The Mississippi Boys Jane Bennett Gaddy 2008-09-12 Summer wheat, heavy with grain, waved in the July wind, and when touched by the afternoon sun, cast a golden glow on the rocks of Cemetery Ridge. Jonathan stood with his countrymen, rifle drawn, wiping sweat from his eyes with the sleeve of a ragged Confederate uniform. Then the nod, Longstreet to Pickett, whose men charged screaming the blood-curdling Rebel yell. Brave soldiers, strength pressed to the breach, fell like autumn leaves. Blood ran freely down the hill. Gettysburg was a trough. Jonathan could see with horrifying clarity from the hillside that Kemper, Armistead, and Semmes were dead. Garnett, already wounded in the leg, gallantly rode his horse in the charge facing certain death, and it was so. Jonathan reached the crest of the hill, slashing Union soldiers with every move, the grotesqueness of the hour searing his consciousness. He took a saber slash through the leg, grabbed the rogue Yank, and pulled him from his horse. With his bowie knife, he put an end to the savagery. But Jonathan was a savage himself. Both countries had gone mad and, in madness, had taken along every southern gentleman.

Radical David Platt 2012-02-28 WHAT IS JESUS WORTH TO YOU? It's easy for American Christians to forget how Jesus said his followers would actually live, what their new lifestyle would actually look like. They would, he said, leave behind security, money, convenience, even family for him. They would abandon everything for the gospel. They would take up their crosses daily... BUT WHO DO YOU KNOW WHO LIVES LIKE THAT? DO YOU? In Radical, David Platt challenges you to consider with an open heart how we have manipulated the gospel to fit our cultural preferences. He shows what Jesus actually said about being his disciple--then invites you to believe and obey what you have heard. And he tells the dramatic story of what is happening as a successful" suburban church decides to get serious about the gospel according to Jesus. Finally, he urges you to join in The Radical Experiment -- a one-year journey in authentic discipleship that will transform how you live in a world that desperately needs the Good News Jesus came to bring. (From the 2010 edition)"

Sustainable Cities Claudio Scardovi 2021-03-27 Global cities are facing an almost unprecedented challenge of change. As they re-emerge from the Covid 19 pandemic and get ready to face climate change and other, potentially existential threats, they need to look for new ways to support

wealth and wellbeing creation - leveraging Big Data and AI and suing them into their physical reality and to become greener, more inclusive and resilient, hence sustainable. This book describes how new digital technologies could be used to design digital and physical twins of cities that are able to feed into each other to optimize their working and ability to create new wealth and wellbeing. The book also describes how to increase cities' social and economic resilience during crisis time and addressing their almost fatal weaknesses - as it became all too obvious during the recent COVID 19 crisis. Also, the book presents a framework for a critical discussion of the concept of "smart-city", suggesting its development into a "cyber" and "meta" one - meaning, not only digital systems can allow physical ones (e.g. cities, citizens, households and companies) to become "smarter", but also the vice versa is true, as off line data and real life behaviours can support the optimization and development of virtual brains as a sum of big data and artificial intelligence apps all sitting "over the cloud". An analysis of the fundamental dynamics of this emerging "info-telligence" economy, and of the potential role of big digital players like Amazon, Google and Facebook is then paving the way to discuss a few strategic forays on how traditional sectors such as financial services, real estate, TMT or health could also evolve, leveraging Big Data and AI in a cyber-physical integrated setting. Finally, a number of thought provoking use cases that could be designed around individuals, and to improve the success and the resilience of households and companies living and working in urban areas are discussed, as an example of one of the most exciting future markets to come: the one of global, sustainable cities

Feels Like Home Lauren Liess 2021-10-19 The third design book from the TV and social media star and author of Habitat and Down to Earth, Feels Like Home explores the emotional connection that a home can have to a person's life. A house is a feeling. That is the conceit behind designer Lauren Liess's third book, which explores the emotional connection between the way we decorate our homes and our daily lives. She advises readers to think beyond just the objects in their homes and explore how design informs an intentional, happy, and authentic life. The

book includes practical design information, with never-before-seen case studies on a variety of homes including a beach cottage, a farmhouse, a home in the woods, a Spanish colonial, and other more traditional homes. Each case study explores a hardworking design aspect (such as proportion, scale, and color), while also focusing on the emotional aspect of the home. The chapters are inspired by the following themes: comfort, calm, excitement, belonging, carefree, love, and contentment.

Eyeland Nicole Charland 2019-05-24 You find yourself looking at a beautiful island. It's newly discovered in the midst of the continents. Off near its coast is paradise, to say the least. You don't turn away, there is

Bad Choices and Heartaches Casey Diam 2020-09-30 Ryker Stanley was a stunning specimen of a human, a creation that was aesthetically flawless. He is also a jerk. I know he hasn't always been this way—after all, we were once best friends, but when our friendship ended, I watched from the sidelines as he made a series of bad choices, and left dozens of broken hearts in his wake. He has the looks, the charm, the girls, and as an elite football player, he's heading off to college months earlier than anyone expected. I need to stay in Alpen Springs, to continue to train for the Olympics. My timing might not be perfect, but I need to fix things

with us, and if the fire in his eyes is any indication, nothing, including our clothes, will be immune to its heat. I don't stand a chance of resisting. Conflicting goals and distance be damned . . . I am about to entrust my heart to my ex-best friend who is known for breaking them.

Talking to Strangers Danielle Allen 2009-08-01 "Don't talk to strangers" is the advice long given to children by parents of all classes and races. Today it has blossomed into a fundamental precept of civic education, reflecting interracial distrust, personal and political alienation, and a profound suspicion of others. In this powerful and eloquent essay, Danielle Allen, a 2002 MacArthur Fellow, takes this maxim back to Little Rock, rooting out the seeds of distrust to replace them with "a citizenship of political friendship." Returning to the landmark *Brown v. Board of Education* decision of 1954 and to the famous photograph of Elizabeth Eckford, one of the Little Rock Nine, being cursed by fellow "citizen" Hazel Bryan, Allen argues that we have yet to complete the transition to political friendship that this moment offered. By combining brief readings of philosophers and political theorists with personal reflections on race politics in Chicago, Allen proposes strikingly practical techniques of citizenship. These tools of political friendship, Allen contends, can help us become more trustworthy to others and overcome the fossilized distrust among us. Sacrifice is the key concept that bridges citizenship and trust, according to Allen. She uncovers the ordinary, daily sacrifices citizens make to keep democracy working—and offers methods for recognizing and reciprocating those sacrifices. Trenchant, incisive, and ultimately hopeful, *Talking to Strangers* is nothing less than a manifesto for a revitalized democratic citizenry.
