Plan of Chicago Daniel Hudson Burnham 2017-09-12 Excerpt from Plan of Chicago: Prepared Under the Direction of the Commercial Club, During the Years MCMVI, MCMVII, and MCMVIII It should be understood, however, that such radical changes as are proposed herein cannot possibly be realized immediately. Indeed, the aim has been to anticipate the needs of the future as well as to provide for the necessities of the present: in short, to direct the development of the city towards an end that must seem ideal, but is practical. Therefore it is quite possible that when particular portions of the plan shall be taken up for execution, wider knowledge, longer' experience, or a change in local conditions may suggest a better solution; but, on the other hand. Collective Behavior and Public Opinion Jaap van Ginneken 2003-04-02

This is a highly innovative and stimulating work with the outline of an entirely new approach to massive and rapid shifts in opinion and communication. It discusses and explains such mysterious phenomena as sudden crazes and crashes, fads and fashion, hypes and manias, moral outrage and protests, gossip and rumors, and scares and panics. Rich in alternative insights, the book is divided into four parts. Part I discusses the points of departure: the most relevant processes of opinion formation and communication. Part II is about phenomena on three different levels, that have traditionally been studied within the twin fields of mass psychology and collective behavior sociology. Part III focuses on the three prime forms of "emotional coloring" of opinion currents and public moods. Part IV discusses a combination of some of the aforementioned phenomena: successive crazes and crashes in financial markets, and looks at why technological and economic, and social and opinion forecasts often fail so miserably. The audience for this book includes students of social and mass psychology, social movements and collective

behavior sociology, and opinion and communication in general.

Professionals in public relations, marketing, health, finance, and politics, as well as the educated lay audience, will also find this book of interest.

Locating Imagination in Popular Culture Nicky van Es 2020-12-29

Locating Imagination in Popular Culture offers a multi-disciplinary account of the ways in which popular culture, tourism and notions of place intertwine in an environment characterized by ongoing processes of globalization, digitization and an increasingly ubiquitous nature of multi-media. Centred around the concept of imagination, the authors demonstrate how popular culture and media are becoming increasingly important in the ways in which places and localities are imagined, and how they also subsequently stimulate a desire to visit the actual places in which people's favourite stories are set. With examples drawn from around the globe, the book offers a unique study of the role of narratives conveyed through media in stimulating and reflecting desire in tourism. This book will have appeal in a wide variety of academic disciplines, ranging from media and cultural studies to fan- and tourism studies, cultural geography, literary studies and cultural sociology.

Urban Regeneration in the UK Andrew Tallon 2009-08-21 Exploring the streets of London, Manchester, Belfast, Edinburgh or Cardiff, one cannot help but notice the striking transformations taking place in the urban landscapes. This prominent regeneration of urban areas in the UK and around the world has become an increasingly important issue amongst governments and populations. The growing concern has been a result of the impacts of the decline of cities since the collapse of manufacturing

industries and the heightening of global competition. A range of innovative approaches to tackle urban problems have been taken over many decades to attempt to regenerate the fortunes of towns and cities across the UK. This text provides an accessible, yet critical, synthesis of urban regeneration in the UK incorporating key policies, approaches, issues and debates. The central objective of the book is to place the historical and contemporary regeneration agenda into context. Section one sets up the conceptual and policy framework for urban regeneration in the UK. SectionTwo traces policies that have been adopted by central government to influence the social, economic and physical development of cities, including early municipal interventions in the late nineteenth century, community-focused urban policies of the late 1960s, entrepreneurial property-led regeneration of the 1980s and competition for urban funds in the 1990s. The penultimate section illustrates the key thematic policies and strategies that have been pursued by cities themselves, focusing particularly on improving economic competitiveness and tackling social disadvantage. These approaches are contextualized by discussions covering, for example, urban competitiveness policies and the focus on sustainable urban regeneration. The final section summarizes key issues and debates facing urban regeneration, and speculates upon future directions. Urban Regeneration in the UK blends the approaches taken by central government programmes and cities themselves in the regeneration process. The latest ideas and examples from across disciplines and across the UK's urban areas are illustrated. This book provides a comprehensive and up-to-date synthesis that will fill a significant gap in the current literature on regeneration and will be a tool for students as well as a seminal read for practitioners and researchers.

Combating Fiscal Fraud and Empowering Regulators Brigitte Unger 2021 This is an open access title available under the terms of a CC BY-NC-ND 4.0 International licence. It is free to read at Oxford Scholarship Online and offered as a free PDF download from OUP and selected open access locations. Combating Fiscal Fraud and Empowering Regulators

analyzes the impact of new international tax regulations on the scope and scale of tax evasion, tax avoidance, and money laundering. These are analyzed through an ecosystem framework in which, similar to a natural ecosystem, new tax regulations appear as heavy shocks to the tax ecosystem, to which the 'species' such as countries, corporations, and tax experts will react by looking for new loopholes and niches of survival. By analyzing the impact of tax reforms from different perspectives—a legal, political science, accounting, and economic one—one may derive an assessment of the reforms and policy recommendations for an improved international tax system. The ultimate goal is to combat fiscal fraud and empower regulators, in that line, this volume is intended for a broad audience that seeks to know more about the latest state of the art in the realm of taxation from a multidisciplinary perspective. The money involved amounts to billions in unpaid taxes that could be better used for stopping hunger, guaranteeing education, and safeguarding biodiversity, hence making this world a better one. Regulators can see this book as a guiding light of what has happened in the past forty years, and how the world has and will continue to change as a result of it. Combating Fiscal Fraud and Empowering Regulators is also a warning about new emerging tax loopholes, such as freeports or golden passports and visas, where residency can be bought in tax havens, even within the European Union. The main message is that inequality can and has to be reduced substantially and that this can be achieved through a well-working international tax system that eliminates secrecy, opaqueness, and tax havens.

Becoming Istanbul Pelin Derviş 2008

Bourdieu's Secret Admirer in the Caucasus Georgi M. Derluguian 2005-07-15 Bourdieu's Secret Admirer in the Caucasus is a gripping account of the developmental dynamics involved in the collapse of Soviet socialism. Fusing a narrative of human agency to his critical discussion of structural forces, Georgi M. Derluguian reconstructs from firsthand accounts the life story of Musa Shanib—who from a small town in the Caucasus grew to be a prominent leader in the Chechen revolution. In his examination of Shanib and his keen interest in the sociology of Pierre

Bourdieu, Derluguian discerns how and why this dissident intellectual became a nationalist warlord. Exploring globalization, democratization, ethnic identity, and international terrorism, Derluguian contextualizes Shanib's personal trajectory from de-Stalinization through the nationalist rebellions of the 1990s, to the recent rise in Islamic militancy. He masterfully reveals not only how external economic and political forces affect the former Soviet republics but how those forces are in turn shaped by the individuals, institutions, ethnicities, and social networks that make up those societies. Drawing on the work of Charles Tilly, Immanuel Wallerstein, and, of course, Bourdieu, Derluguian's explanation of the recent ethnic wars and terrorist acts in Russia succeeds in illuminating the role of human agency in shaping history.

Tourism, Ethnicity, and the State in Asian and Pacific Societies Michel Picard 1997-05-01 The expansion of international tourism is changing the relationship between ethnic groups and states around the globe. Yet tourism's importance for the understanding of ethnicity in the modern world has been generally neglected within the field of ethnic studies. This pioneering volume investigates how international tourism development, state policies of ethnic management, and the active responses of local ethnic groups intersect to reshape ethnic identities and ethnic relations in Asian and Pacific societies. It analyzes the ways in which the very meaning of ethnicity and culture are being contested and reworked in the wake of tourism's impact. Following an introduction that explores the close but often ambivalent relationship between tourism promotion and state ethnic policies, individual contributors examine tourism's varied effects in China, Singapore, Malaysia, Thailand, Indonesia, and the island Pacific in rich ethnographic detail.

Divided Dreamworlds? Peter Romijn 2012 With its unique focus on how culture contributed to the blurring of ideological boundaries between the East and the West, this important volume offers fascinating insights into the tensions, rivalries and occasional cooperation between the two blocs. Encompassing developments in both the arts and sciences, the authors analyze focal points, aesthetic preferences and cultural phenomena through topics as wide-ranging as the East- and West German interior

design; the Soviet stance on genetics; US cultural diplomacy during and after the Cold War; and the role of popular music as a universal cultural ambassador. Well positioned at the cutting edge of Cold War studies, this important work illuminates some of the striking paradoxes involved in the production and reception of culture in East and West.

Profit Without Honor Stephen M. Rosoff 1998 Profit Without Honor:

White-Collar Crime and the Looting of America seeks to elucidate a very broad subject: white-collar crime. How broad? Its domain stretches from the small price-gouging merchant to the huge price-fixing cartel. It can breed in an antiseptic hospital or a toxic dump. It is at home on Main Street, Wall Street, Madison Avenue, and countless other addresses - including, at times, 1600 Pennsylvania Avenue.

Key Concepts in Public Archaeology Gabriel Moshenska 2017-09-28 This

book provides a broad overview of the key concepts in public archaeology, a research field that examines the relationship between archaeology and the public, in both theoretical and practical terms. While based on the long-standing programme of undergraduate and graduate teaching in public archaeology at UCL's renowned Institute of Archaeology, the book also takes into account the growth of scholarship from around the world and seeks to clarify what exactly 'public archaeology' is by promoting an inclusive, socially and politically engaged vision of the discipline. Written for students and practitioners, the individual chapters provide textbook-level introductions to the themes, theories and controversies that connect archaeology to wider society, from the trade in illicit antiquities to the use of digital media in public engagement, and point readers to the most relevant case studies and learning resources to aid their further study.
