Hamlet's Ghost James Cowan 2015-09-04

Occasionally a man emerges from history without us knowing him. Duke Vespasiano Gonzaga (1531-91) of Sabbioneta escaped the net of sixteenth century Italy, its history of wars and conflicts, to fashion a life that was uniquely different. He set out to change the way urban man lived. Importantly, he was the first man to build a Città ideale. Sabbioneta is the prototype of all planned cities of the modern era. As a confidant of King Philip II of Spain and a traveller, he quickly acquired a cosmopolitan worldview, which led him to become a uomo universale. It was in this capacity that he designed Sabbioneta as a genuine "little Athens." His life was fraught with tragedy, however. Not only did he suffer from syphilis, but his personal troubles left him emotionally damaged. The mysterious death of two wives, including the beautiful Diana of Cardona, forced him to find solace in the construction of his ideal city. As nephew to the legendary Giulia Gonzaga - and with her encouragement - the Duke managed to forge a career as a poet, bibliophile, antiquarian, condottiero, urban planner and

diplomat, all against the backdrop of New World discovery, the Protestant Reformation, and the Inquisition. This book reveals another fascinating story: Vespasiano Gonzaga's link to Shakespeare's Hamlet. Like the Prince of Denmark, he reflects the emergence of our modern consciousness. He was a true Renaissance man whose legacy remains with us to this day. As a self-fashioned personality, the Duke made every attempt to place himself at the forefront of events of his time. His life tells us a great deal about how late-Renaissance men exteriorised their inner world in a bid to achieve immortality.

The Russian Revolution, 1917-1921 William Henry Chamberlin 1935

Conformity and Conflict James P. Spradley 2012
Demonstrate the nature of culture and its influence on people's lives. For over 40 years, the best-selling Conformity and Conflict has brought together original readings and cutting edge research alongside classic works as a powerful way to study human behavior and events. Its readings cover a broad range of theoretical perspectives and demonstrate basic anthropological concepts. The Fourteenth Edition incorporates successful articles from past editions and fresh ideas from the field to show fascinating perspectives on the human experience. Teaching and Learning Experience Personalize Learning - MyAnthroLab delivers

proven results in helping students succeed, provides engaging experiences that personalize learning, and comes from a trusted partner with educational expertise and a deep commitment to helping students and instructors achieve their goals. Improve Critical Thinking - Articles, article introductions and review questions encourage students to examine their assumptions, discern hidden values, evaluate evidence, assess their conclusions, and more! Engage Students - Section parts, key terms, maps, a glossary and subject index all spark student interest and illustrate the reader's main points with examples and visuals from daily life. Blood Meridian Cormac McCarthy 2010-08-11 25th ANNIVERSARY EDITION • From the bestselling author of *The Passenger* and the Pulitzer Prize-winning novel *The Road*: an epic novel of the violence and depravity that attended America's westward expansion, brilliantly subverting the conventions of the Western novel and the mythology of the Wild West. Based on historical events that took place on the Texas-Mexico border in the 1850s, *Blood Meridian* traces the fortunes of the Kid, a fourteen-year-old Tennessean who stumbles into the nightmarish world where Indians are being murdered and the market for their scalps is thriving. Look for Cormac McCarthy's latest bestselling novels, *The Passenger* and *Stella Maris*.

Medicine Across Cultures Helaine Selin

2006-04-11 This work deals with the medical knowledge and beliefs of cultures outside of the United States and Europe. In addition to articles surveying Islamic, Chinese, Native American, Aboriginal Australian, Indian, Egyptian, and Tibetan medicine, the book includes essays on comparing Chinese and western medicine and religion and medicine. Each essay is well illustrated and contains an extensive bibliography.

The Myths That Made America Heike Paul

2011-01-01 This essential introduction to American studies examines the core foundational myths upon which the nation is based and which still determine discussions of US-American identities today. These myths include the myth of discovery, the Pocahontas myth, the myth of the Promised Land, the myth of the Founding Fathers, the melting pot myth, the myth of the West, and the myth of the self-made man. The chapters provide extended analyses of each of these myths, using examples from popular culture, literature, memorial culture, school books, and every-day life. Including visual material as well as study questions, this book will be of interest to any student of American studies and will foster an understanding of the United States of America as an imagined community by analyzing the foundational role of myths in the process of nation building.

Comparative Politics Mark Irving Lichbach

2009 This revised edition of *Comparative Politics* offers an assessment of the past decade of scholarship in comparative politics.

The Holy Daniel Quinn 2011-03-01 They knew us before we began to walk upright. Shamans called them guardians, mythmakers called them tricksters, pagans called them gods, churchmen called them demons, folklorists called them shape-shifters. They've obligingly taken any role we've assigned them, and, while needing nothing from us, have accepted whatever we thought was their due - love, hate, fear, worship, condemnation, neglect, oblivion. Even in modern times, when their existence is doubted or denied, they continue to extend invitations to those who would travel a different road, a road not found on any of our cultural maps. But now, perceiving us as a threat to life itself, they issue

their invitations with a dark purpose of their own. In this dazzling metaphysical thriller, four who put themselves in the hands of these all-but-forgotten Others venture across a sinister American landscape hidden from normal view, finding their way to interlocking destinies of death, terror, transcendental rapture, and shattering enlightenment. From the Trade Paperback edition.

Islamkundliche Untersuchungen 1980

Christianity in India Robert Eric Frykenberg 2008-06-26 This study explores historical understandings of Christian communities, cultures, and institutions within the Indian world from their beginnings to the present time. Frykenberg focuses on trans-cultural interactions within Hindu and Muslim environments, uncovering complexities as Christianity intermingled with indigenous cultures.

Moral Panics Erich Goode 2010-01-19 Packed with new examples and material, this second edition provides a fully up-to-date exploration of the genesis, dynamics, and demise of moral panics and their impacts on the societies in which they take place. Packed with updated and recent examples including terrorism, the 9/11 attack on the World Trade Towers, school shootings, flagburning, and the early-2000s resurgence of the "sexslave" scare Includes a new chapter on the media, currently regarded as a major component of the moral panic Devotes a chapter to addressing criticisms of the first edition as well as the moral panics concept itself Written by long-established experts in the field Designed to fit both self-contained courses on moral panics and wider courses on deviance

Dictionary Catalog of the Schomburg Collection Schomburg Center for Research in Black Culture 1976

Urban World History Luc-Normand Tellier 2019-09-14 This book seeks to deepen readers' understanding of world history by investigating urbanization and the evolution of urban systems, as well as the urban world, from the perspective of historical analysis. The theoretical framework of the approach stems directly from space-economy, and, more generally, from location theory and the theory of urban systems. The author explores a certain logic to be found in world history, and argues that this logic is

spatial (in terms of spatial inertia, spatial trends, attractive and repulsive forces, vector fields, etc.) rather than geographical (in terms of climate, precipitation, hydrography).

Accordingly, the book puts forward a truly original vision of urban world history, one that will benefit economists, historians, regional scientists, and anyone with a healthy curiosity.

Encyclopedia of African American History

Leslie M. Alexander 2010-02-09 A fresh compilation of essays and entries based on the latest research, this work documents African American culture and political activism from the slavery era through the 20th century.

Encyclopedia of African American History introduces readers to the significant people, events, sociopolitical movements, and ideas that have shaped African American life from earliest contact between African peoples and Europeans through the late 20th century. This encyclopedia places the African American experience in the context of the entire African diaspora, with entries organized in sections on

African/European contact and enslavement, culture, resistance and identity during enslavement, political activism from the Revolutionary War to Southern emancipation, political activism from Reconstruction to the modern Civil Rights movement, black nationalism and urbanization, and Pan-Africanism and contemporary black America. Based on the latest scholarship and engagingly written, there is no better go-to reference for exploring the history of African Americans and their distinctive impact on American society, politics, business, literature, art, food, clothing, music, language, and technology. Contributions from over 100 specialists on African America and the African diaspora A spectacular selection of illustrations and photographs, such as a Kongo cosmogram, the African burial ground in New York City, and maps of the Triangular Trade and the Underground Railroad

The Triumph of Christianity Rodney Stark 2011-10-25 Celebrated religious and social historian Rodney Stark traces the extraordinary rise of Christianity through its most pivotal and controversial moments to offer fresh perspective on the history of the world's largest religion. In *The Triumph of Christianity*, the author of *God's Battalions* and *The Rise of*

Christianity gathers and refines decades of powerful research and discovery into one concentrated, concise, and highly readable volume that explores Christianity's most crucial episodes. The unique format of *Triumph of Christianity* allows Stark to avoid dense chronologies and difficult back stories, bringing readers right to the heart of Christian history's most vital controversies and enduring lessons.

Rationality in the Social Sciences Helmut

Staubmann 2017-11-30 This volume presents for the first time a collection of historically important papers written on the concept of rationality in the social sciences. In 1939-40, the famed Austrian economist Joseph A. Schumpeter and the famous sociologist Talcott Parsons convened a faculty seminar at Harvard University on the topic of rationality. The first part includes their essays as well as papers by the Austrian phenomenologist Alfred Schütz, the sociologist Wilbert Moore, and the economist Rainer Schickele. Several younger economists and sociologists with bright futures also participated, including Alex Gerschenkron, John Dunlop, Paul M. Sweezy, and Wassily W.

Leontief, who was later awarded the Nobel Prize for developing input-output analysis. The second part presents essays and commentaries written by today's internationally noted social scientists and addressing the topic of rationality in social action from a broad range of perspectives. The book's third and final part shares the recently discovered correspondence between the seminar principals regarding the original but failed plan to publish its proceedings. It also includes letters, not previously published, between Richard Grathoff, Walter M. Sprondel and Talcott Parsons on the rationality seminar and the exchanges between Parsons and Schütz.

How Einstein Created Relativity out of Physics and Astronomy David Topper

2012-09-25 This book tracks the history of the theory of relativity through Einstein's life, with in-depth studies of its background as built upon

by ideas from earlier scientists. The focus points of Einstein's theory of relativity include its development throughout his life; the origins of his ideas and his indebtedness to the earlier works of Galileo, Newton, Faraday, Mach and others; the application of the theory to the birth of modern cosmology; and his quest for a unified field theory. Treading a fine line between the popular and technical (but not shying away from the occasional equation), this book explains the entire range of relativity and weaves an up-to-date biography of Einstein throughout. The result is an explanation of the world of relativity, based on an extensive journey into earlier physics and a simultaneous voyage into the mind of Einstein, written for the curious and intelligent reader.

Comparative Politics Today: Pearson New International Edition Bingham G. Powell

2013-07-26 Combining thematic chapters and country cases, *Comparative Politics Today: A World View* sets the standard for introducing the field of comparative politics and for illustrating how to compare the world's political systems. This text begins by laying out a proven analytical framework that is accessible for students new to the field; it is then consistently implemented in twelve authoritative country cases not only to introduce students to what politics and governments are like around the world but to also understand the importance of their similarities and differences. Written by leading comparativists and area study specialists, *Comparative Politics Today* helps to sort through the world's complexity and to recognize patterns that lead to genuine political insight.

Globalism Manfred B. Steger 2002 Globalism: The New Market Ideology rejects the notion that we find ourselves at the end of ideology and that democracy has won. Instead, Steger argues that the opening decade of the 21st century will constitute a teeming battlefield of clashing ideologies. The chief protagonist is the dominant neoliberal market ideology Steger calls globalism. After identifying and evaluating the five central claims of globalism--including assertions that globalization is inevitable, nobody is in charge of globalization, and globalization benefits everyone--Steger offers an overview of the counterclaims made by anti-globalist forces. Reading American Horror Story Rebecca Janicker 2017-02-19 Looming onto the television landscape in 2011, American Horror Story gave viewers a weekly dose of psychological unease and gruesome violence. Embracing the familiar horror conventions of spooky settings, unnerving manifestations and terrifying monsters, series co-creators Ryan Murphy and Brad Falchuk combine shocking visual effects with an engaging anthology format to provide a modern take on the horror genre. This collection of new essays examines the series' contribution to television horror, focusing on how the show

speaks to social concerns, its use of classic horror tropes and its reinvention of the tale of terror for the 21st century.

Tricking and Tripping Claire E. Sterk 2000
Return to Reason Stephen Edelston Toulmin 2009-06-30 Stephen Toulmin argues that the potential for reason to improve our lives has been hampered by a serious imbalance in our pursuit of knowledge. The centuries-old dominance of rationality has diminished the value of reasonableness. Toulmin issues a powerful call to redress the balance between rationality and reasonableness.

Encyclopedia of Latin American Religions

Henri Gooren 2019-10-11 This encyclopedia provides an overview of the main religions of Latin America and the Caribbean, both its centralized transnational expressions and its local variants and schisms. These main religions include (but are not limited to) the major expressions of Christianity (Roman Catholicism, Protestantism, Pentecostalism, Mormonism, and Jehovah's Witnesses), indigenous religions (Native American, Maya religion), syncretic Christianity (including Afro-Brazilian religions like Umbanda and Candomblé and Afro-Caribbean religions like Vodun and Santería), other world religions (Buddhism, Hinduism, Judaism, Islam), transnational New Religious Movements (Scientology, Unification Church, Hare Krishna, New Age, etc.), and new local religions (Brazil's Igreja Universal, La Luz del Mundo from Mexico, etc.).
