You will find some interesting revelations and secrets you probably never heard about. Some myths and truths, and other curious stuff about snakes that children just find cool and groovy to know are included. Did you know that in captivity, many of the snake species can live for surprisingly very long times? The average is somewhere between 18-20 years! You and your child will learn lots more of such curious facts. As a mother of 3 young children and with the experience as an elementary teacher, writer, and publisher of many publications for kids, Kate Cruso has learned to listen to kids because this is a book series inspired by kids and for kids! Kids learn about new & interesting facts so that a combination of both the curious & the new materials and facts together with the visual aspect of the pictures. Children are entertained with the coolness factor of the discovery book plus they learn some new and a little bit harder to retain facts simultaneously with the cool stuff and this is how the child is going to retain info. It is a fact that kids just love these discovery picture books about weird animals and weird stuff that the animals are doing because they love the coolness & grooviness factor of the books. The discovery concept of this snake book, for example, transforms a little bit drier information and facts into brain-friendly information that the child will retain & that the child will be able to use as active information. This discovery book is brain-friendly and works in synchronization with your child's brain, not against it. If your child asks lots of questions you actually have the proof that providing discovery books to your child actually works because children who discover with their own senses & in an active and interactive way are able to develop intelligence on a much higher level than children who are not asking any questions and who are passively sitting in front of a TV all day long. Parents & home-schoolers alike are reporting unprecedented results from using her books as learning materials & they get results even with children who usually hate reading books & have learning & retaining new and dry information.
