**Dream Stone Moon** Paul Leonard 1998 "Sam is on her own, but her distance from the Doctor doesn't make for a trouble-free life. Rescued from an out-of-control spaceship, she finds herself on a tiny moon which is the only known source of dreamstone, a mysterious crystalline

substance that can preserve your dreams -- or give you nightmares. Pitched into the middle of a conflict between a mining company extracting dreamstone and ecological protesters, Sam thinks it's easy to decide who the good guys are -- until people start dying, and the killers seem to be the same species as some of her new friends. Meanwhile, the Doctor has tracked Sam down, but before he can reach her he's co-opted by the Dreamstone Mining Company and their sinister military advisers. Suddenly, it's war -- and the Doctor is forced to fight against what he believes in. He alone suspects that dreamstone isn't what it appears to be. But nobody's listening -- and nobody could dream who the real enemy is."-- Page 4 of cover.

Nola and Tina are both girls with problems. They don't know each other yet, but they will, because each is a Creator, with the magical ability to turn dreams into reality. It would be a great gift and a great power—if either knew she had it. But this world is hard on dreamers, whether they dream true or not. Nola is trapped in a terrible, abusive relationship with a man she once loved; Tina is an orphan who makes her living on the street. All their dreams are slowly being ground into dust. It's a common enough tragedy, a sorrow and a grief and a shame upon the world, no matter whom it happens to. But when dreams themselves die, when the great

dreamers stop dreaming, whole universes of imagination are lost. And the land of Nola and Tina's dreams is fighting back. Into their miserable everyday world soars Esprit, a winged unicorn dark as the space between the stars. He is the vessel of Nola's dreams, come to aid her in her battle with sordid reality. Following after him comes Prince Michael, whose quest it is to find the human dreamers who can save his land from ruin.

Character is Structure Ted Wilkes 2023-03-09

This book seeks to reshape the way that writers think about constructing their story, looking at the subject from the inside out. Often practitioners and theorists examine work through the separate lenses of character and/or structure and then bring them together. Within this book, authors Hughes and Wilkes argue that character is structure and one without the other makes for a dissatisfying narrative. Through detailed case studies on films that span all genres, from mainstream franchises like *The Hunger Games* (2012-2015) and *Shrek* (2001-2010) to art house films such as *Toto Le Heros* (1991) and *Eraserhead* (1977), the authors reveal the dramatic imperative behind the central choices or dilemmas faced by every protagonist in every classic feature length narrative. They argue there is only one of five choices that any writer must make in inventing that key transition from the protagonist's ordinary world into the adventure that will form the heart of their story. Using the universal language of folk and fairy stories, this book gives writers and students a clear framework through which they can reference and improve their own storytelling. In doing so, it enables both the novice and experienced screenwriter to tell their story in the most authentic and impactful way, while keeping their protagonist at the heart of the narrative.

*The Time Killers* Greg Patmore 2008-10-04

Haven't you ever wondered where time comes from, or what it's made of? Does it go on endlessly, or is there just a certain amount of it, like grains of sand in an egg timer? Is every bit of time the same as every other, or are there different types here and there? Why do some people struggle to cope if they have too much time, whilst others never seem to be able to find enough? What if time works differently for some people? People like Timothy Swift, for instance.

He's always trying to find some time, to make time, to buy a little time...because he always has too much to do, and never enough time to do it in. But the funny thing is, no matter how little time Timothy has, he somehow gets everything done. And, remarkably, even when he doesn't have a single moment to spare, he can almost always find enough time to do one more thing. And what about dreams? Does time work the same in dreams?

**Hollywood Heroes** Frank Turek 2022-05 Seven fictional stories--Captain America, Iron Man, Harry Potter, Star Wars, The Lord of the Rings, Batman, and Wonder Woman--point us to the ultimate hero, Jesus Christ. Think about it. What if Batman knew your name and wanted to be friends with you? What if you were the one that Tony Stark died to save? What if it was you that Luke Skywalker would stop at nothing to redeem? Hollywood Heroes will awaken you to these questions and help you to see a God who stops at nothing to redeem you. And it will strengthen you to invite others into conversations of faith and life in Jesus. Fictional stories about heroes help us realize that there is evil to fight, souls to be won, and growth to be achieved. It helps us recognize--regardless of religious or cultural beliefs--that sacrificing your life for another's is a powerful and beautiful display of love. Fictional heroes help us to reconsider what is tangibly in front of us through the lens of story rather than simply as just another day in our ordinary lives. Appealing straight to the heart, the stories bypass artificial barriers that we would normally block them with because our worldview has been threatened. When we examine out-of-this-world qualities like idealism, genius, a willingness to sacrifice, discipline, loyalty, humility, courage, wisdom, focus, power, and love, we discover that Jesus practices them perfectly.

**Archaeological Sites as Space for Modern Spiritual Practice** Raimund Karl 2018-11-07 Archaeological heritage can be disputed, especially where it is important to religions and their practitioners. While the destruction of archaeological sites in war - often due to religious fervour - is frequently making the headlines, apparently lesser disputes about local heritage sites go unreported. This book focuses on these lesser, but much more frequent, potential conflicts between archaeological heritage management and conservation on the one hand, and practitioners of religious beliefs who use archaeological heritage in their practice on the other. By exploring case studies from Austria, the Czech Republic, Estonia, France

Norway, Romania, Russia, Spain, Sweden and Wales, this book examines the interaction between spiritual practice and monuments conservation. This book will be of great interest to heritage professionals, archaeologists, historians, conservationists and religious practitioners alike, through its exploration of various kinds of interactions between these different heritage communities and their interests in archaeology.
