The Child in You Stefanie Stahl 2020-12-29 The breakthrough two-million-copy international bestseller about how to befriend your inner child to find happiness "Compassionate, clear-eyed, and insightful . . . The Child in You is like your own personal therapist that you can carry around with you." --Lori Gottlieb, New York Times bestselling author of *Maybe You Should Talk to Someone* Nominated for Malcolm Gladwell, Susan Cain, Adam

Grant, and Daniel H. Pink's Next Big Idea Club We all want to be loved and to feel safe to express who we really are. But over time we grow estranged from what brings us our purest happiness--because everyday traumas, unyielding societal expectations, and the judgment of our parents and peers submerge our true self beneath layers of behaviors rooted in fear and shame and mistrust. In *The Child in You*, psychologist Stefanie Stahl guides you, step-by-step, through her therapeutic

method that has helped millions to peel away these layers and reconnect with their inner child--both the shadow child, representing our deepest insecurities and the part of our self-esteem that is injured and unstable, and the sun child, representing our greatest joys and the part of our self-esteem that remains positive and intact. The many examples and exercises in this book will help you discover your shadow child and sun child, identify which of the shadow child's dozen self-protection strategies are at work in you, and put into practice the array of proven self-reflection strategies to overcome negative influences and beliefs. Because it's never too late to have a happy childhood, or to bring your authentic self out from the shadows so you can embody your radiant individuality. A PENGUIN LIFE TITLE

That is, until his grip slips and he kills an innocent. But he has no time to figure out why-or how-he lost control over his powers. His tribe now wants him dead for breaking their code, and they don't mess around. But more important than surviving, Daniel must choose whether or not to let himself succumb to the darkness that grows stronger in him every day... or give into it and experience limitless indulgence and power. The Sun Child features an anti-hero with a heart of gold who is also an all-new and unique supernatural predator.

Hidden from the Sun Jenny Kalsner 2013-04 Jenny Kalsner tells her story with the voice of a young child coupled with the reflections of an adult. Her memoir is clearly distinct from that of Ann Frank, in that she was only six when entering hiding. Jenny's limitations in

hiding from the Nazis were greater than Anne's, but they helped her survive. This special story, told in powerful language, explores the stages of renewed self confidence and maturation that led Jenny to a life of fulfillment and satisfaction. Her early experiences are retold with artistic sensitivity and wisdom. 2011-09-28 Emily has not yet reached the age of judgment. For her, normality consists of contentment and magic and there is no possibility of change in the seeming happiness of her parents. She loves them both dearly and her image of them is together - invisible, laughing, dancing, making every day scintillate with life. When change does come, Emily is a helpless spectator, confused by the puzzle of ill-fitting events. With both poignant humor and ruthless

honesty, Angela Huth has captured the inconsistencies of adult behavior, as seen through the eyes of a child who watches and suffers from them. "Sun Child" is an exceptional adult book about a child's world.

Child of the Sun Lonn Taylor
2020-09-24 Historian Lonn Taylor built a career as a curator in history museums, including the Smithsonian Institution. In retirement he wrote weekly columns on the people and places of Texas, signed the "Rambling Boy," that were distributed widely in print and on the radio. This book stands out from his numerous other books on historical and literary topics:

it's the only one he wrote about himself and the last book he wrote before he died in June 2019. It describes how his experience of growing up in the Philippines from 1947 to 1955 shaped his entire life by teaching him the destructive power of war. In the Philippines, his father was employed as a civil engineer building and rebuilding roads and bridges in the war-devastated islands. "I lived most of my daily life in a well-protected bubble of white colonialism," he says in this memoir of his youth, "and thought nothing about it." Despite that "well-protected bubble," Taylor was aware of the ruins all around him, the ravages of bombs and artillery shells, and of his Filipino neighbors unbowed by their loss of wealth and privilege, or their confinement and starvation in Japanese internment camps. The manifest strengths and resilience of a society blended of Malay, Chinese, Spanish, and American cultures made him a lifelong believer in the

benefits of multiculturalism—even as he bore witness to the islands' postcolonial woes: a feudal agricultural system maintained by landlords with private armies, corruption so endemic that even post office clerks expected tips for selling stamps, and deadly outbreaks of personal violence. As an American child in the Philippines, and then, inevitably, an outsider in the postwar America he returned to at fifteen, Taylor honed a keen and varied sense of difference in class, culture, and language. This nuanced understanding can be heard throughout *Child of the Sun* as Taylor reflects on his innocent years, conveying with hard-earned worldliness and wisdom all the beauty and lasting conflict of a lost world and time.

Written in clear and precise language, the theory and practice of psychic and physical rejuvenation is presented so that both the specialist and beginner can understand how to undertake these unique practices. *Child of the Sun* breaks new ground by presenting highly specialized material on the Seventy-Two Angels of the Great Name and how to contact them using a ritual from the French Martinist tradition; the importance of Dream Yoga, or Lucid Dreaming in the rejuvenation process; the use of spagyric tinctures as well as mineral alchemy; a little known experiment with antimony; uses of the Middle Pillar exercise in physical and psychic health; the role of blood in personal transformation; and more. The Sun is a Peach Sara Cassidy 2020-05-05 A young child walks along a country road into town where there's a parade on. The experiences of the day, and the child's eventual homecoming and bedtime, are chronicled and compared to the sun. The sun takes the form of the yolk of an egg, a spool of thread, the eye of a bird, an ice-cream cone and a dandelion. Each round, yellow item on the page hints at the big golden ball in the sky. Stunning illustrations by Josée Bisailon capture how imagination shapes the environment around us. This simple board book shows children that the way they see

the world—by heart, mind and imagination—is just right. Revelling in metaphor, *The Sun is a Peach* encourages that magical leap of imagination and asks the reader to look at everyday objects from a different perspective.

Transcendent Parenting Sun Sun Lim 2019-11-01 Whether members of the family are headed to school or work, smartphones accompany family members throughout the day. The growing sophistication of mobile communication has unleashed a proliferation of apps, channels, and platforms that link parents to their children and the key institutions in their lives. While parents may feel empowered by their ability to provide their children assistance with a click on their smartphone, they may also feel pressured and overwhelmed by this need to always be on call for their children. This book focuses on the phenomenon of transcendent parenting, where parents actively use technology to go beyond traditional, physical practices of parenting. In drawing on the experiences

of intensely digitally-connected families in Singapore to tell a global story, Sun Sun Lim argues how transcendent parenting can embody and convey, intentionally or not, the parenting priorities in these households. Chapters outline how parents exploit mobile connectivity to transcend the physical distance between themselves and their children, the online and offline social interaction environments, and the timelessness of seemingly ceaseless parenting.

Transcendent Parenting further explores how mobile communication allows parents to be more involved than ever in their children's lives, leaving readers to question whether or not parents have become too involved as a result. With its clear discussions of the effects of transcendent parenting on parents' wellbeing and children's personal development, Transcendent Parenting will appeal to a broad audience of readers, from scholars, educators and policy makers to parents and young people across the globe.

animal instinct of escape prodded him, but he couldn't obey. He had fuel enough for one last burst of speed. But there was no way through that ring of ships. Tractor-beams, criss-crossing between them, would net the Falcon like a fish. There was no way out ahead, either. Mercury was there, harsh and bitter in the naked blaze of the sun. The ships of Gantry Hilton, President of the Federation of Worlds, inventor of the Psycho-Adjuster, and ruler of men's souls, were herding him down to a landing at the lonely Spaceguard outpost. A landing he couldn't dodge. And then For Paul Avery, a choice of death or Happiness. For himself and Sheila Moore, there was no choice. It was death. The red lights blurred before Falken's eyes. The throb of the plates under his feet faded into distance. He'd stood at the controls for four chronometer days, ever since the Hiltonists had chased him up from Los Angeles, back on Earth. He knew it was because he was exhausted that he

couldn't think, or stop the nightmare of the past days from tramping through his brain, hammering the incessant question at him. How? How had the Hiltonists traced him back from New York? Paul Avery, the Unregenerate recruit he went to get, had passed a rigid psycho-search-which, incidentally, revealed the finest brain ever to come to the Unregenerate cause. He couldn't be a spy. And he'd spoken to no one but Falken. Yet they were traced. Hiltonist Black Guards were busy now, destroying the last avenues of escape from Earth, avenues that he, Falken, had led them through. But how? He knew he hadn't given himself away. For thirty years he'd been spiring Unregenerates away from Gantry Hilton's strongholds of Peace and Happiness. He was too old a hand for blunders. Yet, somehow, the Black Guards caught up with them at Los Angeles, where the Falcon lay hidden. And, somehow, they got away, with a starving green-eyed girl named Kitty . . .

A starving waif named Sheila Moore, who begged him for help, because he was Eric Falken and almost a god to the Unregenerates. They got away in the Falcon, but the Hiltonist ships followed. Driven, hopeless flight, desperate effort to shake pursuit before he was too close to the Sun. Time and again, using precious fuel and accelerations that tried even his tough body, Falken thought he had escaped. But they found him again. It was uncanny, the way they found him. Now he couldn't run any more. At least he'd led the Hiltonists away from the pitiful starving holes where his people hid, on the outer planets and barren asteroids and dark derelict hulks floating far outside the traveled lanes. And he'd kill himself before the Hiltonist psycho-search could pick his brain of information about the Unregenerates. Kill himself, if he could wake up. He began to laugh, a drunken, ragged
