Speak Fast Ahmad JAVADI 2017-03 LEVEL The book is intended mainly for pre-intermediate students - students who have already studied basic English conversation. It concentrates on words that pre-intermediate students want to use, but often cause difficulty. Some advanced students who have problems with essential conversation words will also find this book useful. The book is not suitable for the elementary learner. HOW THE BOOK IS ORGANIZED There are 58 units in the book. Each unit concentrates on a particular speaking topic. For a list of units see the contents page at the beginning of the book. Each unit consists of two facing pages. On the left, there is vocabulary and sentence examples. On the right, there are questions and paragraphs. HOW TO USE THE BOOK The units are not in order of difficulty, so it is not intended that you work through the book from beginning to end. Every learner has different problems, and students should use this book to help them with the unit they find difficult. It is suggested that students work in this way: Use the contents page to find which unit deals with the topic the student is interested in. Study the vocabulary and sentences on the left-hand page of the chosen unit. Use the right-hand page to read the questions and paragraphs. TO THE TEACHERS Speak Fast was written as a self-study book for students, but teachers may also find it useful as additional course material in cases where further work on conversation is necessary. The book will probably be most useful at the pre-intermediate level (where all, or nearly all, of the material will be relevant). It can serve both as a basis for revision and as a means for practicing new sentences. It will also be useful for some more advanced students who have problems with common words and need a book for reference and practice. The book is not intended to be used by elementary learners. The units are not ordered according to level of difficulty, so the book should not be worked through from beginning to end. It should be used

selectively and flexibly in accordance with the topic areas students need to work on. The book can be used for immediate consolidation and for revision or remedial work. It might be used by the whole class or by individual students needing extra help. The left-hand pages are written for the student to use individually, but they may be used by the teacher as a source of ideas and information to base a lesson plan. The student then has the right-hand page as a record of what has been taught and can refer to it in the future. Additionally, individual students can be directed to study certain units of the book by themselves if they have difficulties not shared by other students in their class.

The principal focus is on developing students' speaking and listening skills. Each unit is divided into five or six sub-sections, which all end with a practical, work-related output task. There is a more substantial output activity at the end of the unit. Learners are encouraged to draw on their existing skills, knowledge, and experience of the workplace to carry out these tasks. Contexts are introduced by up-to-date material from a variety of authentic sources.
