home and nearly killed the first police officer who tried to arrest him. An angry mob then hauled Wright out of jail and dragged him through the streets of Sikeston, Missouri, before burning him alive. Wright's death was, unfortunately, not unique in American history, but what his death meant in the larger context of life in the United States in the twentieth-century is an important and compelling story. After the

lynching, the U.S. Justice Department was forced to become involved in civil rights concerns for the first time, provoking a national reaction to violence on the home front at a time when the country was battling for democracy in Europe. Dominic Capeci unravels the tragic story of Wright's life on several stages, showing how these acts of violence were indicative not only of racial tension but the clash of the traditional and the modern brought about by the war. Capeci draws from a wide range of archival sources and personal interviews with the participants and spectators to draw vivid portraits of Wright, his victims, law-enforcement officials, and members of the lynch mob. He places Wright in the larger context of southern racial violence and shows the significance of his death in local, state, and national history during the most important crisis of the twentieth-century.

*The Black Jacobins* C. L. R. James 2001-05-31 In 1789 the West Indian colony of San Domingo supplied two-thirds of the overseas trade of France. The entire structure of what was arguably the most profitable colony in the world rested on the labour of half a million slaves. In 1791 the waves of unrest inspired by the French Revolution reached across the Atlantic dividing the loyalties of the white population of the island. The brutally treated slaves of Saint Domingo seized at this confusion and rose up in rebellion against masters. In this classic work, CLR James chronicles the only successful slave revolt in history and provides a critical portrait of their leader, Toussaint L'Ouverture, 'one of the most remarkable men of a period rich in remarkable men'.

**Coral and Brass** Holland M. Smith 2017-06-29 Coral and Brass is the biography of General Holland McTyeire "Howlin' Mad" Smith, known as the "father" of modern U.S. amphibious warfare. His book is a riveting first-hand account

of key battles fought in the Pacific between the U.S. Army and Canadian troops against the Japanese, including assaults on the Gilbert Islands, the Marshall Islands, the island of Saipan, Tinian in the Marianas and Iwo Jimo. *Artificial Hells* Claire Bishop 2013-08-01 The award-winning, highly acclaimed *Artificial Hells* is the first historical and theoretical overview of socially engaged participatory art, known in the US as "social practice." In recent decades, the art gallery and the museum have become a place for participatory art, where an audience is encouraged to take part in the artwork. This has been heralded as a revolutionary practise that can promote new emancipatory social relations. What was it is really? In this fully updated edition, Claire Bishop follows the trajectory of twentieth-century art and examines key moments in the development of a participatory aesthetic. This itinerary takes in Futurism and Dada; the Situationist International; Happenings in Eastern Europe, Argentina and Paris; the

1970s Community Arts Movement; and the Artists Placement Group. It concludes with a discussion of long-term educational projects by contemporary artists such as Thomas Hirschhorn, Tania Bruguera, Pawel Althamer and Paul Chan. Bishop challenges the political and aesthetic ambitions of participatory art this practise. She not only scrutinizes the emancipatory claims, but also provides an alternative to the ethical (rather than artistic) criteria invited by such artworks. In response Artificial Hells calls for a less prescriptive approach to art and politics, and for more compelling, troubling and bolder forms of participatory art and criticism.

Beginning Theory Peter Barry 2002-09-07 In this second edition of Beginning Theory, the variety of approaches, theorists, and technical language is lucidly and expertly unraveled and explained, and allows readers to develop their own ideas once first principles have been grasped. Expanded and updated from the original edition

first published in 1995, Peter Barry has incorporated all of the recent developments in literary theory, adding two new chapters covering the emergent Eco-criticism and the re-emerging Narratology.
