[The Mountains of Montenegro](#) Rudolf Abraham 2015-05-11 This guidebook describes a range of 17 day-walks and multi-day treks throughout the mountains of Montenegro. Routes range from short (2km) walks through to multi-day treks throughout this fascinating region. Some routes are circular and some linear, with variants and extensions described so that you can plan a day walk or longer trip. The guide also includes generous background information, covering mountain huts and shelters, travel to and within the country, history and language, as well as what to expect in the various mountains and National Parks the routes explore. The Dinaric Alps are some of the wildest, most spectacular, and least visited in Europe. But they are easily accessible, and many areas have well-marked trails. They present an opportunity to travel through outstandingly beautiful and remarkably unspoilt natural scenery, which sees few visitors.

Mapping the Chinese and Islamic Worlds Hyunhee Park 2012-08-27 This book documents the relationship and wisdom of Asian cartographers in the Islamic and Chinese worlds before the Europeans arrived.

Boston in Transit Steven Beaucher 2023-03-07 A richly illustrated story of public transit in one of America's most historic cities, from public ferry and horse-drawn carriage to the MBTA. A lively tour of public transportation in Boston over the years, *Boston in Transit* maps the complete history of the modes of transportation that have kept the city moving and expanding since its founding in 1630—from the simple ferry serving an English settlement to the expansive network of the Massachusetts Bay Transportation Authority, or MBTA. The story of public transit in Boston—once dubbed the Hub of the Universe—is a journey through the history of the American metropolis. With a remarkable collection of maps and architectural and engineering drawings at hand, Steven Beaucher launches his account from the landing where English colonists established that first ferry, carrying passengers between what is now Boston's North End and Charlestown—and sparing them what had been a two-day walk around Boston Harbor. In the 1700s, horse-drawn coaches appeared on the scene, connecting Boston and Cambridge, with the bigger, better Omnibus soon to follow. From horse-drawn coaches, horse-drawn railways evolved, making way for the electric streetcar networks that allowed the city's early suburbs to sprout—culminating in the multimodal, regional public transportation network in place in Boston today. With photographs, brochures, pamphlets, guidebooks, timetables, and tickets, *Boston in Transit* creates a complete picture of the everyday experience of public transportation through the centuries. At once a practical reference, local history, and travelogue, this book will be cherished by armchair tourists, day-trippers, and serious travelers alike.

[Western Balkans](#) National Geographic Maps - Adventure 2018-02-15 - Waterproof - Tear-Resistant - Travel Map The Western Balkans region, an adventure playground and rising star of Europe, is loaded with Old World traditions, slow food culture, ancient towns, and rarely visited villages. The area stretches from the Adriatic Sea in the west, up and over mountain ranges, raging rivers, tectonic lakes, steep gorges, and thousands of miles of paths, trails, and routes. Discover eight countries—all with their special brand of

Balkan magic: Slovenia, Croatia, Bosnia and Herzegovina, Montenegro, Albania, Serbia, Kosovo, and Macedonia. National Geographic's Western Balkans Adventure Map will meet the needs of travelers with its detailed and accurate information. The map includes the locations of UNESCO World Heritage sites and exotic places to discover, including Slovenia's Triglav National Park, the walled city of Dubrovnik in Croatia, and the World Heritage Lake Ohrid in Macedonia. The map comes with a user-friendly index and clearly marked road network complete with distances and designations for roads/highways, plus secondary routes for those seeking to explore off the beaten path. Start your adventure with a few days, weeks, or months on the 1,200-mile Via Dinarica Trail that traverses the region through the Dinaric Alps and the Sharr Mountain Range. While on the trail--or off--visit one of the many premier national parks: the waterfalls of Plitvice in Croatia; the mountainous Durmitor in Montenegro; Serbia's lush and green Tara, Theth National Park with epic views across the Albanian Alps, and the historic Sutjeska park in Bosnia and Herzegovina. And when it's time for a break, the Balkans are known for their cuisine. Farm-fresh vegetables across Macedonia, savory pastries slow-roasted over an open flame in Kosovo, and delectable seafood up and down the Adriatic coast pairs perfectly with delicious red and white wines from across the entire region. The northern and western portions of the region--stretching from Slovenia, down Adriatic coast, and including Croatia, Montenegro, and Albania--are shown on the front side of the map. The reverse side provides details about the countries on the eastern half of the Western Balkans: Bosnia and Herzegovina, Serbia, Kosovo, and Macedonia. It overlaps the front side, roughly, along the peaks of the Dinaric Alps, which run diagonally from Slovenia to the border between Kosovo and Albania. Every Adventure Map is printed on durable synthetic paper, making them waterproof, tear-resistant and tough -- capable of withstanding the rigors of international travel. Map Scale = 1:800,000 Sheet Size = 25.5" x 37.75" Folded Size = 4.25" x 9.25"

The Rough Guide to Croatia Jonathan Bousfield 2000 Now firmly back on the tourist map, Croatia offers visitors the choice of some of Europe's finest coastal and mountain scenery as well as historic and vibrant cities such as Dubrovnik and Zagreb. This Rough Guide has lively accounts of all the sights, and reviews of the best value-for-money accommodation and dining options. Informed background on Croatia's history, culture and politics complete the picture.

The Geographical Journal 1954

Cartographia Vincent Virga 2007-10-25 CARTOGRAPHIA offers a stunning array of 200 of the most beautiful, important, and fascinating maps in existence, from the world's largest cartographic collection, at the Library of Congress. These maps show how our idea of the world has shifted and grown over time, and each map tells its own unique story about nations, politics, and ambitions. The chosen images, with their accompanying stories, introduce the reader to an exciting new way of "reading" maps as travelogues--- living history from the earliest of man's imaginings about planet earth to our current attempts at charting cyberspace. Among the rare gems included in the book are the Waldseemuller Map of the World from 1507, the first to include the designation "America"; pages from the Ortelius's Theatrum Orbis Terrarum of 1570, considered the first modern atlas; rare maps from Africa, Asia, and Oceania that challenge traditional

Western perspectives; William Faulkner's hand-drawn 1936 map of the fictional Yoknapatawpha County, Mississippi; and even a map of the Human Genome. In an oversized format, with gorgeous four-color reproductions throughout, Cartographia will appeal to collectors, historians, and anyone looking for a perfect gift.

DK Eyewitness Travel Guide: Eastern and Central Europe 2012-04-02 Imagine traveling from Tallin, Krakow, and Prague right through to Budapest, Dubrovnik, and Ljubljana. This beautifully illustrated guide to Eastern and Central Europe takes you to every city, national park, castle, church, cathedral and museum worth seeing across Eastern and Central Europe. For each of the 17 countries it covers, it suggests good hotels and restaurants, explains how to get around, and maps the major cities and towns. If you are one of those people who wants to see it all, this is the guide for you: it includes over 2,000 color photographs, maps, and illustrations. Countries covered: Austria (Vienna), Bosnia & Herzegovina, Bulgaria, Croatia, Czech Republic, Estonia, Hungary, Latvia, Lithuania, Montenegro, Poland, Romania, Russia, Serbia, Slovak Republic, Slovenia.

American Book Publishing Record Cumulative, 1950-1977 R.R. Bowker Company. Department of Bibliography 1978

Academic American Encyclopedia: F 1995 A twenty-one volume encyclopedia with 32,000 entries and more than 16,000 illustrations.

Words in Space and Time Tomasz Kamusella 2021-11-30 With forty-two extensively annotated maps, this atlas offers novel insights into the history and mechanics of how Central Europe's languages have been made, unmade, and deployed for political action. The innovative combination of linguistics, history, and cartography makes a wealth of hard-to-reach knowledge readily available to both specialist and general readers. It combines information on languages, dialects, alphabets, religions, mass violence, or migrations over an extended period of time. The story first focuses on Central Europe's dialect continua, the emergence of states, and the spread of writing technology from the tenth century onward. Most maps concentrate on the last two centuries. The main storyline opens with the emergence of the Western European concept of the nation, in accord with which the ethnolinguistic nation-states of Italy and Germany were founded. In the Central European view, a "proper" nation is none other than the speech community of a single language. The Atlas aspires to help users make the intellectual leap of perceiving languages as products of human history and part of culture. Like states, nations, universities, towns, associations, art, beauty, religions, injustice, or atheism—languages are artefacts invented and shaped by individuals and their groups.

War Crimes and Trials: A Primary Source Guide James Larry Taulbee

The Cambridge Handbook of Visuospatial Thinking Priti Shah 2005-07-25 The ability to navigate across town, comprehend an animated display of the functioning of the human heart, view complex multivariate data on a company's website, or to read an architectural blueprint and form a three-dimensional mental picture of a house are all tasks involving visuospatial thinking. The field of visuospatial thinking is a relatively diverse interdisciplinary research enterprise. An understanding of visuospatial thinking, and in particular, how people represent and process visual and spatial information, is relevant not only to cognitive psychology but also education, geography, architecture, medicine, design computer science/artificial intelligence, semiotics and animal cognition. The goal of this book, first published in 2005, is to present a broad overview of research on visuospatial thinking that can be used by researchers as well as students interested in this topic in both basic research and applied/naturalistic contexts.

The Geography of Slovenia Drago Perko 2019-07-01 This book is the first to give a comprehensive and detailed overview of the complete geography of Slovenia in English. Only very few countries, even considerably larger ones, can boast the landscape diversity found in Slovenia since the Alps, the Pannonian Basin, the Dinaric Alps, and the Mediterranean meet and interweave in this small corner of Central Europe, as do Germanic, Hungarian, Slavic, and Romance cultural influences. The book provides a systematical overview of physical and human geographical elements of Slovenia from landforms to cultural characteristics. Special attention is given to landscape diversity, to the presentation of Slovene landscape types and regions, to some particularities and interesting facts of Slovenia, and to the position of Slovenia in the World. The book also illustrates some other important geographical phenomena, processes and interactions between nature and society in nowadays Slovenia. This volume appeals to researchers as well as students in the field of regional geography. It can also serve as a source for complete background information as well as a field guide for Slovenia.
