John 11-21 Joel C. Elowsky
2007-04-27 The Gospel of John was beloved by the early church for its spiritual insight and clear declaration of Jesus' divinity. In addition to the homilies of John Chrysostom, readers of this ACCS volume

will find selections from Origen, Cyril of Alexandria, and Augustine, supplemented with homiletic material, liturgical selections, and doctrinal material from scores of other church fathers.

Quodvultdeus of Carthage
Quodvultdeus (Bishop of

Carthage) 2004 "This latest volume in the Ancient Christian Writers series offers a first-time translation and commentary of the Latin Creedal Homilies of Quodvultdeus, a younger contemporary, friend, and correspondent of St. Augustine." "Deeply influenced by the theology and rhetoric of Augustine, the homilies provide an invaluable window on the fifth-century church in Carthage and Roman North Africa, including her views on Judaism and paganism, as well as her internal dynamics, debates, and strife. The homilies focus on the nature, meaning, and effect of the liturgy of baptism during the process of conversion to a living Christianity. From the homilies, the reader learns who the candidates were, why they sought a new religious life, what they expected from Christianity, what was expected of them, and how the baptismal liturgy transformed and initiated them into the church's life. The homilies confirm and advance what can

be learned from St. Augustine and his predecessors - not to mention his other North African contemporaries and successors - about both conversion and the extensive and complex liturgy of baptism."--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc. All Rights Reserved

Empress Galla Placidia and the Fall of the Roman

Empire Kenneth Atkinson

2020-05-12 Despite her status as one of history's most important women, the story of Galla Placidia's life has been largely forgotten. Though the Roman empress witnessed the decline and fall of the Roman Empire in the 5th century and lived a life of almost constant suffering, her actions helped postpone the fall of Rome and had massive, widespread impact on the empire that can still be felt today. She watched the barbarian king Alaric and his horde of Visigoth warriors sack Rome, slaughter many of the city's inhabitants, and take her hostage. Surviving captivity, Galla Placidia

became the queen of the barbarians who had imprisoned her. Eventually, she became the only woman to rule the Roman empire alone. Soldiers obeyed her commands while Popes and Christian saints alike sought her advice.

Despite all obstacles and likely suffering from what we now know as PTSD, she lived to an old age by the standards of the time. This book uses the letters and writings of Galla Placidia's contemporaries to reconstruct, in more depth and detail than has previously been attempted, the remarkable story of her life and the decline and fall of the Roman Empire.

Touched by Christ: The Sacramental Economy

Lawrence Feingold 2021-05-07

The sacramental economy was instituted by Christ and entrusted to His Church in order to build up the Body of Christ in a twofold communion: binding the members together with God and one another.

Touched by Christ: The Sacramental Economy is an introductory course on Sacramental Theology suitable

for all who seek a deeper understanding of how the Church's sacraments constitute channels of grace, nurture supernatural life, and heal us from our sins. Lawrence Feingold expertly describes the nature of the sacraments; their purpose, fittingness, and relationship with Christ and the New Covenant; their relationship with the Old Covenant rites that prefigured them; the character and grace that they communicate; and the nature of their causality. Touched by Christ shows that the sacraments of the New Covenant should be understood as instruments of Christ's humanity that are used as words of power to communicate the sanctification that they signify, infuse grace, communicate the Holy Spirit, and build up ecclesial communion in those who receive them with the right dispositions.

I Judge No One David Lloyd Dusenbury 2023-01-01 Why was Jesus, who said "I judge no one," put to death for a political crime? Of course, this is a historical question--but it is not only historical. Jesus's life became a philosophical theme in the first centuries of our era, when "pagan" and Christian philosophers clashed over the meaning of his sayings and the significance of his death.

Modern philosophers, too, such as Immanuel Kant and Friedrich Nietzsche, have tried to retrace the arc of Jesus's life and death. *I Judge No One* is a philosophical reading of the four memoirs, or "gospels," that were fashioned by early Christ-believers and collected in the New Testament. It offers original ways of seeing a deeply enigmatic figure who calls himself the Son of Man. David Lloyd Dusenbury suggests that Jesus offered his contemporaries a scandalous double claim. First, that human judgements are pervasive and deceptive; and second, that

even divine laws can only be fulfilled in the human experience of love. Though his life led inexorably to a grim political death, what Jesus's sayings revealed--and still reveal--is that our highest desires lie beyond the political.

Hermetica II 2018-06-21 This volume presents in new English translations the scattered fragments and testimonies regarding Hermes Thrice Great that complete Brian Copenhaver's translation of the *Hermetica* (Cambridge, 1992). It contains the twenty-nine fragments from Stobaeus (including the famous *Kore Kosmou*), the Oxford and Vienna fragments (never before translated), an expanded selection of fragments from various authors (including Zosimus of Panopolis, Augustine, and Albert the Great), and testimonies about Hermes from thirty-eight authors (including Cicero, Pseudo-Manetho, the Emperor Julian, Al-Kindī, Michael Psellus, the Emerald Tablet, and Nicholas of Cusa). All translations are

accompanied by introductions and notes which cite sources for further reading. These Hermetic texts will appeal to a broad array of readers interested in western esotericism including scholars of Egyptology, the New Testament, the classical world, Byzantium, medieval Islam, the Latin Middle Ages, and the Renaissance.

Christianity in Roman Africa

J. Patout Burns 2014-11-30 In-depth, illustrated exploration of how early North African Christians lived out their faith Using a combination of literary and archeological evidence, this in-depth, illustrated book documents the development of Christian practices and doctrine in Roman Africa -- contemporary Libya, Tunisia, Algeria, and Morocco -- from the second century through the Arab conquest in the seventh century. Robin Jensen and Patout Burns, in collaboration with Graeme W. Clarke, Susan T. Stevens, William Tabbernee, and Maureen A. Tilley, skillfully reconstruct the rituals and practices of Christians in the

ancient buildings and spaces where those practices were performed. Numerous site drawings and color photographs of the archeological remains illuminate the discussions. This work provides valuable new insights into the church fathers Tertullian, Cyprian, and Augustine. Most significantly, it offers a rich, unprecedented look at early Christian life in Roman Africa, including the development of key rituals and practices such as baptism and eucharist, the election and ordination of leaders, marriage, and burial. In exploring these, Christianity in Roman Africa shows how the early African Christians consistently fought to preserve the holiness of the church amid change and challenge.

Augustine and Tradition

David G. Hunter 2021-11-23 An indispensable resource for those looking to understand Augustine's place in religious

and cultural heritage Augustine towers over Western life, literature, and culture—both sacred and secular. His ideas permeate conceptions of the self from birth to death and have cast a long shadow over subsequent Christian thought. But as much as tradition has sprung from Augustinian roots, so was Augustine a product of and interlocutor with traditions that preceded and ran contemporary to his life. This extensive volume examines and evaluates Augustine as both a receiver and a source of tradition. The contributors—all distinguished Augustinian scholars influenced by J. Patout Burns and interested in furthering his intellectual legacy—survey Augustine's life and writings in the context of North African tradition, philosophical and literary traditions of antiquity, the Greek patristic tradition, and the tradition of Augustine's Latin contemporaries. These various pieces, when assembled, tell a comprehensive story of

Augustine's significance, both then and now. Contributors: Alden Bass, Michael Cameron, John C. Cavadini, Thomas Clemmons, Stephen A. Cooper, Theodore de Bruyn, Mark DelCogliano, Geoffrey D. Dunn, John Peter Kenney, Brian Matz, Andrew McGowan, William Tabbernee, Joseph W. Trigg, Dennis Trout, and James R. Wetzel.

Gifts Glittering and

Poisoned Chanon Ross

2014-11-18 Spectacles designed to capture our attention surround us. Marketing, movies, shopping malls, concerts, and virtual realities capture our imaginations and cultivate our desires. We live in a "society of the spectacle." However, is the power and prevalence of spectacle unique to the modern era? In the pages of Gifts Glittering and Poisoned, early Christian voices echo across the centuries to show that the society of the spectacle is not new. Our era resembles a time when the spectacular entertainments of ancient Rome had a profound effect on

every aspect of social life. By drawing on the rich theology and witness of early Christianity, *Gifts Glittering and Poisoned* asks what it means for us to live in a new era of empire and spectacle. Through Augustine's description of the demonic, it shows how consumerism constructs a sophisticated symbolic order, a "society of the spectacle," that corrupts our deepest longings for God. *The Cross and the Eucharist in Early Christianity* Daniel Cardó 2019-01-24 An investigation on ancient sources (patristic and liturgical) on the Cross and the Eucharist that sheds light on contemporary discussions.

Ancient African Christianity

David E. Wilhite 2017-07-14 Christianity spread across North Africa early, and it remained there as a powerful force much longer than anticipated. While this African form of Christianity largely shared the Latin language and Roman culture of the wider empire, it also represented a unique tradition that was shaped by its context. Ancient

African Christianity attempts to tell the story of Christianity in Africa from its inception to its eventual disappearance. Well-known writers such as Tertullian, Cyprian, and Augustine are studied in light of their African identity, and this tradition is explored in all its various expressions. This book is ideal for all students of African Christianity and also a key introduction for anyone wanting to know more about the history, religion, and philosophy of these early influential Christians whose impact has extended far beyond the African landscape.

Approaching the Threshold of Mystery

Joris Geldhof 2015-09-10 *Approaching the Threshold of Mystery* brings two recently estranged strands of theology back together, to explore the same 'liturgical worlds' and to chart 'theological spaces'. The editors have assembled a formidable group of scholars from systematic and liturgical theology with the express purpose of examining the mystery of the liturgy with both

expert perspectives in mind. The result is thirteen essays that return to a more 'synoptic' theology, seeing speculative and liturgical approaches as united together for a common purpose, and ultimately approaching the same mysterious, sacred reality. In today's fragmented world, this approach is sorely needed, and although many postmodern authors point out the need for healing this division, this volume actually attempts to bridge the disciplinary divide by placing specialists within the same prayerful 'space', oriented towards something greater than what is merely enacted in human words and deeds.

Perpetua Barbara K. Gold
2018-09-17 Perpetua was an early Christian martyr who died in Roman Carthage in 203 CE, along with several fellow martyrs, including one other woman, Felicitas. She has attracted great interest for two main reasons: she was one of the earliest martyrs, especially female martyrs, about whom we have any knowledge, and

she left a narrative written in prison just before she went to her death in the amphitheater. Her narrative is embedded in a tripartite telling of the arrest and deaths of these martyrs, the *Passio Sanctarum Perpetuae et Felicitatis*. The other two parts of her tale were written by Saturus, a fellow martyr and probably her teacher, and a nameless editor or confessor, who introduces her circumstances and group and then tells of her death after she stops writing. Her story is steeped in mystery, and every aspect of her life and death has generated much controversy. Some do not believe that she herself could have written the narrative: the circumstances of her imprisonment and the limitations of her ability to write such a rhetorically complex tale are inconceivable. Some believe that her editor was none other than Tertullian, the famous 2nd-3rd century church father and Perpetua's fellow north African. Some, including Augustine, wonder why the feast day was named

only for Perpetua and Felicitas and not for her fellow male martyrs. Some believe that these martyr tales were largely fabricated or constructed in order to generate publicity for the early Christians. This book will investigate and try to make sense of all aspects of Perpetua's life, death, and circumstances: her family and life in Carthage, Christians and Romans in Carthage and in the Roman empire in this period, the comparisons of martyrs to athletes, the influence of these martyr tales upon the Acts of the Apostles and the Greek novel, the reactions of later church fathers like Augustine to her story and her popularity, and the gendering of this text.

The Aura of the Word in the Early Age of Print

(1450?600) Samuel Mareel
2017-07-05 Did the invention of movable type change the way that the word was perceived in the early modern period? In his groundbreaking essay "The Work of Art in the Age of Mechanical Reproduction," the cultural critic Walter Benjamin argued that reproduction

drains the image of its aura, by which he means the authority that a work of art obtains from its singularity and its embeddedness in a particular context. The central question in *The Aura of the Word in the Early Age of Print (1450-1600)* is whether the dissemination of text through print had a similar effect on the status of the word in the early modern period. In this volume, contributors from a variety of fields look at manifestations of the early modern word (in English, French, Latin, Dutch, German and Yiddish) as entities whose significance derived not simply from their semantic meaning but also from their relationship to their material support, to the physical context in which they are located and to the act of writing itself. Rather than viewing printed text as functional and lacking in materiality, contributors focus on how the placement of a text could affect its meaning and significance. The essays also consider the continued vitality of pre-printing-press kinds of text such as the illuminated

manuscript; and how new practices, such as the veneration of handwriting, sprung up in the wake of the invention of movable type. The Rites of Christian Initiation Maxwell E. Johnson 2016-03-24 Originally published in 1999, *The Rites of Christian Initiation* was hailed for its clarity and comprehensiveness. Kalian McDonnell, OSB, called it the best overall treatment of Christian initiation available, and Paul Bradshaw predicted it would be the standard textbook on the subject for very many years to come." The current edition draws on new translations of early texts on baptism as well as recent scholarship on the early traditions in the East and West. It is sure to replace itself as the new standard reference on the rites of Christian initiation. Maxwell E. Johnson's expanded and revised text provides a more complete view of the history and interpretation of the rites in the Eastern Church, including two chapters that explore the pre-Nicene Eastern and Western traditions in

detail. Revisiting the theology of baptism, this edition also provides more nuanced positions on the Eastern and Western traditions. Finally, recent liturgical developments in American Protestant churches, particularly Lutheran, as well as the ongoing development of the RCIA and confirmation practices of Catholics, made it necessary to revisit the place and meaning of these rites in the church today. Maxwell E. Johnson, PhD, is professor of liturgy at the University of Notre Dame and an ordained minister of the Evangelical Lutheran Church in America. He has published in *Worship* and is the editor of and contributor to *Living Water, Sealing Spirit: Readings on Christian Initiation* (Liturgical Press, 1995) and the revised and expanded edition of E.C. Whitaker, *Documents of the Baptismal Liturgy* (Liturgical Press and S.P.C.K., 2003), to which this study serves as a companion volume. "

Ancient Christian Writers 1946
Matthew's Account of the

Massacre of the Innocents in Light of its Reception History
Sung J. Cho 2021-10-21 Sung Cho addresses the seeming contradiction of Herod the Great's massacre in Matthew 2:16-18, questioning why such a tragedy had to occur, why it was included in the good news of Jesus, and what connection it has to ancient prophecies. In creating a reception history of the Massacre of the Innocents, Cho progresses through two millennia worth of interpretation and depiction to highlight key works for discussion. Beginning with a close reading of Matthew 2:16-18, Cho moves to analyse depictions of the tragedy in the Early Patristic Tradition, from the sixth century to the early modern period, and thus to the present day; complete with an examination of visual interpretations of the massacre. Cho's examination provides a positive step to understanding the depths of human suffering with the help of many diverse perspectives.

Preaching Christology in the Roman Near East Philip

Michael Forness 2018
"Preaching formed one of the primary, regular avenues of communication between ecclesiastical elites and a wide range of society. Clergy used homilies to spread knowledge of complex theological debates prevalent in late antique Christian discourse. Some sermons even offer glimpses into the locations in which communities gathered to hear orators preach. Although homilies survive in greater number than most other types of literature, most do not specify the setting of their initial delivery, dating, and authorship. Preaching Christology in the Roman Near East addresses how we can best contextualize sermons devoid of such information. The first chapter develops a methodology for approaching homilies that draws on a broader understanding of audience as both the physical audience and the readership of sermons. The remaining chapters offer a case study on the renowned Syriac preacher Jacob of Serugh (c. 451-521)

whose metrical homilies form one of the largest sermon collections in any language from late antiquity. His letters connect him to a previously little-known Christological debate over the language of the miracles and sufferings of Christ through his correspondence with a monastery, a Roman military officer, and a Christian community in South Arabia. He uses this language in homilies on the Council of Chalcedon, on Christian doctrine, and on biblical exegesis. An analysis of these sermons demonstrates that he communicated miaphysite Christology to both elite reading communities as well as ordinary audiences. Philip Michael Forness provides a new methodology for working with late antique sermons and discloses the range of society that received complex theological teachings through preaching."--

Baptism in the Early Church

Everett Ferguson 2013-09-26
This magisterial volume is a comprehensive survey of the doctrine and practice of

baptism in the first five centuries of Christian history, arranged geographically within chronological periods. Baptism in the Early Church covers the antecedents to Christian baptism and traces the history of Christian doctrine and practice from the New Testament through the writings of the church fathers of the fourth and fifth centuries. The book deals primarily with the literary sources, though it also gives attention to depictions of baptism (primarily of Jesus) in various art forms and to the surviving baptismal fonts. Ferguson's thorough study points to the central importance of baptism in the early church. Many blessings were attributed to baptism, but the two earliest and most consistently mentioned are forgiveness of sins and the reception of the Holy Spirit; faith and repentance were necessary in order to receive these benefits. Jewish immersion rites, the practice of John the Baptist, the meaning of the words used for baptism, the literary descriptions, and

the material remains argue that full immersion was the normal practice, and the evidence from art is consistent with this interpretation. Containing nearly everything currently known about the early Christian ritual of baptism, with extensive citations to the primary and secondary literature, Ferguson's *Baptism in the Early Church* is destined to be a standard reference work. [The Announcement](#) Hana Gründler 2020-09-21 The Annunciation: a specific event recounted in the Bible and often represented in artworks, but also the prototype of many other announcements throughout the history of Western culture. This volume proposes new readings of pictorial Annunciations from the Middle Ages and the Early Modern period - treating aspects such as witnesses, inscriptions and architecture - as well as analyses of some visual echoes, reenactments of the announcement to Mary in sacred and profane contexts up to the twenty-first century.

Among the latter are included Venetian decoration glorifying the state, a Jean-Luc Godard film, a video art piece by Eija-Liisa Ahtila, Lars von Trier's *Melancholia* and a saint's bedroom turned into a pilgrimage site.

The Early Christian World

Philip F. Esler 2017-07-20

Since its publication in 2000, *The Early Christian World* has come to be regarded by scholars, students and the general reader as one of the most informative and accessible works in English on the origins, development, character and major figures of early Christianity. In this new edition, the strengths of the first edition are retained. These include the book's attractive architecture that initially takes a reader through the context and historical development of early Christianity; the essays in critical areas such as community formation, everyday experience, the intellectual and artistic heritage, and external and internal challenges; and the profiles on the most influential early Christian

figures. The book also preserves its strong stress on the social reality of early Christianity and continues its distinctive use of hundreds of illustrations and maps to bring that world to life. Yet the years that have passed since the first edition was published have seen great advances made in our understanding of early Christianity in its world. This new edition fully reflects these developments and provides the reader with authoritative, lively and up-to-date access to the early Christian world. A quarter of the text is entirely new and the remaining essays have all been carefully revised and updated by their authors. Some of the new material relates to Christian culture (including book culture, canonical and non-canonical scriptures, saints and hagiography, and translation across cultures). But there are also new essays on: Jewish and Christian interaction in the early centuries; ritual; the New Testament in Roman Britain; Manichaeism; Pachomius the Great and Gregory of Nyssa.

This new edition will serve its readers for many years to come.

ACW 74. Teachings of the Desert Fathers, The 2020 An English translation of several Latin collections of the Apophthegmata patrum, including the Commonitiones Sanctorum Patrum, Vitae patrum 6, Paschasius of Dumium's Geronticon, and excerpts from Vitae patrum 3 and 7.

Religious Dissent in Late Antiquity, 350-450 Maijastina Kahlos 2019-12-16 Religious Dissent in Late Antiquity reconsiders the religious history of the late Roman Empire, focusing on the shifting position of dissenting religious groups - conventionally called "pagans" and "heretics". The period from the mid-fourth century until the mid-fifth century CE witnessed a significant transformation of late Roman society and a gradual shift from the world of polytheistic religions into the Christian Empire. This book challenges the many straightforward melodramatic

narratives of the Christianisation of the Roman Empire, still prevalent both in academic research and in popular non-fiction works. Religious Dissent in Late Antiquity demonstrates that the narrative is much more nuanced than the simple Christian triumph over the classical world. It looks at everyday life, economic aspects, day-to-day practices, and conflicts of interest in the relations of religious groups. Religious Dissent in Late Antiquity addresses two aspects: rhetoric and realities, and consequently, delves into the interplay between the manifest ideologies and daily life found in late antique sources. It is a detailed analysis of selected themes and a close reading of selected texts, tracing key elements and developments in the treatment of dissident religious groups. The book focuses on specific themes, such as the limits of imperial legislation and ecclesiastical control, the end of sacrifices, and the label of magic. Religious Dissent in

Late Antiquity examines the ways in which dissident religious groups were construed as religious outsiders, but also explores local rituals and beliefs in late Roman society as creative applications and expressions of the infinite range of human inventiveness.

Aspects of Doctoral Research at the Maryvale International Catholic Institute (Volume Two)

Andrew B. Morris 2019-07-21

Established at Old Oscott in Birmingham, England, in 1980, the Maryvale Institute provides a variety of part-time and distance learning courses to the lay faithful, and consecrated religious and ministers of the Roman Catholic Church. Maryvale's doctoral research programme in Catholic Studies is conducted in collaboration with, and accredited by, Liverpool Hope University. Successful students receive an award of a Doctor of Philosophy (PhD) degree from the University. This book is the second in a series of volumes

concerned with the outcomes of that doctoral research programme. It provides an overview of the breadth of work by its students in the UK, Europe, the USA and Africa and their contribution to new knowledge in the area of Catholic studies, a wide field including history, literature, philosophy, spirituality, and theology.

The Book of Revelation and Its Interpreters Ian Boxall
2015-11-25 The Book of Revelation has fired the imaginations of theologians, preachers, artists, and ordinary Christians across the centuries. The resulting number of commentaries on the book is enormous, and most studies can only touch upon, at most, a representative sample of this vast literature. As a consequence, many focus largely on the interpretation of the Apocalypse only within specific periods, such as the patristic period or during the Reformation. One result of this severe limitation given the vast literary corpus is how historical interpretations in critical

commentaries of the Book of Revelations tend to prioritize authors from the modern period. In The Book of Revelation and Its Interpreters: Short Studies and an Annotated Bibliography, editors Richard Tresley and Ian Boxall fill a significant gap in the scholarly literature. At its heart is an extensive annotated bibliography, covering commentaries on the book up to 1700, including most of the early illuminated Apocalypses. Supporting the presentation of this survey of the historical interpretations of the Book of Revelation is an extended overview of Revelation's often-colorful reception history by Christopher Rowland, together with a number of short studies on various aspects of the book. These include discussions of specific commentators, such as Sean Michael Ryan's look at Tyconius and Francis X. Gumerlock exploration of Chromatius of Aquileia, alongside a more general treatment of Revelation's impact on the figure of John of Patmos in an essay by Ian

Boxall and the visual reception of Revelation in Natasha O'Hear's article. The Book of Revelation and Its Interpreters provides a valuable bibliographical resource for those working in the field of Biblical Studies, history of Christianity, eschatology and apocalyptic studies. The accompanying essays orient the authors recorded in the bibliography within a larger context, offering specific examples of the Apocalypse's capacity to speak in fresh and often surprising ways to diverse audiences throughout history.

The Birth of Modern Belief

Ethan H. Shagan 2021-05-04
An illuminating history of how religious belief lost its uncontested status in the West. This landmark book traces the history of belief in the Christian West from the Middle Ages to the Enlightenment, revealing for the first time how a distinctively modern category of belief came into being. Ethan Shagan focuses not on what people believed, which is the normal concern of

Reformation history, but on the more fundamental question of what people took belief to be. Shagan shows how religious belief enjoyed a special prestige in medieval Europe, one that set it apart from judgment, opinion, and the evidence of the senses. But with the outbreak of the Protestant Reformation, the question of just what kind of knowledge religious belief was—and how it related to more mundane ways of knowing—was forced into the open. As the warring churches fought over the answer, each claimed belief as their exclusive possession, insisting that their rivals were unbelievers. Shagan challenges the common notion that modern belief was a gift of the Reformation, showing how it was as much a reaction against Luther and Calvin as it was against the Council of Trent. He describes how dissidents on both sides came to regard religious belief as something that needed to be justified by individual judgment, evidence, and argument. Brilliantly

illuminating, The Birth of Modern Belief demonstrates how belief came to occupy such an ambivalent place in the modern world, becoming the essential category by which we express our judgments about science, society, and the sacred, but at the expense of the unique status religion once enjoyed.

The Rebirth of African Orthodoxy Thomas C. Oden 2016-04-05 African orthodoxy today reveals the same powerful faith that was confessed by Athanasius and Augustine seventeen centuries ago. Classic African Christian teaching in the patristic period (100–750 AD) preceded modern colonialism by over a thousand years. Many young African women and men are now reexamining these lost roots. They are hungry for accurate information about their Christian ancestors. Thomas C. Oden asks readers to recapture the resonance of a consensual orthodoxy, the harmony of voices celebrating the apostolic testimony to God’s saving work in Jesus

Christ, witnessed to in scripture and understood best by African interpreters of the faith. In ten seminars, Oden invites discerning readers to reclaim and reaffirm Christian faith as it emerges from thoughtful conversations between contemporary and ancient African interpreters of orthodox faith. “This new book by Tom Oden is remarkable and historic. His words challenge the worldwide church to return to the true fountain of living water, Jesus Christ. He specifically encourages us Africans to continue to seek the treasures left to us by our early church fathers and mothers in order to reshape the Christian mind now as they did in the first millennium.” -The Most Rev. Dr. Mouneer Hanna Anis, Archbishop of the Episcopal/Anglican Diocese of Egypt with North Africa and the Horn of Africa “A thought-provoking book with factual evidences emphasizing the continuity of global orthodoxy that emanated in Africa and has been nurtured by Africans

from the time of Mark the evangelist to the present. People yearning to discover the intellectual and classical African Christian roots will find the book very helpful.”

-Thomas A. Oduro, President, Good News Theological College & Seminary, Accra, Ghana

“While Tom Oden writes about Africans for Africans, *The Rebirth of African Orthodoxy: Return to Foundations* is also addressed to all Christians everywhere who ask, ‘What is God doing in the world today?’ The author proposes that the clue to what God is doing in the present is to be found in what God has done in the past, for ‘the Holy Spirit has a history.’ Tom directs us to look to Africa, where the ancient African Christian orthodoxy is being reborn in the African church today, making it a witness to the whole church everywhere.”

-Timothy W. Whitaker, retired bishop, Florida Conference of The United Methodist Church

God Does Not... D. Brent Laytham 2009 Despite the Holocaust's profound impact on the history of Eastern Europe, the communist regimes successfully repressed public discourse about and memory of this tragedy. Since the collapse of communism in 1989, however, this has changed. Not only has a wealth of archival sources become available, but there have also been oral history projects and interviews recording the testimonies of eyewitnesses who experienced the Holocaust as children and young adults. Recent political, social, and cultural developments have facilitated a more nuanced and complex understanding of the continuities and discontinuities in representations of the Holocaust. People are beginning to realize the significant role that memory of Holocaust plays in contemporary discussions of national identity in Eastern Europe. This volume of original

essays explores the memory of the Holocaust and the Jewish past in postcommunist Eastern Europe. Devoting space to every postcommunist country, the essays in *Bringing the Dark Past to Light* explore how the memory of the "dark pasts" of Eastern European nations is being recollected and reworked. In addition, it examines how this memory shapes the collective identities and the social identity of ethnic and national minorities. Memory of the Holocaust has practical implications regarding the current development of national cultures and international relationships.

Classifying Christians Todd S. Berzon 2021-05-25 *Classifying Christians* investigates late antique Christian heresiologies as ethnographies that catalogued and detailed the origins, rituals, doctrines, and customs of the heretics in explicitly polemical and theological terms. Oscillating between ancient ethnographic evidence and contemporary

ethnographic writing, Todd S. Berzon argues that late antique heresiology shares an underlying logic with classical ethnography in the ancient Mediterranean world. By providing an account of heresiological writing from the second to fifth century, *Classifying Christians* embeds heresiology within the historical development of imperial forms of knowledge that have shaped western culture from antiquity to the present.

Standing on Holy Ground in the Middle Ages Lucy Donkin 2022-02-15 *Standing on Holy Ground in the Middle Ages* illuminates how the floor surface shaped the ways in which people in medieval western Europe and beyond experienced sacred spaces. The ground beneath our feet plays a crucial, yet often overlooked, role in our relationship with the environments we inhabit and the spaces with which we interact. By focusing on this surface as a point of encounter, Lucy Donkin positions it within a series of vertically stacked

layers—the earth itself, permanent and temporary floor coverings, and the bodies of the living above ground and the dead beneath—providing new perspectives on how sacred space was defined and decorated, including the veneration of holy footprints, consecration ceremonies, and the demarcation of certain places for particular activities. Using a wide array of visual and textual sources, *Standing on Holy Ground in the Middle Ages* also details ways in which interaction with this surface shaped people's identities, whether as individuals, office holders, or members of religious communities. Gestures such as trampling and prostration, the repeated employment of specific locations, and burial beneath particular people or actions used the surface to express likeness and difference. From pilgrimage sites in the Holy Land to cathedrals, abbeys, and local parish churches across the Latin West, Donkin frames the ground as a shared surface, both a feature of

diverse, distant places and subject to a variety of uses over time—while also offering a model for understanding spatial relationships in other periods, regions, and contexts.

Shifting Cultural Frontiers in Late Antiquity

David Brakke 2016-12-05 *Shifting Cultural Frontiers in Late Antiquity* explores the transformation of classical culture in late antiquity by studying cultures at the borders - the borders of empires, of social classes, of public and private spaces, of literary genres, of linguistic communities, and of the modern disciplines that study antiquity. Although such canonical figures of late ancient studies as Augustine and Ammianus Marcellinus appear in its pages, this book shifts our perspective from the center to the side or the margins. The essays consider, for example, the ordinary Christians whom Augustine addressed, the border regions of Mesopotamia and Vandal Africa, 'popular' or 'legendary' literature, and athletes.

Although traditional philology rightly underlies the work that these essays do, the authors, several among the most prominent in the field of late ancient studies, draw from and combine a range of disciplines and perspectives, including art history, religion, and social history. Despite their various subject matters and scholarly approaches, the essays in *Shifting Cultural Frontiers* coalesce around a small number of key themes in the study of late antiquity: the ambiguous effects of 'Christianization,' the creation of new literary and visual forms from earlier models, the interaction and spread of ideals between social classes, and the negotiation of ethnic and imperial identities in the contact between 'Romans' and 'barbarians.' By looking away from the core and toward the periphery, whether spatially or intellectually, the volume offers fresh insights into how ancient patterns of thinking and creating became reconfigured into the diverse cultures of the 'medieval.'

Living Under Water Kevin J. Adams 2022-01-25 Our truest identity isn't something we create or build ourselves. It's a gift we receive. We live under water. What does baptism mean? And what do we do with it? Kevin Adams—an experienced pastor and church planter who has baptized people of all ages and spiritual origins—makes the case that baptism isn't merely a one-time ceremony but something to be lived and affirmed throughout one's life. In *Living under Water*, Adams shares stories that illustrate how baptism shapes one's identity and enters us into an alternate narrative, one ongoing since the dawn of creation, through which we understand our truest selves with all our joy and trauma and by which we are united with a group of people unbound by race or language, continent or generation. Foregrounding baptism in the lives of Christians means foregrounding baptism in the life of the church. Anchored in both theology and real-world

experience, Adams shows how that can happen while engaging honestly with the history (and ongoing reality) of baptism's corruptions and abuses. This book is for pastors and parishioners of any Christian tradition who long for baptism to be bigger than a set of doctrinal bullet points—nothing less than the gospel story enacted with water.

The Aura of the Word in the Early Age of Print

(1450-1600) Samuel Mareel 2017-07-05 Did the invention of movable type change the way that the word was perceived in the early modern period? In his groundbreaking essay "The Work of Art in the Age of Mechanical Reproduction," the cultural critic Walter Benjamin argued that reproduction drains the image of its aura, by which he means the authority that a work of art obtains from its singularity and its embeddedness in a particular context. The central question in *The Aura of the Word in the Early Age of Print (1450-1600)* is whether the dissemination of

text through print had a similar effect on the status of the word in the early modern period. In this volume, contributors from a variety of fields look at manifestations of the early modern word (in English, French, Latin, Dutch, German and Yiddish) as entities whose significance derived not simply from their semantic meaning but also from their relationship to their material support, to the physical context in which they are located and to the act of writing itself. Rather than viewing printed text as functional and lacking in materiality, contributors focus on how the placement of a text could affect its meaning and significance. The essays also consider the continued vitality of pre-printing-press kinds of text such as the illuminated manuscript; and how new practices, such as the veneration of handwriting, sprung up in the wake of the invention of movable type.
