**Finding the Dragon Lady** Monique Brinson Demery 2013-09-24 In November 1963, the president of South Vietnam and his brother were brutally executed in a coup that was sanctioned

and supported by the American government. President Kennedy later explained to his close friend Paul "Red" Fay that the reason the United States made the fateful decision to get rid of the Ngos was in no small part because of South Vietnam's first lady, Madame Nhu. "That goddamn bitch," Fay remembers President Kennedy saying, "She's responsible ... that bitch stuck her nose in and boiled up the whole situation down there." The coup marked the collapse of the Diem government and became the US entry point for a decade-long conflict in Vietnam. Kennedy's death and the atrocities of the ensuing war eclipsed the memory of Madame Nhu -- with her daunting mixture of fierceness and beauty. But at the time, to David Halberstam, she was "the beautiful but diabolic sex dictatress," and Malcolm Browne called her "the most dangerous enemy a man can have." By 1987, the once-glamorous celebrity had retreated into exile and seclusion, and remained there until young American Monique Demery tracked her down in Paris thirty years later. Finding the Dragon Lady is Demery's story of her improbable relationship with Madame Nhu, and -- having ultimately been entrusted with Madame Nhu's unpublished memoirs and her diary from the years leading up to the coup -- the first full history of the Dragon Lady herself, a woman who was feared and fantasized over in her time, and who singlehandedly frustrated the government of one of the world's superpowers.

**The Dragon in the Jungle** Xiao-Bing Li 2020-01-09 Western historians have long speculated about Chinese military intervention in the Vietnam War. It was not until recently, however, that newly available international archival materials, as well as documents from China, have indicated the true extent and level of Chinese participation in the conflict of

Vietnam. For the first time in the English language, this book offers an overview of the operations and combat experience of more than 430,000 Chinese troops in Indochina from 1968-73. The Chinese Communist story from the "other side of the hill" explores one of the missing pieces to the historiography of the Vietnam War. The book covers the chronological development and Chinese decision-making by examining Beijing's intentions, security concerns, and major reasons for entering Vietnam to fight against the U.S. armed forces. It explains why China launched a nationwide movement, in Mao Zedong's words, to "assist Vietnam and resist America" in 1965-72. It details PLA foreign war preparation, training, battle planning and execution, tactical decisions, combat problem solving, political indoctrination, and performance evaluations through the Vietnam War. International Communist forces, technology, and logistics proved to be the decisive edge that enabled North Vietnam to survive the U.S. Rolling Thunder bombing campaign and helped the Viet Cong defeat South Vietnam. Chinese and Russian support prolonged the war, making it impossible for the United States to win. With Russian technology and massive Chinese intervention, the NVA and NLF could function on both conventional and unconventional levels, which the American military was not fully prepared to face. Nevertheless, the Vietnam War seriously tested the limits of the communist alliance. Rather than improving Sino-Soviet relations, aid to North Vietnam created a new competition as each communist power attempted to control Southeast Asian communist movement. China shifted its defense and national security concerns from the U.S. to the Soviet Union.

**The Real Dragon** Louisa Hagner Trigg 2001 Allison Giraud is the American widow of a French planter murdered by the Viet Minh. Joe Ruffin is an American doctor-missionary. Mark Gardiner is a well-meaning stuffed shirt in the U.S. Embassy. Katherine Gregory is the bored wife of a USAID official. A few of the Americans in this epic novel, all looking for love as if it might be their last chance before the world changes for the worse. Meanwhile, a quarrelsome and passionate trio of Viet Cong revolutionaries plot the assassination of the

Vietnamese Province chief in Dalat, the village where the American ambassador has his country villa. East meets West violently, testing everyone's courage, honor and love. The story moves all over Saigon, from the steamy back streets and the hushed verandas of foreign society to Angkor Wat, and reaches its climax in a jungle where foreigners are seldom seen -- and less than welcome.

**Hoosiers and the American Story** Madison, James H. 2014-10-01 A supplemental textbook for middle and high school students, *Hoosiers and the American Story* provides intimate views of individuals and places in Indiana set within themes from American history. During the frontier days when Americans battled with and exiled native peoples from the East, Indiana was on the leading edge of America's westward expansion. As waves of immigrants swept across the Appalachians and eastern waterways, Indiana became established as both a crossroads and as a vital part of Middle America. Indiana's stories illuminate the history of American agriculture, wars, industrialization, ethnic conflicts, technological improvements, political battles, transportation networks, economic shifts, social welfare initiatives, and more. In so doing, they elucidate large national issues so that students can relate personally to the ideas and events that comprise American history. At the same time, the stories shed light on what it means to be a Hoosier, today and in the past.

*Waltzing with the Dragons* Juliette Mai Triozon 2019-05-28 *Waltzing with the Dragons* is the true story of a Vietnamese woman and her Eurasian daughter. Born in 1922 in the north of Vietnam, under French colonial rule, Ly was the daughter of one of the last Mandarins, a childhood friend of Ho Chi Minh. After she rebelled against her family, by refusing an arranged marriage at thirteen, she was sent to live with her father's best friends, a French couple. It was the beginning of a life-long love affair with French culture and lifestyle. At seventeen, she married a French army officer who, shortly thereafter, was killed in action. She lived through the Japanese occupation during World War II, escaped her captors and after many adventures, found her way south. From having lost everything, in Cholon (the Chinese quarter of Saigon), she established herself as a successful business-woman under the protection of the gangland bosses who dominated the city in the late forties. It was during this time that she met the love of her life, a doctor in the French army. From this passionate affair, she became pregnant with her only child: Mai-Tâm,

her daughter. Her lover having returned to France, she gave birth alone amid the dawning realization that he was not going to come back. Born in Saigon in 1952, Mai-Tâm grew up in the twilight of the French Colonial era, which ended in 1954 with the defeat at Dien Bien Phu by the forces of Ho Chi Minh. A child of mixed race, she did not feel she belonged anywhere, and it was only within her Vietnamese family that she felt loved and protected. During her childhood, she was victim of the increasingly aggressive Vietnam War as well as the disruptive and unhappy relationship of her mother with her second French husband. Her parents sent her to the safety of France in July 1967, where they joined her one year later, after the Têt offensive in 1968. Ly who became Anna and Mai-Tâm who became Juliette demonstrate how strength of character and determination can overcome all adversities.

**Revolutionary Wealth** Alvin Toffler 2006-04-25 Starting with the publication of their seminal bestseller, *Future Shock*, Alvin and Heidi Toffler have given millions of readers new ways to think about personal life in today's high-speed world with its constantly changing, seemingly random impacts on our businesses, governments, families and daily lives. Now, writing with the same rare grasp and clarity that made their earlier books classics, the Tofflers turn their attention to the revolution in wealth now sweeping the planet. And once again, they provide a penetrating, coherent way to make sense of the seemingly senseless. *Revolutionary Wealth* is about how tomorrow's wealth will be created, and who will get it and how. But twenty-first-century wealth, according to the Tofflers, is not just about money, and cannot be understood in terms of industrial-age economics. Thus they write here about everything from education and child rearing to Hollywood and China, from everyday truth and misconceptions to what they call our "third job"—the unnoticed work we do without pay for some of the biggest corporations in our country. They show the hidden connections between extreme sports,

chocolate chip cookies, Linux software and the “surplus complexity” in our lives as society wobbles back and forth between depressing decadence and a hopeful post-decadence. In their earlier work, the Tofflers coined the word “prosumer” for people who consume what they themselves produce. In *Revolutionary Wealth* they expand the concept to reveal how many of our activities—whether parenting or volunteering, blogging, painting our house, improving our diet, organizing a neighborhood council or even “mashing” music—pump “free lunch” from the “hidden” non-money economy into the money economy that economists track. Prosuming, they forecast, is about to explode and compel radical changes in the way we measure, make and manipulate wealth. Blazing with fresh ideas, *Revolutionary Wealth* provides readers with powerful new tools for thinking about—and preparing for—their future.
