Vince Guaraldi at the Piano

Derrick Bang 2014-01-10 Although Vince Guaraldi's playful jazz piano themes for the early Peanuts animated television specials are well known, the composer himself

remains largely unheralded. More than merely “the Peanuts guy,” Guaraldi cut his jazz teeth as a member of combos fronted by Cal Tjader and Woody Herman, and garnered Top 40 fame with his Grammy Award-winning hit “Cast Your Fate to the Wind.” This career study gives Guaraldi long-overdue recognition, chronicling his years as a sideman; his attraction to the emerging bossa nova sound of the late 1950s; his collaboration with Brazilian guitarist Bola Sete; his development of the Grace Cathedral Jazz Mass; his selection as the fellow to put the jazz swing in Charlie Brown’s step; and his emergence as a respected veteran in the declining Northern California jazz club scene of the 1970s. Throughout, this welcome volume conveys the magic and legacy of one of jazz music’s overlooked treasures.

The Essential HBO Reader

Gary R. Edgerton 2013-07-24
Essays on the history of HBO, a company designed to please

audiences instead of advertisers, and the impact of its distinctive programming: “Recommended.” —Choice The founding of Home Box Office in the early 1970s—when it debuted by telecasting a Paul Newman movie and an NHL game to 365 households in Wilkes-Barre, Pennsylvania—was a harbinger of the innovations that would transform television as an industry and a technology in the decades that followed. HBO quickly became synonymous with subscription television—and the leading force in cable programming. Over decades, it’s grown from a domestic movie channel to an international powerhouse with a presence in over seventy countries. It is now a full-service content provider with a distinctive brand of original programming, famed for such landmark shows as *The Sopranos* and *Sex and the City*. It’s brought us *Six Feet Under* and *The Wire*, *Band of Brothers* and *Angels in America*, *Curb Your Enthusiasm* and *Def Comedy Jam*, *Inside the NFL*

and Real Sports with Bryant Gumbel, Taxicab Confessions and Autopsy, and multiple Oscar-winning documentaries. The Essential HBO Reader brings together an accomplished group of scholars to explain how HBO's programming transformed the world of television and popular culture, and provides a comprehensive and compelling examination of HBO's development into the prototypical entertainment corporation of the twenty-first century. "An important assessment of the original programming HBO has created in the past few decades?how these programs are derived and what impact they have had." —Choice "A thorough treatment of HBO's programming . . . a useful addition to a growing number of books about American television in the 'post-network' era." —American Studies

A Language of Song Samuel Charters 2009-04-15 In A Language of Song, Samuel Charters—one of the pioneering collectors of African

American music—writes of a trip to West Africa where he found "a gathering of cultures and a continuing history that lay behind the flood of musical expression [he] encountered everywhere . . . from Brazil to Cuba, to Trinidad, to New Orleans, to the Bahamas, to dance halls of west Louisiana and the great churches of Harlem." In this book, Charters takes readers along to those and other places, including Jamaica and the Georgia Sea Islands, as he recounts experiences from a half-century spent following, documenting, recording, and writing about the Africa-influenced music of the United States, Brazil, and the Caribbean. Each of the book's fourteen chapters is a vivid rendering of a particular location that Charters visited. While music is always his focus, the book is filled with details about individuals, history, landscape, and culture. In first-person narratives, Charters relates voyages including a trip to the St. Louis home of the legendary ragtime

composer Scott Joplin and the journey to West Africa, where he met a man who performed an hours-long song about the Europeans' first colonial conquests in Gambia.

Throughout the book, Charters traces the persistence of African musical culture despite slavery, as well as the influence of slaves' songs on subsequent musical forms. In evocative prose, he relates a lifetime of travel and research, listening to brass bands in New Orleans; investigating the emergence of reggae, ska, and rock-steady music in Jamaica's dancehalls; and exploring the history of Afro-Cuban music through the life of the jazz musician Bebo Valdés. *A Language of Song* is a unique expedition led by one of music's most observant and well-traveled explorers.

Musical Voices of Early Modern Women Thomasin LaMay 2017-05-15 Recent scholarship has offered a veritable landslide of studies about early modern women, illuminating them as writers, thinkers, midwives, mothers, in convents, at home, and as

rulers. *Musical Voices of Early Modern Women* adds to the mix of early modern studies a volume that correlates women's musical endeavors to their lives, addressing early modern women's musical activities across a broad spectrum of cultural events and settings. The volume takes as its premise the notion that while women may have been squeezed to participate in music through narrower doors than their male peers, they nevertheless did so with enthusiasm, diligence, and success. They were there in many ways, but as women's lives were fundamentally different and more private than men's were, their strategies, tools, and appearances were sometimes also different and thus often unstudied in an historical discipline that primarily evaluated men's productivity. Given that, many of these stories will not necessarily embrace a standard musical repertoire, even as they seek to expand canonical borders. The contributors to this collection explore the

possibility of a larger musical culture which included women as well as men, by examining early modern women in "many-headed ways" through the lens of musical production. They look at how women composed, assuming that compositional gender strategies may have been used differently when applied through her vision; how women were composed, or represented and interpreted through music in a larger cultural context, and how her presence in that dialog situated her in social space.

Contributors also trace how women found music as a means for communicating, for establishing intellectual power, for generating musical tastes, and for enhancing the quality of their lives. Some women performed publicly, and thus some articles examine how this impacted on their lives and families. Other contributors inquire about the economics of music and women, and how in different situations some women may have been financially empowered or even in control of their own money-

making. This collection offers a glimpse at women from home, stage, work, and convent, from many classes and from culturally diverse countries - including France, Spain, Italy, England, Austria, Russia, and Mexico - and imagines a musical history centered in the realities of those lives.

Abe, Son of Abraham Abe J. Bassett 2014-02-03 Abe, Son of Abraham begins as a series of well written and funny vignettes about the author's early years and his special relationship with his father. It concludes with remembrances of his uncles and aunts, immigrants from Lebanon. In between are stories of adventures of hitchhiking in Europe, serving in the Army in the Far East and traveling in the Middle East. The title derives from the fact that Abe and Abraham are Junior and Senior, leading to the book's dedication to the father whose influence permeated the life of the junior. Abe J. Bassett is Emeritus Professor of Theatre Arts at Wright State University, and former Dean of the School

of Fine and Performing Arts at Indiana University Purdue University Fort Wayne. He writes about his academic career and how his Theatre Arts department became the most outstanding

undergraduate program in Ohio. Earlier he edited and published *Memories of Rahija*, stories of his mother.

Music and Dyslexia Timothy R. Miles 2008-04-14 Music and dyslexia is of particular interest for two reasons. Firstly, research suggests that music education can benefit young dyslexics as it helps them focus on auditory and motor timing skills and highlights the rhythms of language. Secondly, dyslexic musicians at a more advanced level face particular challenges such as sight-reading, written requirements of music examinations and

extreme performance nerves. This is a sequel to the highly successful *Music and Dyslexia: Opening New Doors*, published in 2001. The field of dyslexia has developed rapidly, particularly in the area of neuropsychology. Therefore this book focuses on these research advances, and draws out the aspects of music education that benefit young dyslexics. The contributors also discuss the problems that dyslexic musicians face, and several chapters are devoted to sight-reading and specific strategies that dyslexics can use to help them sight-read. The book offers practical techniques and strategies, to teachers and parents to help them work with young dyslexics and dyslexic musicians.

The Recorder David Lasocki

2022-11-22 The fascinating story of a hugely popular instrument, detailing its rich and varied history from the Middle Ages to the present The recorder is perhaps best known today for its educational role. Although it is frequently regarded as a stepping-stone on the path toward higher musical pursuits, this role is just one recent facet of the recorder's fascinating history—which spans professional and amateur music-making since the Middle Ages. In this new addition to the Yale Musical Instrument Series, David Lasocki and Robert Ehrlich trace the evolution of the recorder. Emerging from a variety of flutes played by fourteenth-century soldiers, shepherds, and watchmen, the recorder swiftly became an artistic instrument for courtly and city minstrels. Featured in music by

the greatest Baroque composers, including Bach and Handel, in the twentieth century it played a vital role in the Early Music Revival and achieved international popularity and notoriety in mass education. Overall, Lasocki and Ehrlich make a case for the recorder being surprisingly present, and significant, throughout Western music history.

Songs in the Key of Z Irwin Chusid 2000 Irwin Chusid profiles a number of "outsider" musicians - those who started as "outside" and eventually came "in" when the listening public caught up with their radical ideas. Included are The Shaggs, Tiny Tim, Syd Barrett, Joe Meek, Captain Beefheart, The Cherry Sisters, Daniel Johnston, Harry Partch, Wesley Willis, and others.

A&R Pioneers Brian Ward 2018-06-26 Association for Recorded Sound Collections Certificate of Merit for the Best Historical Research in Recorded Roots or World Music, 2019 A&R Pioneers offers the first comprehensive

account of the diverse group of men and women who pioneered artists-and-repertoire (A&R) work in the early US recording industry. In the process, they helped create much of what we now think of as American roots music. Resourceful, innovative, and, at times, shockingly unscrupulous, they scouted and signed many of the singers and musicians who came to define American roots music between the two world wars. They also shaped the repertoires and musical styles of their discoveries, supervised recording sessions, and then devised marketing campaigns to sell the resulting records. By World War II, they had helped redefine the canons of American popular music and established the basic structure and practices of the modern recording industry. Moreover, though their musical interests, talents, and sensibilities varied enormously, these A&R pioneers created the template for the job that would subsequently become known as "record producer." Without Ralph Peer, Art Satherley,

Frank Walker, Polk C. Brockman, Eli Oberstein, Don Law, Lester Melrose, J. Mayo Williams, John Hammond, Helen Oakley Dance, and a whole army of lesser known but often hugely influential A&R representatives, the music of Bessie Smith and Bob Wills, of the Carter Family and Count Basie, of Robert Johnson and Jimmie Rodgers may never have found its way onto commercial records and into the heart of America's musical heritage. This is their story.
