### **American Compacts of the Art Deco Era**

Howard Melton 2019-01-04 In the late 1920s and early 1930s, American manufacturers created a stunning variety of powder compacts reflecting the modern design concepts of what we now call Art Deco. Powder compacts had first appeared in the early 1920s. While these early compacts were largely utilitarian, their embellishments rapidly evolved into miniature works of art. The height of this artistic

expression occurred in 1930 and 1931. These compacts were considered jewelry and were sold in jewelry stores and better department stores. The advent of the Great Depression had a devastating effect on the producers of these beautiful compacts. Many manufacturers either went out of business or merged with other companies. The companies that did survive quickly redesigned their products by eliminating the complex case designs and their striking ornamentation. Although compacts of the early or high Art Deco era were produced by any number of American manufacturers, two companies, Elgin American Manufacturing Company of Elgin, Illinois and J. M. Fisher Company of Attleboro, Massachusetts, utilized these modern design concepts for virtually their entire product line during this period. The book includes comprehensive coverage of the Art Deco compacts produced by Elgin American and J. M. Fisher as well as a survey of Art Deco compacts produced by other American

manufacturers of this era including Evans Case Company; Girey Company; Marathon Company; Pilcher Manufacturing Company; Richard Hudnut Corporation; Ripley & Gowen Company; Theodore W. Foster & Bros. Co.; Volupte, Inc.; and others. The book includes nearly 1200 color photographs, historical information relating to the emergence of powder compacts and Art Deco design, historical information concerning American compact manufacturers of this era, an extensive bibliography, and other reference materials.

History of Modern Art H. H. Arnason 2013 Since it first appeared in 1968, History of Modern Art has emphasized the unique formal properties of artworks, and the book has long been recognized for the acuity of its visual analysis.

**English Style** Suzanne Slesin 1984 Like English literature and English manners, the English style of decorating has been copied and admired for generations around the world. It is a style that can be found in a simple cottage with gabled roof and stucco walls, or in a grand country house filled with antique furniture and family heirlooms. It may be reflected in an elegant town house with gleaming brass Art Deco appointments, a Victorian terrace house with original William Morris wallpaper, a minimalist London flat or an attic studio furnished with

graphic severity.

Challenged by an inner sense of creativity and the need to establish his creative independence, he started making paperweights in the early 1970s. Attracted to the emerging studio glass movement, recognized as a maker of fine paperweights, and driven by an intense and incessant pursuit of excellence, Stankard was -- by the 1980s -- recognized as a highly accomplished glass artist, a member of the pioneering generation of glass artists in America. As the emotional, intellectual, and spiritual dimensions of his art matured, and as he continued to develop new techniques for expressing his art, he also assumed more prominent influence in the development of educational programs and institutions that celebrated and expanded art in glass. Throughout his life, Stankard also wrestled with, and learned how to succeed in spite of, a learning disability -- dyslexia. No Green Berries or Leaves presents the author's record of his life as a struggling, then highly successful, artist;

reveals insights into the challenges he faced as a dyslexic and how he came to understand, then circumvent, his disability; and records his perspectives on the history of the studio glass movement in America as he witnessed and experienced it during the past fifty years. This book will be of value to readers interested in the life of a major American artist and the history of the glass art movement in America, as well as to those looking for an inspirational story of how one man faced, addressed, and outwitted a learning disability and climbed the steep road to success to become a master artist in glass.

**Minding the Store** Stanley Marcus 2001  
"There is never a good sale for Neiman Marcus unless it's a good buy for the customer.' That was one of the first declarations of business

philosophy I heard my father, Herbert Marcus, make soon after I came to work at Neiman Marcus in 1926." Thus began the 1974 edition of *Minding the Store*. Reprinted in hardcover in 1997 to celebrate the 90th anniversary of Neiman Marcus, it is now available for the first time in paperback. Mr. Marcus spent most of his life not only in helping to create a retailing enterprise renowned throughout the world as the epitome of quality, but also in setting high standards for the level of taste of all who desire "the better things in life." In doing so he has played a key role in making Dallas itself a success. "Mr. Stanley," as he was affectionately called by all his Neiman Marcus friends and associates, made *The Store* a legendary success. Although he retired from active involvement in Neiman Marcus in 1977, the influences of the philosophies of business he developed remained an important part of the training of Neiman Marcus personnel. Those basic principles--best exemplified by his belief in his father's business

philosophy--are the reasons Neiman Marcus is today recognized as the taste leader of American retailing. *Minding the Store* is a warm portrait of a man and an exuberant celebration of the store that has become the best-known landmark in Texas since the Alamo.

**The Complete Guide to Perthshire**

**Paperweights** Colin Mahoney 2015-08-17 In 1967 Stuart Drysdale was given a copy of Woman's Day magazine featuring an article on antique glass paperweights. When he showed the magazine to his glassworkers at Strathearn, they all said they could make them. The next year he left Strathearn with several of his glassworkers to start one of the most successful

glass factories in modern history, Perthshire Paperweights. Their mantra was excellence and they succeeded. This book documents their history, production techniques and the hundreds of unique paperweight designs that they produced from their beginning in 1968 until 1997 when this book was published.
