The Campaign in Afghanistan John Greenwood 2005 An insightful and in-depth account of the author's service with the British Army in India and his part in the First Anglo-Afghan War, "The Campaign in Afghanistan" narrates how the author attended military academy, obtained a commission in the 31st Regiment of Foot, and travelled to India before going on to describe regimental life. In 1842 the regiment was dispatched to Afghanistan, where there was a popular uprising against the British occupation. The Kabul garrison had been evacuated and almost all of its members were killed before they reached India; the Jellalabad garrison was under siege. Despite the perilous and inhospitable nature of the Afghan terrain, Lieutenant Greenwood and the 31st Foot were part of the force which relieved Jellalabad and rescued British prisoners in Kabul before returning safely to India. This personal account of the campaign describes what it was really like to be on the front line in one of Britain's colonial wars."

Reciprocal Landscapes Jane Hutton 2019-09-06 How are the far-away, invisible landscapes where materials come from related to the highly visible, urban landscapes where those same materials are installed? *Reciprocal Landscapes: Stories of Material Movements* traces five everyday landscape construction materials - fertilizer, stone, steel, trees, and wood - from seminal public landscapes in New York City, back to where they came from. Drawing from archival documents, photographs, and field trips, the author brings these two separate landscapes - the material's source and the urban site where the

material ended up - together, exploring themes of unequal ecological exchange, labor, and material flows. Each chapter follows a single material's movement: guano from Peru that landed in Central Park in the 1860s, granite from Maine that paved Broadway in the 1890s, structural steel from Pittsburgh that restructured Riverside Park in the 1930s, London plane street trees grown on Rikers Island by incarcerated workers that were planted on Seventh Avenue north of Central Park in the 1950s, and the popular tropical hardwood, ipe, from northern Brazil installed in the High Line in the 2000s. *Reciprocal Landscapes: Stories of Material Movements* considers the social, political, and ecological entanglements of material practice, challenging readers to think of materials not as inert products but as continuous with land and the people that shape them, and to reimagine forms of construction in solidarity with people, other species, and landscapes elsewhere.

Capitalism and Desire Todd McGowan 2016-09-20 Despite creating vast inequalities and propping up reactionary world regimes, capitalism has many passionate defenders—but not because of what it withholds from some and gives to others. Capitalism dominates, Todd McGowan argues, because it mimics the structure of our desire while hiding the trauma that the system inflicts upon it. People from all backgrounds enjoy what capitalism provides, but at the same time are told more and better is yet to come. Capitalism traps us through an incomplete satisfaction that compels us after the new, the better, and the more. Capitalism's parasitic relationship to our desires gives it the illusion of corresponding to our natural impulses, which is how capitalism's defenders characterize it. By understanding this psychic strategy, McGowan hopes to divest us of our addiction to capitalist enrichment and help us rediscover enjoyment as we actually experienced it. By locating it in the present, McGowan frees us from our attachment to a better future and the belief that capitalism is an essential outgrowth of human nature. From this perspective, our economic, social, and political worlds open up to real political change. Eloquent and enlivened by examples from film, television, consumer culture, and everyday life, *Capitalism and Desire* brings a new, psychoanalytically grounded approach to political and social theory.

Out of the Forest Gregory Smith 2020-12 For years a man calling himself Will Power lived in near-total isolation in northern New South Wales, foraging for food, eating bats and occasionally trading for produce. But who was this mysterious man who roamed the forest and knew all of its secrets and riddles? Some people thought he might be Jesus. Others feared he was a more sinister figure. The truth was that he was neither miraculous nor malevolent, but he was, most certainly, gifted. And when he finally emerged from the forest, emaciated and close to death, he was determined to reclaim his real name and 'give society another chance'. Today, Dr Gregory Peel Smith, who left school at the age of fourteen, has a PhD and teaches in the Social Sciences at university. His profoundly touching and uplifting memoir is at once a unique insight into how far off track a life can go and powerful reminder that we can all find our way back if we pause for a moment in the heart of the forest.

Tacky Rax King 2021-11-02 An irreverent and charming collection of deeply personal essays about the joys of low pop culture and bad taste, exploring coming of age in the 2000s in the age of Hot Topic, Creed, and frosted lip gloss—from the James Beard Award-nominated writer of the Catapult column "Store-Bought Is

Fine" Tacky is about the power of pop culture—like any art—to imprint itself on our lives and shape our experiences, no matter one's commitment to "good" taste. These fourteen essays are a nostalgia-soaked antidote to the millennial generation's obsession with irony, putting the aesthetics we hate to love—snakeskin pants, Sex and the City, Cheesecake Factory's gargantuan menu—into kinder and sharper perspective. Each essay revolves around a different maligned (and yet, Rax would argue, vital) cultural artifact, providing thoughtful, even romantic meditations on desire, love, and the power of nostalgia. An essay about the gym-tan-laundry exuberance of Jersey Shore morphs into an excavation of grief over the death of her father; in "You Wanna Be On Top," Rax writes about friendship and early aughts girlhood; in another, Guy Fieri helps her heal from an abusive relationship. The result is a collection that captures the personal and generational experience of finding joy in caring just a little too much with clarity, heartfelt honesty, and Rax King's trademark humor. Twelve Years A Slave, Illustrated Edition Solomon Northup 2014-04-08 Kidnapped and sold into slavery in the American South, freeman Solomon Northup spent twelve years in bondage before being freed. Twelve Years A Slave is Northup's moving memoir, revealing unimaginable details of the horrors he faced as a slave on Southern plantations, and his unshakable belief that he would return home to his family. Written in the year after Northup was freed and published in the wake of Harriet Beecher Stowe's Uncle Tom's Cabin, Northup's story was quickly taken up by abolitionist groups and news organizations as part of the fight against slavery, and continues to resonate more than a century after the end of the American Civil War.

Scarlet and the Beast I John Daniel 2018-09-21 My research has revealed that there are two separate and

opposing powers in Freemasonry. One, headquartered in London, subscribes to and promotes an idolatrous and pantheistic view of the world. It is monarchist, capitalistic, wealthy, right-wing. The other, in Paris, is atheistic and humanistic in origin and outlook. It is republican, socialist, poor, left-wing. One is Scarlet. The other, the Beast. The breakthrough theory which I have developed with Scripture as my guide makes sense of the massive literature I have collected on Freemasonry as well as its apparent contradictions. My library includes books written by members of and defectors from both English and French Freemasonry. At the beginning of my research, like many other revisionist authors, I thought revisionist authors were reporting one single plot. I gradually realized that many authors were exposing what in reality were often the machinations of one group of conspirators against the other. The devices of both wings of Masonry were so similar that without Scripture as a guide, one could easily perceive only a single intrigue. This interesting twist in the historical drama, confirmed again and again by my research, points to the existence of a struggle between the two powers in Freemasonry. Although revisionist authors are supposedly concerned about one plot, I noticed that all exposes pointed to Paris as the center of an intrigue before World War I. After the War, however, evidence points to the shift of intrigue to London. I will explain this shift in the course of this book.

Kumba Africa Sampson Ejike Odum 2020-11-03 'KUMBA AFRICA', is a compilation of African Short Stories written as fiction by Sampson Ejike Odum, nostalgically taking our memory back several thousands of years ago in Africa, reminding us about our past heritage. It digs deep into the traditional life style of the Africans of old, their beliefs, their leadership, their courage, their culture, their wars, their defeat and their victories long before the emergence of the white man on the soil of Africa. As a talented writer of rich resource and superior creativity, armed with in-depth knowledge of different cultures and traditions in Africa, the Author throws light on the rich cultural heritage of the people of Africa when civilization was yet unknown to the people. The book reminds the readers that the Africans of old kept their pride and still enjoyed their own lives. They celebrated victories when wars were won, enjoyed their New Yam festivals and villages engaged themselves in seasonal wrestling contest etc; Early morning during harmattan season, they gathered firewood and made fire inside their small huts to hit up their bodies from the chilling cold of the harmattan. That was the Africa of old we will always remember. In Africa today, the story have changed. The people now enjoy civilized cultures made possible by the influence of the white man through his scientific and technological process. Yet there are some uncivilized places in Africa whose people haven't tested or felt the impact of civilization. These people still maintain their ancient traditions and culture. In everything, we believe that days when people paraded barefooted in Africa to the swamp to tap palm wine and fetch firewood from there farms are almost fading away. The huts are now gradually been replaced with houses built of blocks and beautiful roofs. Thanks to modern civilization. Donkeys and camels are no longer used for carrying heavy loads for merchants. They are now been replaced by heavy trucks and lorries. African traditional methods of healing are now been substituted by hospitals. In all these, I will always love and remember Africa, the home of my birth and must respect her cultures and traditions as an AFRICAN AUTHOR.
