Small Time Operator Bernard B. Kamoroff 2019
Small Time Operator is one of the most popular business start-up guides ever. In clear, easy-to-understand language. In this new edition, the

book will feature a section on surviving the Global Information Grid or GIG economy. The on-demand economy, also known as the sharing economy or the gig economy, is a new and greatly expanding business model that is

basically nothing more than a mobile app that connects people who need some type of service—a ride, a delivery, a plumber, a house cleaner—with individuals who provide that service. There are hundreds of thousands of newly self-employed individuals. Uber alone claims that they have 160,000 workers just in California. The great majority of these on-demand workers have zero experience or knowledge about self-employment. This book will give on-demand workers everything they need to know about being self-employed.

A Dangerous Business Michael Underwood
2012-09-06 A chance sighting in a café in Amsterdam gives solicitor Rosa Epton an unwelcome shock. At a nearby table sits an ex-client who should be behind bars, having recently been sentenced to five years in prison. So what is Eddie Ruding doing in Amsterdam a few weeks later? On her return to England, Rosa makes a few discreet enquiries, only to draw a blank. But just as she has decided to try to put

the matter out of her mind, a newspaper report shocks her into action. Eddie Ruding has been found dead, his crumpled body lying at the foot of the walls of Wandsworth Prison. Rosa, however, is not the only person on the dead man's trail. Everyone from inquisitive journalists to MI5 appears to be taking an interest—and none so much as the dead man's mother, a cockney matriarch with a score to settle.

Bill W My First 40 Years Anonymous 2010-05-14 Told here for the first time in his own words is the story Bill W.--a man who, for his part in founding Alcoholics Anonymous, would be honored as one of the most important figures of the 20th century. "I was born, to be exact, in a hotel then known as Wilson House... I was born, perhaps rightly, in a room just back of the old bar." It was the beginning of a life that would change the lives of millions. Told here for the first time in his own words is the story of the man who would come to be known as Bill W. - a man who, for his part in founding the fellowship of Alcoholics Anonymous, would be celebrated as one of the important figures of the twentieth century."The terrifying darkness had become complete. In agony of spirit, I again thought of the cancer of alcoholism which had now consumed me in mind and spirit, and soon the body." But what of the Great Physician? For a brief moment, I suppose, the last trace of my obstinacy was crushed out as the abyss yawned.I

remember saying to myself, "I'll do anything, anything at all. If there be a Great Physician, I'll call on him." Then, with neither faith nor hope I cried out, "If there be a God, let him show himself."

Economic Investigations in Twentieth-Century Detective Fiction Yan Zi-Ling 2016-03-09 In his study of Golden Age and hard-boiled detective fiction from 1890 to 1950, Yan Zi-Ling argues that these two subgenres can be distinguished not only by theme and style, but by the way they structure knowledge, value, and productive

labour. Using the detective as a reference point and enactor of socially based interests, Yan shows that Golden Age texts are distinguished by their conservatism (and not only by their conservatism), with the detectives' actions serving to stabilize institutions with specific ideological aims. In contrast, the criminal investigations of the hard-boiled detective, who is poorly aligned with institutions and strong interest groups, reveal the fragility of the status quo in the face of escalating cycles of violence. Key to Yan's discussion are theories of exchange, value, and the gift, the latter of which he suggests is more akin to detective work than is wage labour. Analyzing texts by a wide range of authors that includes Arthur Conan Doyle, Agatha Christie, Dashiell Hammett, Raymond Chandler, Dorothy Sayers, Raoul Whitfield, George Harmon Coxe, and Mickey Spillane, Yan demonstrates that the detective's truth-generating function, most often characterized as a process of discovery rather than creation, is in

To Change Reels Isabel Balseiro 2003 With the end of apartheid, South African cinema is at a turning point in its history. But how can we speak of a national cinema when so far only an elite minority has participated in it? How can filmmakers draw upon the past as they take South Africa into a new artistic era? This collection offers an unprecedented look at a film industry that has excluded its country's black majority, in both representation and production- and that now must overcome collusion between racist ideology and film form. Until recently, filmmakers could work only within a culture that reluctantly took black South Africans into account. Therefore, to explore what South African cinema has been and could become, the authors do not limit their discussion to film production but approach cinema as a manifestation of cultural history. How has the purpose of cinema been viewed at different

times in South Africa, by different governments and social groups? What is the relation between film and a sense of nationhood in South Africa? What has happened when whites aim to make "black" films? How has film been viewed in relation to the notion of leisure in South Africa? Such questions lead to a consideration not only of films made by South Africans in South Africa but also of an unfolding film culture within a series of stages that have yet to give rise to a national cinema.

Pay, Quit, or Die Don Herion 2008-03-31

Organized crime, the Mafia, or the Outfit as it is known in Chicago, is surrounded by a false glamour that elevates mobsters to the level of swashbuckling folk heroes whose ready violence and savage murders are too often excused in the public mind as acceptable because they only hurt each other. Similarly, illegal gambling, the bread-and-butter racket inevitably combined with loan-sharking and extortion, is widely tolerated because it is perceived to be a victimless crime. Donald H. Herion, a US Army veteran during the Korean War, who grew up in

a neighborhood where there was a bookmaker on every corner, sometimes two or three, learned just how wrong all that was when he returned home from the Army and joined the Chicago Police Department. He wasn't sure that he was doing the right thing at the time because he really never liked cops, but if he didn't like it, he could always quit he thought. After six years learning the ropes in the patrol division collaring burglars and stick up men, chasing daredevil drivers, calming adversaries in domestic disputes, and riding herd on drunks and dope dealers, he was promoted to plainclothes as a vice cop investigating illegal gambling, narcotics, prostitution and gang bangers. He quickly learned that chasing bookmakers and busting up wire-rooms was a fight against organized crime. Illegal gambling was organized crime's biggest money maker, the Golden Calf that financed most of its other illicit activities ranging from stock and bankruptcy swindles to the narcotics trade. Herion and his partner were

transferred to the Vice Control Section of the Organized Crime Division at police headquarters at 1121 S. State Street. He now had jurisdiction to make raids anywhere in the City of Chicago instead of only in his district. He was promoted to detective, then sergeant, he rubbed shoulders with degenerate gamblers, bookmakers, prostitutes and stone-cold killers, while witnessing first-hand how gambling destroys lives. He broke up more than 4,000 gambling operations, arrested hundreds of mob controlled bookmakers and other racketeers. Herion also had the pleasure of busting up the mob's biggest floating crap game eight times costing the crime syndicate millions of dollars. To accomplish this it was necessary for him to work on his own time as well as city time. The mob moved the game into the suburbs, which was out of his jurisdiction so Herion worked with Chicago Tribune crime reporter Bob Wiedrich to get the job done. The crap game took every precaution necessary to keep from being discovered.

Lookouts with walkie-talkies roved the area where the game was held to warn the operators of the game of any police in the area. One suburb had a local police lieutenant and sergeant as lookouts, the lieutenant who became aware of their presence in the area stuck his gun in their face wanting to know who they were. Herion had used his own car to conduct a surveillance hoping that the lieutenant didn't check his license number. When the reporter explained to the lieutenant that they were watching a crime syndicate crap game going on in a building down the street and would he like to accompany them on a raid, the lieutenant at this point made an excuse and left the area. This of course caused some heat, but the reporter had already had his story about the game which made headlines in the Chicago Tribune the next day. On another occasion the game began again and was next to a railroad track in another suburban building in Melrose Park, a suburb west of Chicago. There was only one road in and

out, lookouts with walkie-talkies were posted everywhere in the area. Herion had his son Don print a sign on plasterboard 4' by 6' with large letters in red paint, CRAP GAME operated by Mob Boss JACKIE CERONE, with an arrow pointing to where the game was being held. Herion nailed the sign on a telephone pole on the road leading to the game. *Wi Z, 50th Anniversary Edition* Vassilis Vassilikos 2017-02-28 A progressive parliamentary deputy is scheduled to appear at a political rally. Practical Puppetry A-Z Carol R. Exner

2005-08-25 Puppetry is an exciting, flexible, malleable art form that can engage the creative forces of children or adults. Puppets can not only tell a story, they can be used to enhance the curriculum, present an idea or a concept in a compelling way, or teach any number of necessary skills. Children and adults presenting a puppet play are given a sense of their own inventive power. This reference work offers an A to Z view of working with puppets. It covers everything from the basic strategies of advertising and marketing puppet productions,

to assembling the puppets out of household materials such as paper bags, cereal boxes, or gloves, to the more elaborate sculpting of armatures. Stages, curtains and props are also discussed along with the history of puppetry. Numerous illustrations give a visual of many of the finished products. This work concludes with an annotated bibliography and index.

Stochastic Mechanics and Stochastic Processes
Aubrey Truman 2006-11-15 The main theme of the meeting was to illustrate the use of stochastic processes in the study of topological problems in quantum physics and statistical mechanics. Much discussion of current problems was generated and there was a considerable amount of interaction between mathematicians and physicists. The papers presented in the proceedings are essentially of a research nature but some (Lewis, Hudson) are introductions or

surveys.

The Redrock Chronicles Tom H. Watkins 2000
As a collection of geological and climatic phenomena, the earth is a scarred, bent, cracked, and agitated wreck of a place. Nowhere is this more evident than in Utah's redrock canyon country, which is among the most spectacular terrain not only in America but in the world. These extraordinary lands lie at the heart of the Colorado Plateau -- 130,000 square miles of uplifted rock sitting like a huge island in an earthly continental sea, surrounded on all sides by the remnants of once-active volcanoes. Although the Colorado Plateau includes portions of Colorado, New Mexico, and Arizona, in no other part of any other state are its complexity and time-constructed beauty illuminated more brilliantly than in southern Utah. Tourists and outdoor enthusiasts by the millions visit and revisit the area because there is no place else on earth quite like it. In *The Redrock Chronicles*, T. H. Watkins, one of America's best-known and

award-winning writers on the environment and history, focuses on southern Utah's unprotected lands in a loving testament to its warps and tangles of rock and sky. Combining history, geography, and photography, the author reports the full story of the region -- from its violent geologic beginnings to the coming (and going) of pre-Puebloan peoples whose drawings still adorn rocks and caves there, from the Mormon settlement of the 1840s and 1850s to the great uranium boom of the 1950s, from the beginning of tourism and parkland protection in the 1930s to today's controversial movement to preserve millions of acres of wild Utah land in the National Wilderness Preservation System. Indeed, the account of that revolutionary movement is told here in all its color and complexity for the first time. Writing from his own personal experience and extensive research, an appreciative Watkins takes readers on a tour of the Grand Staircase of plateaus, moving from the utterly wild triangle of

Kaiparowits Plateau, with its erosion-sculptured mesas, tablelands, benchlands, and canyons, to a more welcoming kind of verdant wilderness that sits northeast, across the rolling desert scrubland of Harris Wash, in the red-walled canyon of the Escalante River. The author has spent much time hiking and camping here among the isolated buttes and mesas, and he draws a vivid portrait of the area's highlights: Comb Ridge, a 90-mile wall of 600-foot cliffs; Waterpocket Fold, an even more spectacular monocline to the northeast of the Escalante River, stretching a hundred miles; the Henry Mountains; Hump of Bull Mountain; Cataract Canyon; and the San Rafael Swell, an enormous oval some 2,200 square miles which rises just north of Capitol Reef National Park. But *The Redrock Chronicles* is not simply a celebration. Watkins concludes with a spirited call for the preservation of the unprotected wilderness that gives the land its character and color. He offers the legislative device of wilderness designation

Sanders 1998 There seems to be no dearth of suggestions for making money at home, as the growing number of books devoted to the topic proves. But how many of these ideas are practical and creative at the same time? The experienced team of Sanders and Bullen not only describes more than 100 of the more unusual business vocations, but also interviews quite a few practitioners and lists specific resources to consult. Each entry includes a lengthy explanation of the job, and its duties and responsibilities, along with a top tip (e.g., for aspiring dog or cat breeders, it's suggested as an adjunct to other pet-related businesses, not as a solo venture), getting started, and the going rate. Sure to provoke chuckles are some of the recommendations, albeit all bona fide, such as a garden goosewear designer (yes, for concrete birds) and a beekeeper (no stings in this thought). Good information, well presented.

The Dark Art Edward Follis 2014-10-07 A highly decorated veteran DEA agent recounts his incredible undercover career and reveals the shocking links between narcotics trafficking and terrorism What exactly is undercover? From a law-enforcement perspective, undercover is the art of skillfully eliciting incriminating statements. From a personal and psychological standpoint, it's the dark art of gaining trust—then manipulating that trust. In the simplest terms, it's playing a chess game with the bad guy, getting him to make the moves you want him to make—but without him knowing you're doing so. Edward Follis mastered the chess game—The Dark Art—over the course of his distinguished twenty-seven years with the Drug Enforcement Administration, where he bought eightballs of coke in a red Corvette, negotiated multimillion-dollar deals onboard private King Airs, and developed covert relationships with men who were not only international drug-traffickers but—in some

cases—operatives for Al Qaeda, Hezbollah, Hamas, the Shan United Army, or the Mexican federation of cartels. Follis was, in fact, one of the driving forces behind the agency's radical shift from a limited local focus to a global arena. In the early nineties, the DEA was primarily known for doing street-level busts evocative of Miami Vice. Today, it uses high-resolution-optics surveillance and classified cutting-edge technology to put the worst narco-terror kingpins on the business end of "stealth justice" delivered via Predator drone pilots. Spanning five continents and filled with harrowing stories about the world's most ruthless drug lords and terrorist networks, Follis's memoir reads like a thriller. Yet every word is true, and every story is documented. Follis earned a Medal of Valor for his work, and coauthor Douglas Century is a pro at shaping and telling just this kind of story.
