The Triumph of Politics George Philip 2013-05-06 The Triumph of Politics offers a comparative and historical interpretation of Venezuela's Chavez, Bolivia's Morales and Ecuador's Correa - South America's most prominent '21st century socialists'. It argues that the claims of these 21st century socialists should be taken seriously even though not necessarily at face value. The authors show how the consensual market oriented policymaking that characterized almost all of South America in the 1990s has now given way to something quite different. Polarization and intense political conflict have returned to much of the region. Although the Left has not always been the beneficiary of this changed pattern, the '21st century' governments of Chavez, Morales and Correa have been agenda setters. The questions raised by their emergence, style of governance and policy orientations resonate across Latin America and beyond. It is likely that the kind of politics with which they have been associated will be influential in the region for quite some time to come.

Bad News from Venezuela Alan Macleod 2018-04-17 Since the election of

President Hugo Chavez in 1998, Venezuela has become an important news item. Western coverage is shaped by the cultural milieu of its journalists, with news written from New York or London by non-specialists or by those staying inside wealthy guarded enclaves in an intensely segregated Caracas. Journalists mainly work with English-speaking elites and have little contact with the poor majority. Therefore, they reproduce ideas largely attuned to a Western, neoliberal understanding of Venezuela. Through extensive analysis of media coverage from Chavez's election to the present day, as well as detailed interviews with journalists and academics covering the country, *Bad News from Venezuela* highlights the factors contributing to reportage in Venezuela and why those factors exist in the first place. From this examination of a single Latin American country, the book furthers the discussion of contemporary media in the West, and how, with the rise of 'fake news', their operations have a significant impact on the wider representation of global affairs. *Bad News from Venezuela* is comprehensive and enlightening for undergraduate students and research academics in media and Latin American studies.

Escrito por una talentosa nueva generación de politólogos peruanos, sus artículos engranan seriamente con lo más destacado de la teoría de política comparada, a la vez que ofrecen abundante y novedosa investigación empírica sobre el Perú. La iniciación de la política consigue ubicar al Perú en una perspectiva comparada como ningún otro libro que yo haya leído previamente sobre ese país. Es una referencia obligada no solo para los estudiantes peruanos sino para cualquier estudiante de política comparada en el mundo que busque una mejor comprensión sobre el Perú.

**An Agrarian Republic** Aldo Lauria-Santiago 1999-06-15 With unprecedented use of local and national sources, Lauria-Santiago presents a more complex portrait of El Salvador than has ever been ventured before. Using thoroughly researched regional case studies, Lauria-Santiago challenges the accepted vision of Central America in the nineteenth century and critiques the "liberal oligarchic hegemony" model of El Salvador. He reveals the existence of a diverse, commercially active peasantry that was deeply involved with local and national networks of power.

*Co-creating Actionable Science* Gloria L. Gallardo Fernández 2020-04-08 In response to the call for actionable and collaborative solutions-oriented research for sustainability, this collection of essays provides insights into the multi-layered challenges that underlie this fast-emerging field. It offers the reader a deeper understanding of the myriad local avenues where knowledge is co-produced to meet the grand challenge of our times—'transformation to sustainability'. Situated within a wide variety of research settings in the global North and South, the contributions here variously probe how actionable science emerges (or fails to emerge) in this process. From diverse perspectives, they ruminate on various research practice topics, including how to reconcile scientific understanding with normative action, how to acknowledge and integrate participant knowledge in research, and how to handle potential negative impacts of actionable science. In examining these rarely reflected-upon questions, the book provides valuable, empirically-based insights into research practice, and will be useful for scholars and educators working with transdisciplinary research design and practice.

**2004** Massimo Mastrogregori 2013-10-10 Annually published since 1930, the International Bibliography of Historical Sciences (IBOHS) is an international bibliography of the most important historical monographs and periodical articles published throughout the world, which deal with history from the earliest to the most recent times. The IBOHS is thus currently the only continuous bibliography of its kind covering such a broad period of time, spectrum of subjects and geographical range. The works are arranged systematically according period, region or historical discipline, and alphabetically according to authors names or, in the case of anonymous works, by the characteristic main title word. The bibliography contains a geographical index and indexes of persons and authors.

**Latin American Democracies** John A. Peeler 2014-02-01 Using the cases of Columbia, Costa Rica, and Venezuela, Peeler compares the evolution and maintenance of liberal democratic regimes in the Latin American context. These regimes are shown to be products of the normal

Latin American political processes, under particular conditions that have permitted accommodation between rival political and economic elites. The author argues that these liberal democracies are fundamentally similar to those in other parts of the world. Originally published in 1985. The Crisis of Democratic Representation in the Andes Scott Mainwaring 2006 The essays in this book analyze and explain the crisis of democratic representation in five Andean countries: Bolivia, Colombia, Ecuador, Peru, and Venezuela. In this region, disaffection with democracy, political parties, and legislatures has spread to an alarming degree. Many presidents have been forced from office, and many traditional parties have fallen by the wayside. These five countries have the potential to be negative examples in a region that has historically had strong demonstration and diffusion effects in terms of regime changes. "The Crisis of Democratic Representation in the Andes" addresses an important question for Latin America as well as other parts of the world: Why does representation sometimes fail to work?

In the Lands of Oligarchs Magnus Lembke 2006

El proyecto Chávez (1999-2007) Gilberto Aranda Bustamante 2013 Este texto revisa discursos y prácticas del gobierno del Presidente Hugo Chávez Frías para el período (1999-2007). Chávez desplegó un mensaje de "redención" política y social para el pueblo venezolano, con la igualdad como valor prioritario, y que hemos denominado "isocracia". Adicionalmente, propuso una nueva democracia: "participativa y protagónica" dotada con mecanismos institucionales de participación popular directa en los procesos de decisión político- legislativa y de gestión económica local, a través de programas conocidos como

misiones. En la arena internacional, después del frustrado golpe de Estado en abril de 2002 el gobierno de Chávez aceleró un giro hacia estrategias pos-comerciales (como el ALBA) y la promoción del multipolarismo, densificando las relaciones venezolanas con potencias extra-regionales. Esta obra es un intento de responder si el chavismo es una ruptura radical con el pasado inmediato venezolano o si fue una experiencia gatopardesca de corte populista, sin eludir a la pregunta ¿Es posible el chavismo sin Chávez?

*Green Political Thought* Andrew Dobson 2012-10-02 Andrew Dobson's highly acclaimed introduction to green political thought is now available in a new edition. It has been fully revised and updated to take into account the areas that have grown in importance since the last edition was published. The third edition includes: \* a comparison of ecologism with other principal modern ideologies, such as liberalism, conservatism, fascism, socialism, feminism and anarchism \* an assessment of the relationship between green thinking and democracy, justice and citizenship \* an exploration of 'sustainable development' addressing the fundamental question of 'what to sustain?' \* real environmental problems and how green thinking relates to them.

**Social and Political Transitions During the Left Turn in Latin America** Karen Silva-Torres 2021-09-09 Social and Political Transitions During the Left Turn in Latin America provides fourteen contributions to understand, from a multidisciplinary perspective, processes of socio-political reconfigurations in the region from the early 2000s to the mid-2010s. The Left Turn was the regional shift to left-of-center governments and social movements that sought to replace the neoliberal policies of the 1990s. This volume aims to answer the overarching research question: how do state and societal (national and transnational) actors trigger and shape processes of political and socio-economic transitions in Latin America from the rise to the decline of the Left Turn. The book presents case studies in which transitions are moments of change and uncertainty, which one cannot predict their definitive outcomes. The various case studies presented in the book place actors

and processes in specific historical and socio-political contexts, which are influenced directly or indirectly by the historical trajectory of Latin America's Left Turn. This book is essential reading for students and scholars of Social and Political History, Latin American History, and those interested in the social and political developments in Latin America more broadly.

**Bolivia** Kepa Artaraz 2012 "The election of the Movimiento al Socialismo (MAS, movement towards socialism) to power in Bolivia in 2006 marked a historic break from centuries of foreign domination and indigenous marginalisation. Evo Morales, leader of the MAS, became the first indigenous president of Bolivia. Kepa Artaraz looks at the attempt to 'refound the nation' which the new government has made as its goal. He shows how the mix of Marxism, indigenous liberation politics, anti-imperialism and environmentalism has made Bolivia one of the most interesting and unique political experiments of Latin America's 'red decade'. As the historic left-turn in Latin America reaches a crossroads, Bolivia: Refounding the Nation guides us through the politics and ideas which have animated this popular movement, drawing out important lessons for progressive politics everywhere."--Publisher's website.

**The Paradox of Democracy in Latin America** Katherine Isbester 2011-01-01 Inviting in tone and organization but rigorous in its scholarship, this collection focuses on the problems, successes, and multiple forms of democracy in Latin America.

**Presidential Breakdowns in Latin America** M. Llanos 2010-03-01 This volume is the first comprehensive analysis of a new type of executive instability without regime instability in Latin America referred to as "presidential breakdown." It includes a theoretical introduction framing the debate within the institutional literature on democracy and democratization, and the implications of this new type of executive instability for presidential democracies. Two comparative chapters analyze the causes, procedures, and outcomes of presidential breakdowns in a regional perspective, and country studies provide in-depth analyses of all countries in Latin America that have experienced

one or several presidential breakdowns: Argentina, Bolivia, Brazil, Dominican Republic, Ecuador, Guatemala, Paraguay, Peru, and Venezuela. The book also includes an epilogue on the 2009 presidential crisis in Honduras.

*Rural Progress, Rural Decay* Liisa North 2003 \* Profiles Ecuador as a broadly applicable case study to explore grassroots development initiatives \* Stresses how macroeconomic conditions must change to achieve equitable development How do rural development programs, especially those run by nongovernmental organizations, contend with the forces of structural adjustment programs and economic liberalization? Rural Progress, Rural Decay asserts that NGOs make little progress in promoting equitable development and "poor people's entrepreneurship" in an economic and political environment dominated by big business. The editors probe the adverse consequences of neoliberal macroeconomic policies on development in low-income countries. This illuminating study is a necessary read for those interested in local communities in Latin America and other parts of the developing world.

**Contemporary U.S.-Latin American Relations** Jorge I. Domínguez 2016-03-02 Drawing on the research and experience of fifteen internationally recognized Latin America scholars, this insightful text presents an overview of inter-American relations during the first two decades of the twenty-first century. This unique collection identifies broad changes in the international system that have had significant effects in the Western Hemisphere, including issues of politics and economics, the securitization of U.S. foreign policy, balancing U.S. primacy, the wider impact of the world beyond the Americas, especially the rise of China, and the complexities of relationships between neighbors. The second edition of Contemporary U.S.-Latin American Relations focuses on U.S. neighbors near and far—Mexico, Cuba, Argentina, Brazil, Chile, Colombia, Peru, and Venezuela. Each chapter addresses a country's relations with the United States, and each considers themes that are unique to that country's bilateral relations as well as those themes that are more general to the relations of Latin

America as a whole. The book also features new chapters on transnational criminal violence, the Latino diasporas in the United States, and U.S.-Latin American migration. This cohesive and accessible volume is required reading for Latin American politics students and scholars alike.

**The Failure of Political Reform in Venezuela** Julia Buxton 2020-09-29 This title was first published in 2001. The victory of former lieutenant colonel Hugo Chavez in the Venezuelan presidential elections of 1998 was criticized as a blow against the country's deep-seated democratic tradition. It is claimed that this simplistic argument fails to recognize the extent of democratic deterioration in the country and the limitations imposed by discredited political actors on a meaningful democratic reform process. The book aims to break new ground in providing unseen evidence of electoral fraud and offers a fresh perspective on the nature of democratic development.

**State Crisis in Fragile Democracies** Samuel Handlin 2017-07-26 This book develops a new political-institutional explanation of South America's 'two lefts' and the divergent fates of the region's democratic regimes.

**Political Parties and Democracy in Theoretical and Practical Perspectives** Sefakor Ashiagbor 2013-09-29 This latest addition to the Institute's Political Parties and Democracy in Theoretical and Practical Perspectives series describes some of the approaches that political parties around the world have used to fulfill their policy formulation role. The first section describes comparative approaches in developing party ideologies, rules, structures, and processes that can improve policy processes. In the second section, 12 case studies provide overviews of practical experiences in party policy development around the world.

**The Confrontational 'Us and Them' Dynamics of Polarised Politics in Venezuela** Ybiskay González Torres 2021-11-11 This study takes a

deep dive into the political polarisation in Venezuela, a country with almost two decades of conflict between Chavismo and the Opposition disputing the meaning of democracy.

**Party Systems in Latin America** Scott Mainwaring 2018-02-08 Based on contributions from leading scholars, this study generates a wealth of new empirical information about Latin American party systems. It also contributes richly to major theoretical and comparative debates about the effects of party systems on democratic politics, and about why some party systems are much more stable and predictable than others. Party Systems in Latin America builds on, challenges, and updates Mainwaring and Timothy Scully's seminal Building Democratic Institutions: Party Systems in Latin America (1995), which re-oriented the study of democratic party systems in the developing world. It is essential reading for scholars and students of comparative party systems, democracy, and Latin American politics. It shows that a stable and predictable party system facilitates important democratic processes and outcomes, but that building and maintaining such a party system has been the exception rather than the norm in contemporary Latin America.

**Andean Entrepreneurs** Lynn Meisch 2002-12-01 Native to a high valley in the Andes of Ecuador, the Otavalos are an indigenous people whose handcrafted textiles and traditional music are now sold in countries around the globe. Known as weavers and merchants since pre-Inca times, Otavalos today live and work in over thirty countries on six continents, while hosting more than 145,000 tourists annually at their Saturday market. In this ethnography of the globalization process, Lynn A. Meisch looks at how participation in the global economy has affected Otavalo identity and culture since the 1970s. Drawing on nearly thirty years of fieldwork, she covers many areas of Otavalo life, including the development of weaving and music as business enterprises, the increase in tourism to Otavalo, the diaspora of Otavalo merchants and musicians around the world, changing social relations at home, the growth of indigenous political power, and current debates within the Otavalo community over preserving cultural identity in the face of globalization and transnational migration. Refuting the belief that contact with the

wider world inevitably destroys indigenous societies, Meisch demonstrates that Otavalos are preserving many features of their culture while adopting and adapting modern technologies and practices they find useful.

**The Communist Party of Venezuela** Robert Jackson Alexander 1969 Study of the communist political party of Venezuela - covers the historical setting and evolution, tactics of violence and terrorism, structure and membership, legal status, role in political leadership, integration with the national level environment (incl. Demographic aspects and geographical aspects, economic implications and political aspects, the social structure, religion, etc.), relations with other communist parties, etc. Annotated bibliography, references and statistical tables.

*Direct Democracy Worldwide* David Altman 2010-12-20 Challenging the common assumption that models of direct democracy and representative democracy are necessarily at odds, *Direct Democracy Worldwide* demonstrates how practices of direct and representative democracy interact under different institutional settings and uncovers the conditions that allow them to coexist in a mutually reinforcing manner. Whereas citizen-initiated mechanisms of direct democracy can spur productive relationships between citizens and political parties, other mechanisms of direct democracy often help leaders bypass other representative institutions, undermining republican checks and balances. The book also demonstrates that the embrace of direct democracy is costly, may generate uncertainties and inconsistencies, and can be manipulated. Nonetheless, the promise of direct democracy should not be dismissed. Direct democracy is much more than a simple, pragmatic second choice when representative democracy seems not to be working as expected. Properly designed, it can empower citizens, breaking through some of the institutionalized barriers to accountability that arise in representative systems.

**New Constitutionalism in Latin America** Almut Schilling-Vacaflor 2016-04-29 Latin America has a long tradition of constitutional reform. Since the democratic transitions of the 1980s, most countries have amended their constitutions at least once, and some have even undergone constitutional reform several times. The global phenomenon of a new constitutionalism, with enhanced rights provisions, finds expression in the region, but the new constitutions, such as those of Bolivia, Colombia, Ecuador and Venezuela, also have some peculiar characteristics which are discussed in this important book. Authors from a number of different disciplines offer a general overview of constitutional reforms in Latin America since 1990. They explore the historical, philosophical and doctrinal differences between traditional and new constitutionalism in Latin America and examine sources of inspiration. The book also covers sociopolitical settings, which factors and actors are relevant for the reform process, and analyzes the constitutional practices after reform, including the question of whether the recent constitutional reforms created new post-liberal democracies with an enhanced human and social rights record, or whether they primarily serve the ambitions of new political leaders.

*Bankrupt Representation and Party System Collapse* Jana Morgan 2011-11-23 In recent decades, Bolivia, Colombia, Italy, and Venezuela have all faced the turmoil and democratic crisis of party system collapse. In *Bankrupt Representation and Party System Collapse*, Jana Morgan analyzes the causes of such collapse. She does so through a detailed examination of Venezuela's traumatic party system decay as well as comparative analysis of seven other countries. Collapse occurs when the party system as a whole is unable to provide adequate linkage between society and the state, failing to furnish programmatic representation, integration of major societal interests, or clientelist exchanges. Linkage decays when party systems face challenges that jeopardize their core strategies at the same time that they are constrained in their ability to adapt and to confront these threats. If this decay is unchecked and linkage of all sorts fails, then the bankrupt party system collapses.
