The White Indian Boy: The Story of Uncle Nick Among the Shoshones

Elijah Nicholas Wilson 2018-12-03 At age 12 Elijah Nicholas Wilson ran away from his family. Fighting off the constraints of his Mormon upbringing he found a new home with a Shoshone Indian tribe. Under their guidance, particularly of the Great Chief

Washakie, he learned how to live and survive in the wild lands of the far west. When Elijah turned fourteen, to prevent reprisals against his tribe for his 'abduction, ' he returned to his white family. He then worked as a Pony Express rider, stagecoach driver, trapper, translator, hostler, Indian agent, and whatever else was required to support himself and his family. Elijah

Wilson was known as 'Yagaiki' when among the Shoshones, and in his later years as Uncle Nick when entertaining young children with his adventurous exploits. The White Indian Boy is his story.

The Early Days in Jackson Hole Virginia

Huidekoper 2006-05-15 Pioneer photographer William Henry Jackson aimed his camera at the high peaks. Gently, he removed the cap covering the lens. Focused on the wet glass plate was the image of the Teton Mountains, a sight heretofore known only to a handful of Indians, trappers and explorers. The year: 1872. In the decades to follow many skilled photographers arrived in the Teton country to record the spectacular beauty of natural features and wildlife. A few chose for subjects the human activity, documenting the life of the sportsmen, early settlers, ranchers and dudes. They photographed the growing communities of Jackson Hole and the struggles to cope with the elements. Over the years, these pictures formed a colorful history of the country, and were to influence the establishment of the National elk Refuge and Grand Teton National Park. Recognizing the importance of these photographs, Virginia Huidekoper assembled a

Yellowstone National Park Bradly J. Boner
2017-03-01 Pioneer photographer William Henry Jackson's photographs from the 1871 Hayden Survey were instrumental in persuading Congress to designate Yellowstone as a national park—America's first and greatest experiment in the preservation of an extraordinary landscape. *Yellowstone National Park: Through the Lens of Time* is an extended visual essay presenting Jackson's images paired with breathtaking color rephotographs of each view from photojournalist Bradly J. Boner. These contemporary comparisons to Jackson's originals reveal just how well that experiment has stood the test of time. Yellowstone is always changing. The Grand Canyon is getting deeper and wider as the Yellowstone River carves a chasm into the earth. The flows of the great hot springs at Mammoth are creating new layers of delicate, colorful cascades and leaving the old terraces to crumble in decay. Roads, bridges, and pathways wind

through the park, and there are restaurants, campgrounds, and hotels. Yet even with the impact of humanity, Yellowstone remains remarkably intact, evidence that the effort to preserve and sustain the park for future generations has been a success. Combining more than 100 gorgeous "then and now" sets of photographs—the first complete published collection of Jackson's images from the 1871 Hayden Survey and a result of Boner's three years of work rephotographing them—with history, extensive notes, and personal tales, *Yellowstone National Park: Through the Lens of Time* pays homage to the park's early history and its present state, and offers a glimpse into the future. The great experiment of Yellowstone—which captivates millions of visitors from all corners of the globe each year—has transcended generations and should be maintained for generations to come. Lasso the Wind Timothy Egan 2009-09-23 A New York Times Notable Book of the Year Winner of the Mountains and Plains Book Seller's Association Award "Sprawling in scope. . . . Mr. Egan uses the past powerfully to explain and give dimension to the present." --The New York Times "Fine reportage . . . honed and polished until it reads more like literature than journalism." --Los Angeles Times "They have tried to tame it, shave it, fence it, cut it, dam it, drain it, nuke it, poison it, pave it, and subdivide it," writes Timothy Egan of the West; still, "this region's hold on the American character has never seemed stronger." In this colorful and revealing journey through the eleven states west of the 100th meridian, Egan, a third-generation westerner, evokes a lovely and troubled country where land is religion and the holy war between

preservers and possessors never ends. Egan leads us on an unconventional, freewheeling tour: from America's oldest continuously inhabited community, the Ancoma Pueblo in New Mexico, to the high kitsch of Lake Havasu City, Arizona, where London Bridge has been painstakingly rebuilt stone by stone; from the fragile beauty of Idaho's Bitterroot Range to the gross excess of Las Vegas, a city built as though in defiance of its arid environment. In a unique blend of travel writing, historical reflection, and passionate polemic, Egan has produced a moving study of the West: how it became what it is, and where it is going. "The writing is simply wonderful. From the opening paragraph, Egan seduces the reader. . . . Entertaining, thought provoking." --The Arizona Daily Star Weekly "A western breeziness and love of open spaces shines through *Lasso the Wind*. . . . The writing is simple and evocative." --The Economist *The Diary of a Dude Wrangler (LARGE PRINT)* Struthers Burt 2020-07-03 The Diary of a Dude

Billionaire Wilderness Justin Farrell
2021-03-02 "Billionaire Wilderness offers an unprecedented look inside the world of the ultra-wealthy and their relationship to the natural world, showing how the ultra-rich use nature to resolve key predicaments in their lives. Justin Farrell immerses himself in Teton County, Wyoming--both the richest county in the United States and the county with the nation's highest level of income inequality--to investigate interconnected questions about money, nature, and community in the twenty-first century. Farrell draws on three years of in-depth interviews with "ordinary" millionaires and the world's wealthiest billionaires, four years of in-person observation in the community, and original quantitative data to provide comprehensive and unique analytical insight on the ultra-wealthy. He also interviewed low-income workers who could speak to their experiences as employees for and members of the community with these wealthy people. He

finds that the wealthy leverage nature to climb even higher on the socioeconomic ladder, and they use their engagement with nature and rural people as a way of creating more virtuous and deserving versions of themselves. Billionaire Wilderness demonstrates that our contemporary understanding of the relationship between the ultra-wealthy and the environment is empirically shallow, and our reliance on reports of national economic trends distances us from the real experiences of these people and their local communities"--

John Colter Burton Harris 1993-01-01 John Colter was a crack hunter with the Lewis and Clark expedition before striking out on his own as a mountain man and fur trader. A solitary journey in the winter of 1807-8 took him into present-day Wyoming. To unbelieving trappers he later reported sights that inspired the name of Colter's Hell. It was a sulfurous place of hidden fires, smoking pits, and shooting water. And it was real. John Colter is known to history as probably the first white man to discover the region that now includes Yellowstone National Park. In a classic book, first published in 1952,

Grand Teton National Park Kendra Leah Fuller 2014 The majestic beauty of Grand Teton National Park has moved people throughout time. Native Americans believed in the spiritual power of the towering mountain peaks and journeyed there to gain special powers. Early fur traders, who had just crossed less ominous mountain ranges, viewed with trepidation the massive obstacle that loomed before them on their passage to the Pacific Northwest. In others, the Tetons ignited vision and passion--a vision to preserve for all generations to come and a passion to protect the independent way of life known by the first settlers of this western

frontier. The formation of Grand Teton National Park spanned the course of nearly 70 years. Although there were many people who shared the struggle before them, it was not until Stephen Mather and Horace M. Albright took up the fight in 1915 that steps towards success were taken. Albright's tenacity and ability to convey his vision to philanthropist John D. Rockefeller Jr. set in motion a very long journey that culminated with Pres. Harry S. Truman signing today's Grand Teton National Park into existence on September 13, 1950.

Washakie Grace Raymond Hebard 1995-01-01
Washakie was chief of the eastern band of the Shoshone Indians for almost sixty years, until his death in 1900. A strong leader of his own people, he saw the wisdom of befriending the whites. Grace Raymond Hebard offers an engaging view of Washakie's long life and the early history of Shoshone-occupied land—embracing present-day Wyoming and parts of Montana, Idaho, and Utah. Washakie is seen signing historic treaties, aiding overland emigrants in the 1850s, and finally assisting whites in fighting the Sioux. According to Hebard, Washakie's role in the battle on the Rosebud in June 1876 saved General Crook from the fate that befell General Custer eight days later on the Little Big Horn.

Cockeyed Happy Darla Worden 2021-09-14 "Streamlined and impacting, Darla Worden's Cockeyed Happy could be construed as a narrative of the author himself, a compelling account of Hemingway's summers in Wyoming—and I can think of no finer compliment."—Craig Johnson, author of the Walt Longmire Mysteries In March 1928, after the phenomenal success of *The Sun Also Rises*, Ernest Hemingway returned to the United States with his second wife, Pauline Pfeiffer—the stylish *Vogue* editor and scorned "other woman" who would give up everything to be with him and, in the end, lose it all. The couple fled Paris in the wake of the huge gossip storm about the American author's affair and abandonment of his wife and son. Escaping to Wyoming's Big Horn

Mountains to write while Pauline recovered from the birth of their first child, he finished *A Farewell to Arms* and fell in love with the land around him. Pauline soon joined him in Yellowstone and Jackson Hole. The Jackson Hole Settlement Chronicles

Earle F. Layser 2012-07-01 An authentic and richly illustrated account of Jackson Hole's earliest settlers and cast of Old West characters: Native Americans, mountain men, government explorers, miners, outlaws, cavalry, posses, squatters, game poachers, and eccentric frontier figures. The Hole's "bachelor settlers" are profiled and pictured, and the valley's infamous frontier episodes recounted. Exploitation of abundant wildlife played a crucial role in settlement. The tools of the early-day settlers were rifles, traps, and poison. The plow, sun bonnets, and the family cow followed much later; as did also, recognition for conservation. What
