The Birthday Parties of Dragons Lisa Rasche 2016-08-06 Have you ever spaced out for a minute? Maybe you were in the middle of driving home, or telling your friend where you wanted to have lunch, and all of a sudden your mind wandered off into blankness. You thought it was caused by too little coffee, or too much work, but really what happened was this: You saw a dragon. You see, dragons are real, and they live all over the planet. It's just that they are so monstrously huge, so terribly beautiful (or hideous), or so tremendously fierce that most human minds can't process them. Only the minds of wizards can bear to remember them. The rest of us just...space out. There is one dragon even you could remember, though. His name is Ittle. He's neither large, nor beautiful, nor ugly, nor fierce. He's just not impressive enough to make your mind freeze. But since getting remembered would cause a lot of problems for his kind, Ittle is hoping that he can grow to draconic proportions before his 100th birthday. Otherwise, he's going to be in big trouble. Click on "Look Inside" above to visit a dragon's birthday party now!
