Failed Imagination? Andrew J. Williams 1998 Francisco Gómez de Sandoval, Duke of Lerma (1553-1625) is the last major unknown statesman in modern European history. Patrick Williams brings him dramatically to life and challenges the assumptions that historians have made about him and about Spanish history at a time of profound crisis, inviting a re-evaluation of the phenomenon of government by favourites in this seminal period of European history. Lerma served Philip III as his favourite and first minister between 1598 and 1618. His power dazzled contemporaries; one petitioner telling Philip that he had come to see him 'because I could not get an appointment with the Duke of Lerma'. Within a decade of assuming office Lerma had raised his family from humiliating poverty to great riches and was the greatest patron of the arts in Europe. His use of power provoked intense debate about the nature of corruption in government. Yet Lerma remained deeply ambivalent about his position. Determined to follow family tradition and retire into religious life to secure the salvation of his soul, he secured a cardinalate in 1617, ending his life as a prince of the Church.

Failed Imagination? Andrew Williams 2013-01-18 The main purpose of this book is to explain how (mainly) American, but also British and other Western, policy makers have planned and largely managed to create

an international order in their own image, the so-called 'New World Order'. It shows how this seismic shift in international relations has developed through the major global wars of the twentieth and twenty-first centuries. It uses a wide variety of historical archival material to give the background to the current and historical American obsession with creating the world order, one that both reflects the American national interest but also can be said to have established the major security, economic, organisational and normative pillars of our epoch. In addition it provides excellent background reading for the current debate about American foreign policy and the origins of 'neo-conservatism' in international relations. This edition updates a very successful first edition of the title, with additional material to take into account changes in the global order since 2001 and the beginning of the 'War on Terror'.

**In a New Light** Abigail Harrison Moore 2021-07-15 In the early 1970s, a German study estimated that women expended as many calories cleaning their coal-mining husbands' work clothes as their husbands did working below ground, arguably making the home as much a site of industrialized work as factories and mines. But while energy studies are beginning to acknowledge the importance of social and historical contexts and to produce more inclusive histories of the unprecedented energy transitions that powered industrialization, women have remained notably absent from these accounts. In *A New Light* explores the vital place of women in the shift to fossil fuels that spurred the Industrial Revolution, illuminating the variety of ways in which gender and energy intersected in women's lives in nineteenth- and twentieth-century Europe and North America. From their labour in the home, where they managed the adoption of new energy sources, to their work as educators in electrical housecraft and their protests against the effects of industrialization, women took on active roles to influence energy decisions. Together these essays deepen our understanding of the significance of gender in the history of energy, and of energy transitions in the history of women and gender. By foregrounding women's energetic labours and concerns, the authors shed new light on energy use in the past and provide important insights as societies move towards a carbon-neutral future.

**Cool for the Summer** Dahlia Adler 2021-05-11 "Witty, wise, and disarmingly tender. I am hopelessly devoted to this summer dream of a book." —Becky Albertalli, New York Times bestselling author of *Simon vs. the Homo Sapiens Agenda* The guy of her dreams... or the girl in her heart? Lara's had eyes for exactly one person throughout her three years of high school: Chase Harding. He's tall, strong, sweet, a football star, and frankly, stupid hot. Oh, and he's talking to her now. On purpose and everything. Maybe...flirting, even? No, wait, he's definitely flirting, which is pretty much the sum of everything Lara's wanted out of life. Except she's haunted by a memory. A memory of a confusing, romantic, strangely perfect summer spent with a girl named Jasmine. A memory that becomes a confusing, disorienting present when Jasmine herself walks through the front doors of the school to see Lara and Chase chatting it up in front of the lockers. Lara has everything she ever wanted: a tight-knit group of friends, a job that borders on cool, and Chase, the boy of her literal dreams. But if she's finally got the guy, why can't she stop thinking about the girl? Dahlia Adler's *Cool for the Summer* is a story of self-discovery and new love. It's about the things we want and the things we need. And it's about the people who will let us be who we are.

Coming to terms with her past—the death of her father, the arrival of Cal Cooper, a complicated man with a definite interest in Billy, even the return of Wesley, will force her to have a little bit of faith in herself and others...and realize that happiness doesn't always mean perfection.
